Information Sessions:
February 15, 2017 at 12pm, Mattin 161
and
5pm, Public Health Studies Office
Second James D. Goodyear Public Health Service in Baltimore Award

The Public Health Studies program is now accepting applications for the second James D. Goodyear Public Health Service in Baltimore Award. Named in honor of the former Associate Director of Public Health Studies, this award will provide a stipend of $3000 to one Public Health Studies undergraduate student per year, allowing the student to complete an otherwise unpaid public health service internship based in Baltimore City.

Applicants must have already secured an internship for the summer of 2017 in order to be considered for the award. An application essay, describing the scope of the internship and its relevance to your career development, current academics and future goals is required. Click [this link](#) for complete requirements and the application.

Applications are due to Caroline Barry by 5pm on April 10th, 2017. Contact the Public Health Studies office with any questions. If you would like to donate to the Goodyear Award fund, you may do so [here](#).

Careers 101

All journeys require the necessary preparation and tools in order to succeed. Careers 101 is a combination of short activities that will help you prepare for your EPIC career journey that starts at Johns Hopkins University.

Careers 101 is a prerequisite for Freshmen and Sophomores, and all students are encouraged to take advantage of these activities at any time regardless of where they are in their career journey.

The Career Center believes the following five activities will equip students with the tools they need to begin their career journey.

Freshmen and Sophomores must complete all five activities will have access to individual coaching appointments/sessions.

Access Careers 101 via the Career Center’s Blackboard site, under My Organizations: [http://studentaffairs.jhu.edu/careers/students/careers-101/](http://studentaffairs.jhu.edu/careers/students/careers-101/)

Politik Focus, Johns Hopkins’ first and only online political video series, invites you to learn more about the world of broadcast journalism!

Our team produces news segments, roundtables, and interviews concerning current events. We provide a unique opportunity for students to gain hands-on experience in broadcasting, producing, writing, and directing. If you want to help shape public opinion on campus and are interested in media, politics, and current affairs, fill out this form: [https://docs.google.com/forms/d/1-8zYkxsRi9v8iV1zrAZcq8oYSLAwmUuV3a8x_KV25EI/viewform?ts=58990172&edit_requested=true](https://docs.google.com/forms/d/1-8zYkxsRi9v8iV1zrAZcq8oYSLAwmUuV3a8x_KV25EI/viewform?ts=58990172&edit_requested=true) (its super short, we promise!) or join us at our weekly meeting on Sunday, 4pm, Mattin 161.

For more information email Politikfocus@gmail.com. Also, be sure to check our Facebook page at [https://www.facebook.com/politikfocus/](https://www.facebook.com/politikfocus/) and our Youtube page at [https://www.youtube.com/channel/UC1xUwhr731C-xlHyEgl7E1w](https://www.youtube.com/channel/UC1xUwhr731C-xlHyEgl7E1w).
Upcoming Events

This event provides a convenient location for organization and agency representatives from around the country to gather and discuss organizational functions, employment opportunities, consultancies, internships, and career information. The fair is open to all undergraduate and graduate students.

The event will take place in Feinstone Hall and the 1st Floor Gallery. Pre-registration is not necessary; however you will be required to sign-in. Business attire is strongly recommended.

Click here for more information.

The Counseling Center: Group Therapy Sessions for Spring 2017

One of the most important aspects of group therapy is the trust that is built between members. Each member must be prepared to make a commitment of confidentiality and respect for each of their fellow members. Depending on the group, some other commitments might include agreeing to come for a minimum number of sessions, coming to every group meeting or informing group facilitators should you have to miss a group. As in any relationship, the development of trust, cohesion, and a sense of safety allows people to talk personally and honestly.

If you are interested in Group Therapy, check out the full schedule here.

Internship Week at the Career Center

February 13 - 16 is Internship Week, and students are invited to various events hosted at the Career Center! Make sure you register for the events on Handshake!
China Data and GIS Workshop

There will be an exciting training opportunity on China (and US) data and GIS coming up next month (12pm-3pm, March 2, Thursday) at the MSE Library, Johns Hopkins University. This half day event includes half an hour introduction to data and GIS services at MSE Library, JHU by Mr. Jim Gillispie, head of Data and GIS Services JHU, and a two-hour workshop on China and US economy and health data and GIS by Dr. Bao Shuming, director of China Data Center, University of MI.

Please RSVP now by registering via this link.

First Annual Pre-Health Convention
March 30 – April 2, 2017
Norfolk Waterside Marriott in Norfolk, VA

This four-day conference is aimed at empowering all students interested in pursuing a career in healthcare by bridging their access to our distinguished selection of keynote speakers, admissions panels, and workshops within a variety of health professions. This unparalleled networking experience gives students an opportunity to explore a number of health professions and meet with a vast number of Deans, Vice-Presidents, Directors, and Advisors from the country’s premier healthcare schools, as well as interact with a number of exceptional leading experts and trailblazers in healthcare.

Community-Driven Research Day
Friday, March 3 from 1:00 to 4:00 p.m.
Johns Hopkins Welch Medical Library, 2nd floor, 1900 E. Monument Street, Baltimore, MD 21205
Register here.

Community-Driven Research Day is an opportunity for community-based organizations and city agencies to share their research questions and needs with students and faculty from Johns Hopkins and other local universities and to identify potential collaborations.

3rd Annual JHU Public Health in Asia Symposium
"The Price of Progress: Public Health Challenges Arising From An Evolving Asia"

Saturday, February 18, 2017 (12pm - 4pm) in Charles Commons Salon B on the Homewood Campus
The Public Health in Asia Symposium is a student-run event featuring keynote presentations from professionals in the field, as well as research presentations from undergraduate and graduate students. The event is free and lunch will be provided. Learn more at https://www.facebook.com/jhuphsa/

Participate in the WiSE Incubator: Innovative Ideas for a Healthier World Program

The WiSE Incubator program was developed by Policy Wisdom, a global public health policy firm
dedicated to shaping public health policies around the world. PW is challenging undergraduate and graduate students in the Public Health field to develop innovative health policies to help communities and societies achieve health equity, access to health, health protection and, sustainability, with emphasis on novel ideas. Selected proposed policies will be showcased in the First Annual Wise Innovative Health Policy Virtual Conference and a digital publication that will reach key constituencies in public health and health care.

Visit the program website for more information.

Apply for NCI “Sandpit” Workshop

The National Cancer Institute (NCI) will host a "Sandpit" workshop (i.e., ideas lab) on April 24-26, 2017, in Potomac, Maryland. The intensive three-day residential workshop will bring together a broad, multidisciplinary group of participants to generate new insights on how knowledge from different behavioral domains, research fields, and national contexts can be integrated for the purpose of advancing cancer control and prevention.

The workshop will specifically focus on integrating knowledge across five key cancer-related health behaviors: tobacco use, alcohol consumption, dietary behavior, physical activity, and UV exposure. At the conclusion of the Sandpit, Cancer Research UK (CRUK) will invite up to five of the teams formed at the workshop to apply for CRUK seed grants to test the feasibility of their ideas. Prospective Sandpit participants need to submit an application consisting of the following:

- a CV
- names of two professional references
- an 800-word cover letter describing the applicant's interest in the Sandpit
- a visual representation (e.g., diagram or mental model) that illustrates a conceptual schema of the applicant's area of interest
- a letter of commitment from the applicant's organization or institution

All application materials must be emailed to NCI-CRUK-Sandpit2017@mail.nih.gov by February 15, 2017, at 6 PM EST / 11 PM GMT. Additional details about the Sandpit and full application instructions are available at: https://cancercontrol.cancer.gov/brp/hbrb/sandpit.html

Early- and mid-career individuals interested in contributing their expertise and novel thinking to generate transformative ideas are especially encouraged to apply. Travel and lodging will be provided to workshop participants in accordance with NIH policy.

Summer Institute in Mental Health Research

Are you a student or working professional interested in expanding your knowledge and developing expertise in public mental health? Take courses in our summer institute and learn from the experts. We offer in person and online courses on methods for mental health research, mental health services and evaluation, global mental health and other hot topics.

The Summer Institute in Mental Health Research will be offered over the course of a three-week period, May 30 – June 16, 2017, by the Department of Mental Health, Johns Hopkins Bloomberg School of Public Health. Appropriate for upper level undergraduates; not Freshmen and Sophomores.
Registration opens February 13, 2017
Click here for more information on how to apply.

Global Health & Innovation Conference

Attend or present at the upcoming 14th annual Global Health & Innovation Conference (GHIC) at Yale on April 22-23, 2017. GHIC is a must-attend event that convenes more than 2,000 professionals and students who are interested in all aspects of health, development, and social entrepreneurship. The Global Health & Innovation Conference is the world’s largest and leading global health conference as well as the largest social entrepreneurship conference. Please feel free to forward this announcement to others who may also be interested in attending or presenting.

Learn about the GHIC experience: Watch a new short video about the conference here.

Clinton Global Initiative University (CGI U) Application Now Open

10th annual CGI U meeting will be held at Northeastern University, October 13-15

We are excited to announce that the CGI U 2017 meeting will take place at Northeastern University this fall from October 13-15. Hosted by President Bill Clinton and Chelsea Clinton, the 10th annual CGI U meeting will gather more than 1,000 innovative student leaders to make Commitments to Action that address some of the world’s most pressing challenges. More than $750,000 in funding will be available to select CGI U 2017 students to help them turn their ideas into action.

The early decision and travel assistance deadline is March 1, 2017, and the final application deadline is May 1, 2017. Program details and featured speakers will be announced at a later date.

Click here to apply.

Baltimore Research Colloquium 2017: Call for Abstracts

Johns Hopkins Bloomberg School of Public Health
615 N. Wolfe Street, Feinstone Hall, E2030, Baltimore, MD 21205
Tuesday, February 28, 2017
3:30-7:15 p.m.

Join the Johns Hopkins Urban Health Institute for a city-wide research colloquium that is intended to bring together students and faculty from across the colleges and universities of Baltimore to highlight exciting research.

Undergraduates, graduate students, postdoctoral fellows, faculty members, or researchers not affiliated with a university/college can present on any topic of importance for Baltimore.

The abstract deadline has been extended to February 15, 2017 at noon EST.
Applied Experience

Research Opportunity - Department of Environmental Health and Engineering, JHSPH

Each year thousands of Baltimore communities' pets end up at county/city open admission shelters. The vast majority of these pets are either abandoned or given up by low-income or middle-income families because they cannot afford to care for them or are losing their family home, apartment, or job and must move to a place that does not allow, or charges a security deposit for, having a pet.

Many of the people giving up their pet(s), do not have knowledge of or know how to access resources to help them protect their assets and/or provide a "bridge" until they can get on "stable footing" again.

We propose a study that would examine whether it is possible to use this visit to the county/city shelter as an intervention point for people who are (1) close to losing their homes; or (2) having trouble with their landlords. Such an intervention would allow us to identify families at risk and intervene BEFORE they were evicted, or before landlord/tenant problems became severe. It would also reduce the number of animals "turned in" to the shelters.

See more information here.

Internships & Service

SBG Health Sciences Summer Internship

Are you interested in an internship with a growing Small Business team and organization? If so, then come join SBG Technology Solutions (SBG)! SBG is a Service Disabled Veteran Owned Small Business (SDVOSB), specializing in Engineering, Information Technology, Cyber-Security and Training. We are seeking a results-oriented Health Sciences Intern. The ideal candidate for this exciting position, is someone who has a positive and energetic attitude, is hard-working, and possesses the ability to support a fast-paced government contractor. The location of performance is at SBG’s headquarters in Alexandria, VA which is Metro accessible.

Overview:

We are seeking a dynamic Health Sciences Intern to support the Health and Benefits division team with daily functions within the division. The Health Sciences Intern will provide administrative assistance to a variety of project managers and leads in the Health and Benefits division including working on a variety of special projects. Intern candidates should be transitioning from their junior to senior year in college and have health sciences as their major.

Primary Responsibilities:

· Administrative reception duties to become familiar with SBG’s client base
- Filing and organizing contractual documents
- Reviewing technical business proposals for clarity and cohesiveness
- Providing miscellaneous technical support to portfolio managers
- Other duties as assigned

Requirements:
- Completed junior year and transitioning to senior year in college.
- Possess proven organizational skills with a strong attention to detail and the ability to prioritize and work well in an environment with dynamic demands.
- Possess excellent verbal and written communication skills.
- Proficient with Microsoft Office tools (i.e. MS Word, MS Excel and MS PowerPoint).
- Flexibility and adaptability; able to shift attention and focus to different priorities.
- Pursuing a health sciences related degree.

Please visit us at www.sbgts.com and if you are interested this opportunity, please do not hesitate to send your resume to kthomas@sbgts.com. We look forward to hearing from you. Please include a cover letter on “Why you would be an ideal candidate for the Health Sciences Internship position”. Resumes without a cover letter will not be considered.

Global Health Established Field Placements (GHEFP) and Global Health Field Research Award (GHFRA) Deadlines Approaching!

This is a reminder that the deadlines for the Global Health Established Field Placements (GHEFP) and Global Health Field Research Award (GHFRA) are approaching! The due dates are listed below - late applications will not be accepted!

GHFRA: Wednesday, March 01, 2017 at 11:59pm

The GHEFP is intended for eligible masters, doctoral, and undergraduate students to work at one of 85 faculty placement sites. The GHFRA is intended for students who have a developed relationship with a faculty mentor and seek to conduct independent research within that faculty member's existing project.

For more information about the application process or FAQs, see our website: GHEFP and GHFRA. Contact Nina Martin (nina.martin@jhu.edu or 410-502-9871) with other questions.

The Institute for Health Metrics and Evaluation (IHME) Internship Program

The Institute for Health Metrics and Evaluation (IHME) has an internship opportunity for undergraduate students!

The Institute for Health Metrics and Evaluation at the University of Washington offers a paid internship in Global Health that combines professional experience, education and training opportunities in order to enhance career readiness. This internship provides a unique opportunity for undergraduates to work in a dynamic and agile organization at the intersection of non-profit work, technology development, academia and research. Interns will have the opportunity to observe mission-critical work, learn from experts in the field and interact with diverse and international staff. Find out more information here.
Internships are offered in the following areas:
Research
Global Engagement
Technology
Financial Planning

Applications are due Thursday, February 16, 2017 before 11:59 PM PST.
Click here to apply.

Global Brigades Information Session

Looking for an applied experience opportunity or something productive to do during summer break? Interested in doing public health-related or medical service work abroad? Global Brigades is the world’s largest student-led global health and sustainable development organization. Public Health Brigades is one of its branches and its mission is to empower rural communities to prevent common illnesses through in-home infrastructure development, community leader training, and health education. We will be holding an info session about our upcoming May brigade on Wednesday, 2/15 from 8pm-9:30pm at Maryland 109.

If you have any questions, please contact jhu.gmb@gmail.com for more information!

Division of General Pediatrics and Adolescent Medicine (School of Medicine)

**Johns Hopkins Hospital Administrative Internship**

The Johns Hopkins Hospital Administrative Internship is a yearlong, paid full-time position aimed at highly motivated individuals who are interested in pursuing a career in medicine and are currently looking for gap-year opportunities. The internship is designed to provide aspiring physician leaders with a comprehensive learning experience at a premier academic health system. Program participants will be exposed to hospital operations and leadership through project-based work. Project opportunities will vary and reflect both the participant’s learning goals and the needs of the hospital. In addition to project work, candidates will have the opportunity to attend senior leadership meetings and gain exposure to various health system functions. Prior to beginning, the selected intern will finalize goals, expectations, and evaluation criteria with Executive Leadership and the Internship Program Manager. For more information on the internship or to apply, please see the linked [document](#).

Applications are considered on a rolling basis from January 15th, 2017. Preference will be placed on early applications. The Summer Serve and Learn Volunteer program offers a once-in-a-lifetime experience in international development work in Africa. Our work is grounded in the communities we serve, and by volunteering you will gain profound insight into life in rural Ghana.

*Summer Serve and Learn 2016:*
- **Community Health Evaluation**
  - Session 1: June 8th – June 24th
  - Session 2: June 26th – July 17th
- **Girls’ Empowerment**
  - Session 2: July 19th – August 4th

For more information, see the brochure [here](#).

**Meridian Summer Internship**
The Meridian Summer Internship program offers a great way to explore career choices and gain real-world business experience. Meridian offers paid internships that allow you to gain an understanding of corporations and the healthcare industry while developing meaningful relationships. Internships are offered in areas like healthcare coordination, finance, communications, and more.

More information available [here](#)
Visit [www.mhplan.com](http://www.mhplan.com) to apply.

**Research in Maternal & Child Health**

The Child & Adolescent Health Measurement Initiative (CAHMI) at Johns Hopkins School of Public Health is looking for a motivated, self-directed intern. The **Spring Undergraduate Maternal and Child Health Measurement Research Network Internship** position will primarily work on our Maternal and Child Health Measurement Research Network (MCH-MRN) project, with a focus on website upkeep, outreach and dissemination, and creation of documents for topical Technical Working Groups (TWGs).

More information and application requirements [here](#).

---

**World Health Organization, Substandard and Falsified Medical Products Group**

The Safety and Vigilance (SAV) Unit within Regulation of Medicines and other Health Technologies (RHT) is looking for an intern to work on the Global Surveillance and Monitoring System for a minimum period of two-three months in the summer of 2017 (timeline is flexible).

The World Health Organization (WHO) has a mandate to tackle substandard, spurious, falsely labelled, falsified and counterfeit (SSFFC) Medical Products, as part of WHO’s fundamental role in protecting public health. There is a recognized lack of reliable and verified data of the global scope, scale and harm caused by SSFFC medical products. In response, WHO has developed the Global Surveillance and Monitoring System (GSMS), which is designed to significantly improve the quantity and quality of data on SSFFC medical products, whilst providing operational support when and where required. Further information on the activities of the GSMS is available [here](#):

http://www.who.int/medicines/regulation/ssffc/en/

More information [here](#).

---

**Planning a Gap Year before Medical School?**

Dermatology and Skin Care Associates in Wellesley, Massachusetts offers a Gap-Year Program for students who have completed college and are applying to medical school. This one- to two-year program is a great opportunity for students seeking to gain medical experience while contributing to the quality and efficiency of the care we deliver to our patients.

During this program you will gain real-life experience in:
- Obtaining history and chief complaint
- Assisting with biopsies and surgical procedures/learning sterile technique
**Internship with The University of Michigan Center for Value-Based Insurance Design**

The University of Michigan Center for Value-Based Insurance Design (V-BID Center) currently has openings for the 2017 Undergraduate summer internship program. This is a paid position located at the North Campus Research Center in Ann Arbor, MI.

As a non-profit embarking on its 12th year of growth and success, the V-BID Center leads in research, development, and advocacy for innovative health insurance plans. Since its inception, these values have inspired important public policy ventures as the Center has positioned itself at the heart of the national healthcare and reform debate.

The V-BID summer internship program affords undergraduate students the opportunity to integrate themselves into the vast, fast-paced world of public health policy. Upon joining our multidisciplinary team, interns will participate in hands-on, collaborative experiences as they gain a better understanding of various facets of health care policy. Throughout the Summer, each intern and their unique contributions will become an integral asset to our work.

**Fellowships & Grants**
Recruitment for the 2017-18 Health for America (HFA) at MedStar Health Fellowship

The 2017-18 Health for America (HFA) at MedStar Health fellowship is a 11-month, paid health innovation fellowship for young professionals who earned a bachelor’s degree between January 2014 and July 2017. Applications will be accepted until Feb. 24, 2017.

Each year, HFA brings together an interdisciplinary team of four young leaders with passion and fresh perspectives to improve health care. HFA fellows are immersed in the healthcare system, educated in design thinking and lean startup methodologies, and empowered to build a novel, sustainable solution to an assigned health challenge (e.g, stroke for the 2016-17 HFA fellows).

HFA often attracts those who studied health, business, engineering, and design, yet applicants can come from any background and don’t need experience in a specific domain to qualify. We deliberately select fellows with diverse experience to create an interdisciplinary, unique team. The fellowship is open to those with both undergraduate and graduate level experience, though applicants must have earned their first bachelor’s degree between January 2014 and July 2017.

**Additional Health for America at MedStar Health Recruitment Resources:**

**Summer Internship Grants**

Thanks to the philanthropy of the Second Decade Society, several grants are available to Hopkins students who take summer internships. Internships must be unpaid or sponsored by a nonprofit. Grant funding is specifically intended to support living and travel expenses incurred by participation in the internship. Internships must be a minimum of 8 weeks.

Eligibility: Full-time freshmen, sophomores, and juniors enrolled in the School of Arts & Sciences. Priority will be given to exceptional candidates with demonstrated financial need.

Award recipients receive the following:
Without Hopkins Grant Aid: Up to $3,000 (pro-rated at $250 per week) toward summer living expenses.

With Hopkins Grant Aid: up to $3,000 (pro-rated at $250 per week) toward summer living expenses and up to $2,000 to replace unmet need in the “Self Help” portion of the student’s financial aid package. (Please Note: The student must also apply for grant aid for the following Academic Year in
order to receive the award.) ** If you are receiving Hopkins Grant Aid, please submit a copy of your financial aid award letter for the current academic year to this job posting on Handshake by noon on Monday, February 20, 2017. Special preference will be given to those who have grant aid, although the amount of the aid will not be a factor.**

See [this link](#) for more information.

### 2017 Public Service Scholars Summer Fellowships
All applications are due on March 15th.
Priority Deadline is March 1st.

Public Service Scholars programs provide **paid fellowships** for Maryland’s "best and brightest" college students. Fellows are placed in full-time summer internships in **government agencies** or **nonprofit organizations** across the state, and are mentored by senior-level professionals. Fellows attend seminars, trips, and events with their cohort, have the opportunity to learn from and network with state leaders and program alumni, and work on substantive projects culminating in presentations to Maryland’s leaders.

Eligible students...
...are attending a Maryland institution (public or private)

**OR**

...are a Maryland resident attending school out of state

...will be a Junior of Senior in Fall 2017 or graduate student (eligible only for the Nonprofit Leadership Program)

...are in any major

...have a GPA of 2.7 or above

...will be available during summer 2017 program dates

...have an interest in public service

For more information visit [publicservicescholars.umbc.edu](http://publicservicescholars.umbc.edu).

**Internship Opportunities at Greentech’s U.S. Biologics Technical Development**

Genentech’s U.S. Biologics Technical Development (USBTD) develops, delivers and supports robust, cost-effective production methods and technologies. The group has long been recognized as a world leader in developing large-scale manufacturing processes, sophisticated analytical methods and effective drug delivery systems. To learn more about our research and development processes, check out our Making Medicine site. We have numerous opportunities for current students and recent graduates in engineering and science programs alike to help deliver the future of medicine to patients.

**For current undergraduate and graduate students:**

Genentech’s internship programs offer undergraduate and graduate students the chance to work at one of the leading companies in biotechnology. See flyer attached for more info. For consideration for a summer internship (3 months) or a spring/fall internship (6 months) opportunity, apply to JobID 00448594 (Spring Intern), 00448599 (Summer Intern) or 00448587 (Fall Intern) on gene.com/careers and submit your resume to Handshake (tracking code: 478561 for Summer 3-month internships, 478560 for Spring/Fall 6-month internships).
For undergraduate and masters level students in the Class of 2017 and recent graduates: Genentech offers a variety of rotational programs geared towards giving recent graduates in-depth training and skill development. Students looking to gain experience in USBTD should apply to the Process Development Rotational Program (PDRP). If technical operations leadership opportunities better suit your career interests, apply to Genentech’s Operations Rotational Development Program (ORDP). See flyers attached for more info on these programs. Applications for these programs are currently open and are accepted on a rolling basis so apply now to JobID 00448264 for PDRP or 00448553 for ORDP on gene.com/careers and submit your resume to Handshake (tracking code: 478737 for PDRP, 478742 for ORDP).

For more information, please email yang.jessica_p@gene.com ortschudi.katherine@gene.com.

Consortium for Advanced Studies Abroad (CASA) in Cuba (Summer) Healthcare in Cuba: Cultures and History of Medicine/Spanish for Healthcare Workers

At a Glance:
Two Courses: Healthcare in Cuba: Cultures and History of Medicine and Spanish for Healthcare Workers
Location: Havana, Cuba
Credit: Each course is worth 4 U.S. semester hours/credits
Pre-requisite: No pre-requisite for Healthcare in Cuba course (taught in English); two years of college-level Spanish or equivalent required for Spanish for Healthcare Workers course
Approximate Dates: June 3 - July 1, 2017
Application Deadline: March 15, 2017

Seeking research funding or National Scholarships?
Have you viewed the following options?

The Krieger School of Arts and Sciences offers an incredible array of opportunities for student researchers in the areas of natural science, social science, and humanities. In addition to the three main undergraduate research awards—Woodrow Wilson, DURA, and PURA—explore the additional links posted on the KSAS Research Site.

For a complete list of fellowships, grants, honors, and awards available to Krieger School undergraduates, visit the undergraduate academic advising site.

Students are also invited to look beyond the School of Arts and Sciences for research funding. Johns Hopkins is committed to providing support for students interested in applying for nationally competitive fellowships.

Learn more about the JHU National Fellowships and Scholarships Program.
**Employment**

**The Congressional Budget Office (CBO) Seeks an Assistant Analyst for Health Analysis**

The Congressional Budget Office is a small nonpartisan agency that provides economic and budgetary analysis to the Congress. CBO's Budget Analysis Division seeks an Assistant Analyst to work within its two health analysis units. This position is open only to candidates who have or are completing a bachelor's degree; it is not for those who have or are completing a master's degree. This is not a permanent position: At the end of a two-to-three-year appointment, Assistant Analysts typically leave CBO to continue their education in such disciplines as economics, public policy, medicine, or the law.

Tasks will include monitoring Medicare demonstrations and the implementation of major health care legislation; collecting and analyzing data; conducting literature reviews; and developing and producing summaries, charts, and tables. The division's health analysts work closely with key Congressional staff on U.S. health care policy, preparing multiyear spending projections for federal health care programs such as Medicare, Medicaid, the health insurance marketplaces, and the Public Health Service.

Interested candidates should submit a cover letter, résumé, brief writing sample, unofficial transcripts, and contact information for three references online at [www.cbo.gov/careers](http://www.cbo.gov/careers).

[Click this link](http://www.cbo.gov/careers) for more information.

**Department of Anesthesiology & Critical Care Medicine (ACCM) Research Opportunity**

As part of its clinical research program, the ACCM department is searching for research assistants to help with the multitude of clinical studies/trials ongoing in the ORs and ICUs. We are interested in degree graduates seeking research experience/health care employment for at least 1 year. If you are interested, and would like more information, please contact Beth White, RN, research nurse manager at 443-287-5837 or ewhite11@jhmi.edu.

**Student Research Assistant Position with the Center for a Livable Future**

**Food System Lab @ Cylburn Research Assistant**

**Scope of work:** Assist with farm work and educational programming at the Food System Lab @ Cylburn, an urban farm run by the Center for a Livable Future. Responsibilities include assisting with both farm operations and educational programs. Farm operations include feeding fish, monitoring water quality, planting, harvesting and other projects. Assisting with educational programs includes developing and implementing activities for students and teachers from K-12 schools focused on aspects of food production and the Baltimore food system, as well as hosting a weekly, two-hour open house every Sunday. May also assist as needed with general CLF Education programming and program evaluation.

**Education:** Undergraduate or Master’s student

**Hours:** up to 19.5 hours/week, starting immediately

**Skills:** General knowledge of and interest in food systems and public health. Experience in education, farm tours and/or farming and gardening is preferable but not required.

**Special Requirements:** Includes weekend hours. Must provide your own reliable transportation to...
Cylburn Arboretum, 4915 Greenspring Avenue.

To apply, please send application materials per the instructions below to Jesse Blom at jblom3@jhu.edu by Friday, February 17, 2017.

Process and additional information will be provided to selected shortlisted applicants only o/a February 24, 2017.

Collective Health Recruitment: Member Advocates and Operations Associates

The San Francisco-based healthcare startup Collective Health is currently looking for individuals interested in filling their Member Advocate and Operation Associate positions. Collective Health sells their product/service to large employers that self-fund their employee health plans. They provide an integrated administration of their clients’ health plans (medical, dental, vision, etc.) via one single platform, using both cutting-edge technology and beautiful design to make it simpler to understand, navigate, and pay for health care. Some of their current clients include eBay, Red Bull, Palantir, and they currently have around 60,000 members on their platform. Find out more information at their website.

If you are interested in applying for a position, send your resume to Dani DiPersia (the Johns Hopkins “Campus Captain”) at danidipersia@gmail.com. After this initial review, applicants will be invited to an info session (administered virtually) to learn more about the position.

Center for Drug Safety and Effectiveness Research Coordinator

The Johns Hopkins Center for Drug Safety and Effectiveness, housed in the School of Public Health, is looking for a Research Program Coordinator to begin as soon as possible. Research projects span a wide variety of topics and areas, including the prescription opioid epidemic, pharmaceutical regulation and pharmaceutical policy, as well as other areas related to drug safety and effectiveness. We work with a number of physicians, epidemiologists, pharmacists, biostatisticians, among other specialists. Candidates should have a background in epidemiology or public health.

Interested candidates can find the full job description and application here.

Send your resume, as well as any questions you may have, to Dora Lin at dlin25@jhu.edu.

Research Assistant Positions Available with The Institute for Global Tobacco Control

The Institute for Global Tobacco Control has two job openings for Research Assistants, who will contribute to the Tobacco Pack Surveillance System Project.

These are both fulltime, paid positions, best suited to someone who has recently finished undergrad.

See the job descriptions and apply here and here.
FDA Center for Biologics Evaluation and Research (CBER) Seeking Post-Baccalaureate Fellows

We are looking to fill 3 or 4 one-year post-bac positions in our bacterial genetics lab (under principal investigator Scott Stibitz) at CBER/FDA starting this summer. We are looking for recent grads with some experience with bacteriology and molecular biology. Post-bacs will be working on different projects (Staphylococcus aureus pathogenesis and genetics, Salmonella acid resistance, Shigella vaccine development, Bordetella genetics, and probiotic assay development), but all projects would involve a good deal of cloning and some protein expression. Our lab is within a research branch of the Center for Biologics Evaluation and Research (CBER), located in a new facility on the Food and Drug Administration headquarters main campus at White Oak/Silver Spring, Maryland.

Interested candidates should email their resumes to Roger Plaut at Roger.Plaut@fda.hhs.gov.

Clinical Information Manager (CMI)

The Emergency Medical Associates (EMA) is looking to hire individuals that can work as Clinical Information Managers (CIMs) / Medical Scribes in their Emergency Departments. The CIM position offers a unique opportunity to gain exposure to the clinical field.

Emergency Medical Associates (EMA) is one of the most respected emergency department (ED) practice organizations in the United States and treats more than 1 million patients annually, while serving more than 30 hospital clients. The company is widely recognized for clinical excellence, as well as the ability to increase patient volume, turn around ED operations, and improve and sustain patient satisfaction.

The CIM works in an Emergency Department to provide clerical/administrative assistance to the ED physician and/or practitioners. They prefer candidates who are interested in the healthcare field and have at least 100 hours working or volunteering in healthcare, and an academic background in sciences/pre-med classes. They currently have full time and part-time positions available in New Jersey, New York, Pennsylvania (Lebanon), and North Carolina! They are looking for current students and alumni for Immediate and Summer 2017 starts.

Being a CIM provides you with a competitive advantage by placing you a step ahead in your career development. If interested in learning more about this exciting CIM position with Emergency Medical Associates, visit their website.
