Hello Students –

The first round of exams are over and hopefully things are going well.

This upcoming Saturday is our CTY Event – a Day in the Life of the Nervous System. Volunteers not only get to help out teaching middle and high school students (and their parents) about the nervous system, but you get a REALLY cool t-shirt.

We are busily organizing our courses for the fall and even though classes are not quite finalized, Junior Clearances have begun. Junior Clearance must be done prior to Fall Registration. Plus, there are added incentives if you do Junior Clearance prior to Spring Break. See below for tips on how to prepare for your faculty advisor Junior Clearance meeting.

Faculty Advisor meetings for Fall Registration will begin AFTER our course schedules are finalized.

DREAMS registration is now open. This event will count for the presentation requirement for Neuroscience and Behavioral Biology honors AND you can get your poster printed for free (see below).

Have a GREAT week!!!
