Learning Den Summer Term I Schedule

It may be summer, but tutoring services are still available on campus! See the complete schedule for Term I [here](http://tutoring.jhu.edu).

To reserve your seat, visit [http://tutoring.jhu.edu](http://tutoring.jhu.edu) and use your Hopkins ID (not your JhED ID) as BOTH your User ID and password. You can also call 410-516-8216 or stop in the Office of Academic Advising during business hours.

Email [tutoring@jhu.edu](mailto:tutoring@jhu.edu) for assistance or more information.

New Fully Online Master’s Program: Master of Applied Sciences (MAS) in Spatial Analysis

The Johns Hopkins Bloomberg School of Public Health will offer its first fully online, part-time Master’s degree program beginning this fall.

The Master of Applied Science in Spatial Analysis for Public Health is a completely new degree and is designed to meet the growing need for trained experts in this burgeoning field. From identifying cancer clusters to tracking the potential spread of the Zika virus, the science of spatial analysis examines the role of geography in public health and how to interpret public health data. It’s accomplished through a comprehensive spatial science paradigm, which includes components of spatial data, GIS and spatial statistics.

**Advantages:**
- Offered by the no. 1 school of public health
• Led by renowned experts who are shaping the field through research and application
• Online delivery gives flexibility and accessibility to students around the world
  • Competitive price point for tuition
• Program can be completed in as little as 24 months
• No prior work experience or study in geospatial-related fields is required

Find out more information about this program here.

JHU Study Abroad

Are you participating in an international internship, research or activity this summer? If so, you must contact or come in to the Office of Study Abroad to complete forms!

Are you participating in an international activity during intersession including independent study, research, or volunteer activities (Engineers Without Borders, Global Brigades, etc.)?

Please complete the forms on the Study Abroad website:
• International Research/Independent Study Application
• International Project Registration Form
• International Activities with a Student Organization Student Form

Applications and forms are also available in the Office of Study Abroad. We will also be giving you important information and registering you in the Johns Hopkins International Travel Registry.

Contact the Office of Study Abroad as soon as possible with any questions.

Johns Hopkins University Office of Study Abroad
Levering Hall 04B, 3400 North Charles Street Baltimore, MD 21218
410-516-7856, 7066 | Fax 410-516-7878

Applied Experience

Clinical Research Assistant

We are looking for a motivated student to assist with data collection for a clinical research project. The project involves the evaluation of clinical information through a review of the electronic medical record for patients seen in the Moore Clinic (Adult HIV Clinic) and Access Care Early (ACE) program. The ACE program serves patients between the ages of 18-30 living with HIV. Responsibilities will include the review of clinical data and abstraction into a data collection
template. This is an opportunity to learn more about the care of youth living with HIV and the factors that may or may not improve their clinical outcomes. Necessary skills include knowledge of Microsoft Excel, Word, and Power Point. Knowledge of Microsoft access will also be helpful, but not essential. An ability to navigate electronic medical records after an initial training is also essential. 15 hours per week for the summer (at least 8-9 weeks) is required. Credit would be provided for this opportunity.

The **Department of Health, Behavior, and Society** at the Johns Hopkins Bloomberg School of Public Health is looking for two to three outgoing, hardworking undergraduates to assist with the **AAAFTS Senior Driver Cohort LONGRoad** study. The study is designed to provide much needed information for advancing the science and practice of safe mobility through a life-course perspective and contribute profoundly to traffic safety and public health. The research assistants will prepare recruitment mailings, call potential participants to conduct an initial screening for eligibility, administer study procedures and complete additional research support activities as necessary. Work schedule is flexible. These will be paid positions. See [here](#) for more details.

Browse through the [Applied Experience PHS website](#) to find more details. Please refer to the [AE Classified page](#) where new opportunities are posted.

---

**Internships & Service**

**Internship Positions Available at Planned Parenthood**

Are you still looking for a summer internship? Planned Parenthood has several openings for positions beginning this summer and continuing into the fall. Although these positions are unpaid and cannot be used for academic credit, any of them would be a great way to fulfill your applied experience requirement. The position descriptions are linked below. Some relevant details:

- The [Community Education](#) and [Bilingual Community Education](#) volunteer positions both begin July 5th.
- The [Text Service internship](#) has a start date of July 21st.
- The [Seventeen Days internship](#) will start as soon as possible.

To apply for any of these for positions, you will need to complete the [Education Application](#), and return it to Vanessa Geffrard ([vanessa.geffrard@ppm.care](mailto:vanessa.geffrard@ppm.care)) at Planned Parenthood of Maryland.
Remedy Plan Summer Internship

Remedy Plan (remedyplan.com) is a new small biotech company focused on the development of cancer containment therapy. We are looking for an intern that wants to be part of getting a research program started from the ground up.

We are looking for someone with cell and molecular biology research experience, especially cell culture. Cloning experience is a big plus: PCR, digestions, ligations, running gels, sequencing, etc.

We need someone who is self-motivated and capable of learning very quickly. Strong communication and organization skills and English fluency are essential.

Center for Global Health and Diplomacy Student Ambassador Position

The Center for Global Health and Diplomacy (GHD) is currently seeking outstanding undergraduates to join its inaugural cohort of student ambassadors. Ambassadors will each be assigned a target country and will conduct research in the priority areas of global health security and migrant health. For their work, ambassadors will be recognized as contributors to our quarterly publication, Global Health and Diplomacy. In September, ambassadors will attend the GHD events organized alongside the UN General Assembly. Exemplary ambassadors may also be invited to other GHD conferences.

Ambassadorships last from February to December and require a flexible commitment of four hours per week. Upon completion, ambassadors will receive a GHD certificate of service, documenting practical competence in global health and diplomacy. Ambassadorships are well suited for pre-professional students in medicine or law and for individuals seeking careers in the nonprofit sector or foreign service.

To apply, please email an unofficial copy of your transcript and a short bio of yourself to Jason Parad (jparad@cghd.org). The bio should be between 80 and 100 words and note any relevant experience and future career goals.

The Center for Global Health and Diplomacy (GHD) is a leading nonprofit convener and publisher headquartered in Washington, D.C. With partnerships spanning 52 countries, GHD provides a rare platform for government, civil society, academia, and the private sector to explore multi-stakeholder solutions in global health.

Fellowships & Grants

Research Assistant Position

The Center for Child and Community Health Research (CCHR) in the Johns Hopkins School of Medicine seeks a Full-time research assistant for biomedical research. The research assistant would be responsible for:

- Database development and database management for research projects and programs;
- Developing and building data collection tools within databases while working with Primary
Investigators and identified faculty and staff;
· Performing QA/QC of data and associated databases; and
· Exporting data and compiling reports as needed.

Knowledge of database development, specifically Teleform, ACASI, REDCap and Qualtrics a plus but not required. Must be able to handle multiple tasks at once; meet deadlines, familiar with databases, detailed, flexible, and able to manage relationships.

If interested, please email a resume and your hours of availability to Dr. Kevin Psoter (kpsoter1@jhu.edu), Research Associate Faculty, Department of Pediatrics, Johns Hopkins School of Medicine.

The Summer Serve and Learn volunteer program offers an once-in-a-lifetime experience in international development work in Africa. Our volunteers take part in 16-day sessions working alongside local staff to reach common goals. Our programs are each designed to complement our year-round programming and the skills and expertise of our volunteers. By volunteering, you will have the opportunity to learn from the local community and gain profound insight into life in rural Ghana. You will benefit from the Twi language lessons, discussions on pertinent topics and cultural exchanges, such as meeting the village chief, a drumming and dancing workshop, and traveling to sites such as the historic Ghanaian cities of Kumasi and Cape Coast.

To learn more, check out our [website](#)

Seeking research funding or National Scholarships?
Have you viewed the following options?

The Krieger School of Arts and Sciences offers an incredible array of opportunities for student researchers in the areas of natural science, social science, and humanities. In addition to the three main undergraduate research awards — [Woodrow Wilson](#), [DURA](#), and [PURA](#) — explore the additional links posted on the [KSAS Research Site](#). For a complete list of fellowships, grants, honors, and awards available to Krieger School undergraduates, visit the [undergraduate academic advising site](#).

Students are also invited to look beyond the School of Arts and Sciences for research funding. Johns Hopkins is committed to providing support for students interested in applying for nationally competitive fellowships. Learn more about the [JHU National Fellowships and Scholarships Program](#).
Johns Hopkins Center for Communication Programs (CCP) is searching for a student employee to join their team. Specifically the student will submit a lit review about the best practices (and what does not work) to refer people to health services such as ANC, child birth, malaria, HIV testing, HIV treatment, malaria testing, malaria IPT, etc. Referrals made by community health agents of all types are appropriate. The student will also collate referral experiences from the various CCP programs, presenting a range of information about what works, use of mobile technology, stigma and service use.

This is a paid position, starting as soon as possible. See more information here. To apply, contact Claudia Vondrasek (cvondrasek@jhu.edu).

Position Available with the Medical Education and Perspectives (MEP) Campaign for Progress

The Medical Education and Perspectives (MEP) Campaign for Progress is working to create a community partnership to address the children’s bike helmet use in East Baltimore as well as a media campaign (3-5 minute video) pitch to key stakeholders. The team is currently assessing best practices for community partnerships with free/low cost helmet and safety incentive programs for children. Also, the team is connecting with a local community-based organization to ensure sustainability of the project. The winning pitch will receive $5,000 to put the proposed solution in action. http://mepjhu.tumblr.com/

MEP is looking for an undergraduate student to join the team this summer, to assist with video campaign creation and a literature search to support bike helmet video proposal.

See more details here. Contact Stacy Nam (snam@jhu.edu) to apply.

Research Assistant Positions Available with The Institute for Global Tobacco Control

The Institute for Global Tobacco Control has two job openings for Research Assistants, who will contribute to the Tobacco Pack Surveillance System Project.

These are both fulltime, paid positions, best suited to someone who has recently finished undergrad. See the job descriptions and apply here and here.

Attention Seniors: Training Resources Network, Inc. Program Coordinator/Office Manager

This is a part-time to full-time position for a small business. The position has a broad range of duties. These may vary from general administration support to managing specific projects and may include errands. The position may be full-time with adequate bookkeeping experience.

For more information on position and on how to apply, click here.

Email Camille Koonce at ccami401@aol.com with your resume if you are interested!

Urban Indian Health Institute Position
Public Health Trainee (Temp/Part-Time):
Are you a high school senior or undergraduate college student looking for a unique summer experience? Are you considering a career in health (in education, policy, research, or health care)? Do you want to learn how health data and information can be used to understand and improve the issues affecting the well-being of American Indians and Alaska Natives (AI/ANs)? Each summer the Urban Indian Health Institute (UIHI), a Division of the Seattle Indian Health Board offers a job opportunity for a Public Health Trainee to help people explore the field of public health in a community-based setting.

For more information on the position and how to apply, click here.

Research Assistant Position at Johns Hopkins University School of Medicine

The research assistant will assist the Principal Investigator and research team with all aspects of the project, entitled, “Creating the DiabetesSistersNet to engage women with diabetes about research and healthcare priorities”. The goal of the project is to create and pilot test an interactive, engaging website for women with diabetes to provide input about what is important for research and healthcare to improve their health and well-being.

This position is part-time during the fall, with the option for full time beginning in the summer. If interested, please send a statement of interest and your CV to Dr. Wendy Bennett: wendy.bennett@jhmi.edu

See more details here.

Office Assistant Position Available with the Rales Health Center

The Rales Health Clinic is looking to hire at least one student to assist with data entry and other office tasks at their KIPP Baltimore location (4701 Greenspring Ave, Baltimore, MD 21209). Eventually, this student may become involved in research opportunities at the center. Pay is $10.00 per hour. The student must arrange their own transportation. To learn more about the Rales project, visit the website here. Contact Gaby Calderon Velazquez to apply.

East Coast Operations Associate

The Associate will take phone calls from patients via our chat support platform. The Associate will be the liaison between doctors, patients, and internal operations. This job requires reliability and the ability to work independently. There will be in-depth training sessions held in the first two weeks. There is possibility to develop into a full-time position, and lead operations on the East Coast as PlushCare grows.

Find more information about this position and how to apply here.

FDA Center for Biologics Evaluation and Research (CBER) Seeking Post-Baccalaureate Fellows

We are looking to fill 3 or 4 one-year post-bac positions in our bacterial genetics lab (under principal investigator Scott Stibitz) at CBER/FDA starting this summer. We are looking for recent
grads with some experience with bacteriology and molecular biology. Post-bacs will be working on different projects (Staphylococcus aureus pathogenesis and genetics, Salmonella acid resistance, Shigella vaccine development, Bordetella genetics, and probiotic assay development), but all projects would involve a good deal of cloning and some protein expression. Our lab is within a research branch of the Center for Biologics Evaluation and Research (CBER), located in a new facility on the Food and Drug Administration headquarters main campus at White Oak/Silver Spring, Maryland.

Interested candidates should email their resumes to Roger Plaut at Roger.Plaut@fda.hhs.gov.

---

**Summer Positions Available**

Dr. Xiaobin Wang in the Center on the Early Life Origins of Disease in the Department of Population, Family and Reproductive Health at the Johns Hopkins Bloomberg School of Public Health is looking for undergraduate students to help with data entry, filing, and data tracking through excel and Teleform Survey system. The data is from Dr. Wang’s Boston Birth Cohort. To learn more about Dr. Wang and the Center on the Early Life Origins of Disease, please see this link.

Full time preferred but open to part-time applicants.

Training begins late May/Early June.

Details and hours can be discussed with her program manager Deanna Caruso. If interested, contact Miss Caruso at dcaruso6@jhu.edu.
