Green Jobs Panel and Networking Session
March 30th from 6-8 pm in the Charles Commons Barber Room

This event will give Baltimore City students a chance to foster long-lasting relationships with employers all across the green jobs field.

The event will run on a schedule roughly as shown below:

6:00-7:00 pm: Green Jobs Panel (Charles Commons Barber Room)
Listen to professionals working in the green field discuss their personal experiences and answer your questions. The panel will be moderated by Dr. Erica Schoenberger from the Department of Geography and Environmental Engineering and will feature panelists from both corporate and public sectors.

7:00-8:00 pm: Green Jobs Networking Session (Charles Commons Salon B)
Speak with networkers from a diverse array of sustainable organizations about internships and job opportunities in the rapidly expanding green job market. While you network, enjoy a free, locally-sourced dinner catered by Zia’s Café.

Be sure to check out our Facebook event and our website (http://greenjobs.johnshopkins.edu) for updates and more information, or contact Maggie Weese at maggie.m.weese@gmail.com.
Public Health and Architecture
Towards an Interdisciplinary Dialogue

6:00-7:30PM April 11 TUESDAY
CBEIS Atrium
School of Architecture and Planning
Morgan State University
5299 Perring Parkway, Baltimore MD 21218

Public Health Studies Pre-Major Information Session

Friday, March 31
4-5pm
Olin Hall 305

The advising staff for the Undergraduate Program in Public Health Studies will be host an information session for students interested in declaring the Public Health Studies major. An overview of the program and degree requirements will be presented and advisors will be available to answer specific questions.

Seminars and Conferences

First Annual Pre-Health Convention
March 30 – April 2, 2017
Norfolk Waterside Marriott in Norfolk, VA

This four-day conference is aimed at empowering all students interested in pursuing a career in healthcare by bridging their access to our distinguished selection of keynote speakers, admissions panels, and workshops within a variety of health professions. This unparalleled networking experience gives students an opportunity to explore a number of health professions and meet with a vast number of Deans, Vice-Presidents, Directors, and Advisors from the country’s premier healthcare schools, as well as interact with a number of exceptional leading experts and trailblazers in healthcare.

Global Health & Innovation Conference

Attend or present at the upcoming 14th annual Global Health & Innovation Conference (GHIC) at Yale on April 22-23, 2017. GHIC is a must-attend event that convenes more than 2,000 professionals and students who are interested in all aspects of health, development, and social entrepreneurship.

The Global Health & Innovation Conference is the world’s largest and leading global health conference as well as the largest social entrepreneurship conference. Please feel free to forward this announcement to others who may also be interested in attending or presenting.

Learn about the GHIC experience: Watch a new short video about the conference here.

The Johns Hopkins Urban Health Institute and the JHU Office of the Provost announce the Sixth Annual Symposium on the Social Determinants of Health

Baltimore’s Youth
Reducing Vulnerability to Improve Our Future

Monday, April 3, 2017
8:00 a.m. to 5:30 p.m.

Turner Auditorium, JHU School of Medicine Campus,
720 Rutland Avenue, Baltimore, MD 21205

Online registration before the event: $20
Same day registration at the event: $35
http://urbanhealth.jhu.edu/SDH_Symposium/2017.html

Upcoming Events and Class Announcements

Naloxone and Opioid Overdose Response Training TONIGHT!

Date: 3/28/17
Time: 7pm
Location: Krieger 205
Description: Join HUHR and the Baltimore Harm Reduction Coalition to become a certified first-responder in the event of an opioid overdose. Come learn important skills and hear about how Naloxone can save lives. Check out our FB page for more info or to reach out to our team!
https://www.facebook.com/jhuhr/

To present your work at DREAMS, please complete the REGISTRATION FORM. The deadline for registration is Friday, 3/31/2017. All students, faculty, and members of the Hopkins community are encouraged to attend DREAMS - no registration required.
Any research applies, but you should certainly remember that doing a poster or voice thread presentation will count as your final Synthesizing Assignment for your Applied Experience. This is also a great event to go see what other students have done either for an Honors Project or their Applied Experience.

**Mark Your Calendars for Global Health Day!**

Ambassador Debbie Birx  
U.S. Global AIDS Coordinator & U.S. Special Representative for Global Health Diplomacy

Thursday, March 30th  
12:00pm  
Sommer Hall in East Baltimore

**Eye Health Survey**

If you are currently taking courses at the Bloomberg School of Public Health (including undergraduate students), you are eligible to complete a survey on eye health for a chance to win a $30 Amazon gift card. This survey is being conducted by a group of JHSPH students from the Health Communications course (410.654.01) to develop a campaign aimed at improving eye health.

We think your opinions are important and would really appreciate it if you could take some time to complete the 10 minute survey below:  
[https://jhsph.co1.qualtrics.com/jfe/form/SV_0SttZVULzxY7XF3](https://jhsph.co1.qualtrics.com/jfe/form/SV_0SttZVULzxY7XF3)

All answers are completely anonymous. At the end of the survey, you'll be directed to a separate questionnaire to enter your e-mail address for a chance to win the Amazon gift card. Please direct any questions about the survey to fei@jhu.edu.

**Vice Provost for Diversity & Inclusion and Chief Diversity Officer Position Priority Suggestions**

The Johns Hopkins University has begun a search for the first Vice Provost for Diversity & Inclusion and Chief Diversity Officer (CDO). Our CDO will serve as a thought leader and community convener on issues related to diversity and inclusion to promote a culture and climate that supports the success of all who learn, work, and engage in the Johns Hopkins Community. Since this will be our first JHU CDO, the search committee would like to gather your feedback to help refine our scope of the position. Please briefly describe what you would envision as the top few priorities for the incoming CDO via [this form](#).

Thank you for your time and consideration!

**Koru Sessions**

The Counseling Center is offering a workshop series called Koru, which teaches mindfulness and meditation skills. Each session is designed to help you learn mindfulness through the practice of
specific techniques that calm and focus your mind.

The following sessions of Koru will begin the week after Spring Break:
Thursdays from 5:00-6:15pm  March 30th, April 6th, 13th, and 20th
Fridays from 11:00am-12:15 pm  Mar. 31st, April 7th, 14th and 21st
For more information and to register for the workshop series, please visit the Counseling Center website and click on the “Workshop Sign-Up” link on the left side of the homepage.

Learn more about the world of broadcast journalism!

Politik Focus produces news segments, roundtables, and interviews concerning current events. We provide a unique opportunity for students to gain hands-on experience in broadcasting, producing, writing, and directing. If you want to help shape public opinion on campus and are interested in media, politics, and current affairs, fill out this form or join us at our weekly meeting on Sunday, 4pm, Mattin 161.

For more information email Politikfocus@gmail.com.

Also, be sure to check our Facebook page at https://www.facebook.com/politikfocus/ and our Youtube page at https://www.youtube.com/channel/UC1xUwhr73IC-xlHyEgi7E1w.

Unpaid Internships and Service

Research Opportunity - Department of Environmental Health and Engineering, JHSPH

Each year thousands of Baltimore communities' pets end up at county/city open admission shelters. The vast majority of these pets are either abandoned or given up by low-income or middle-income families because they cannot afford to care for them or are losing their family home, apartment, or job and must move to a place that does not allow, or charges a security deposit for, having a pet. Many of the people giving up their pet(s), do not have knowledge of or know how to access resources to help them protect their assets and/or provide a "bridge" until they can get on "stable footing" again.

We propose a study that would examine whether it is possible to use this visit to the county/city shelter as an intervention point for people who are (1) close to losing their homes; or (2) having trouble with their landlords. Such an intervention would allow us to identify families at risk and intervene BEFORE they were evicted, or before landlord/tenant problems became severe. It would also reduce the number of animals "turned in" to the shelters.

See more information here.

Korean translator needed for the Global Obesity Prevention Center

Korean translator needed for the various intervention projects in Baltimore through the Global Obesity Prevention Center. The translator will assist our interventionist in store recruitment, translation of promotional materials, training materials and data collection instruments, as well as in
intervention activities. Tasks may include regular communication with Korean American store owners via phone and in person visits, store recruitment visits, educational interactive sessions and taste tests, and collection of process evaluation data which may include sales recalls, store environmental assessments, and interactive session process forms.

Contact: Cara Shipley, Research Program Coordinator, cshiple9@jhu.edu

Community Health Summer Program: Universidad La Sabana, Chía, Colombia

This academic summer program is offered by the Faculty of Medicine at Universidad de La Sabana in Chía, Colombia, located on the outskirts of Bogotá. The Community Health and Family Medicine program will investigate primary healthcare provision in the Colombian system. Built with a combination of community visits and classroom teaching, this four-week course offers participants an invaluable chance to learn from leading medical professionals about the challenges to implementing community-based programs and measuring the health status of displaced communities. This program will provide unique practical experiences and insights into global health provision through the analysis of a Latin American system that has operated through the trials of a decades-long civil war.

Furthermore, the program offers students the chance to participate in an optional week-long intensive Spanish language course at the La Sabana’s Department of Foreign Languages and Culture. Classes will be designed specifically to develop students’ medical Spanish. This program is open to ambitious undergraduate students, aimed specifically at those interested in a career in public health or medicine in an international context. Students do not have to be fluent in Spanish to take part in the medical program or to join the Spanish language module, because the seminars, classes and mentorships are conducted in English.

For more information, please review the Red Tree Study website at: http://www.redtreestudy.com/unisabana or contact Christine Gregory at christine@redtreestudy.com.

Looking for an applied experience opportunity or something productive to do during summer break? Interested in doing public health-related work abroad? Global Brigades is the world’s largest student-led global health and sustainable development organization. Public Health Brigades is one of its branches and its mission is to empower rural communities to prevent common illnesses through in-home infrastructure development, community leader training, and health education. Our upcoming 7-day brigade is planned for the end of May and we are currently looking for volunteers!

If you have any questions or are interested in coming on the brigade, please contact
SBG Health Sciences Summer Internship

Are you interested in an internship with a growing Small Business team and organization? If so, then come join SBG Technology Solutions (SBG)! SBG is a Service Disabled Veteran Owned Small Business (SDVOSB), specializing in Engineering, Information Technology, Cyber-Security and Training. We are seeking a results-oriented Health Sciences Intern. The ideal candidate for this exciting position, is someone who has a positive and energetic attitude, is hard-working, and possesses the ability to support a fast-paced government contractor. The location of performance is at SBG’s headquarters in Alexandria, VA which is Metro accessible.

Overview:
We are seeking a dynamic Health Sciences Intern to support the Health and Benefits division team with daily functions within the division. The Health Sciences Intern will provide administrative assistance to a variety of project managers and leads in the Health and Benefits division including working on a variety of special projects. Intern candidates should be transitioning from their junior to senior year in college and have health sciences as their major.

Primary Responsibilities:
- Administrative reception duties to become familiar with SBG’s client base
- Filing and organizing contractual documents
- Reviewing technical business proposals for clarity and cohesiveness
- Providing miscellaneous technical support to portfolio managers
- Other duties as assigned

Requirements:
- Completed junior year and transitioning to senior year in college.
- Possess proven organizational skills with a strong attention to detail and the ability to prioritize and work well in an environment with dynamic demands.
- Possess excellent verbal and written communication skills.
- Proficient with Microsoft Office tools (i.e. MS Word, MS Excel and MS PowerPoint).
- Flexibility and adaptability; able to shift attention and focus to different priorities.
- Pursuing a health sciences related degree.

Please visit us at www.sbgts.com and if you are interested this opportunity, please do not hesitate to send your resume to kthomas@sbgts.com. We look forward to hearing from you.

Please include a cover letter on “Why you would be an ideal candidate for the Health Sciences Internship position”. Resumes without a cover letter will not be considered.

Johns Hopkins Hospital Administrative Internship

The Johns Hopkins Hospital Administrative Internship is a yearlong, paid full-time position aimed at highly motivated individuals who are interested in pursuing a career in medicine and are currently looking for gap-year opportunities. The internship is designed to provide aspiring physician leaders with a comprehensive learning experience at a premier academic health system. Program participants will be exposed to hospital operations and leadership through project-based
Project opportunities will vary and reflect both the participant’s learning goals and the needs of the hospital. In addition to project work, candidates will have the opportunity to attend senior leadership meetings and gain exposure to various health system functions. Prior to beginning, the selected intern will finalize goals, expectations, and evaluation criteria with Executive Leadership and the Internship Program Manager. For more information on the internship or to apply, please see the linked document.

### Research in Maternal & Child Health

The Child & Adolescent Health Measurement Initiative (CAHMI) at Johns Hopkins School of Public Health is looking for a motivated, self-directed intern. The **Spring Undergraduate Maternal and Child Health Measurement Research Network Internship** position will primarily work on our Maternal and Child Health Measurement Research Network (MCH-MRN) project, with a focus on website upkeep, outreach and dissemination, and creation of documents for topical Technical Working Groups (TWGs).

More information and application requirements [here](#).

### World Health Organization, Substandard and Falsified Medical Products Group

The Safety and Vigilance (SAV) Unit within Regulation of Medicines and other Health Technologies (RHT) is looking for an intern to work on the Global Surveillance and Monitoring System for a minimum period of two-three months in the summer of 2017 (timeline is flexible).

The World Health Organization (WHO) has a mandate to tackle substandard, spurious, falsely labelled, falsified and counterfeit (SSFFC) Medical Products, as part of WHO’s fundamental role in protecting public health. There is a recognized lack of reliable and verified data of the global scope, scale and harm caused by SSFFC medical products. In response, WHO has developed the Global Surveillance and Monitoring System (GSMS), which is designed to significantly improve the quantity and quality of data on SSFFC medical products, whilst providing operational support when and where required. Further information on the activities of the GSMS is available here:

More information [here](#).

### National Association of Health Services Executives, Baltimore Chapter

**Summer Internship Program 2017**

The NAHSE Internship Program is a summer enrichment program in health and health services administration for talented undergraduate and graduate students who possess the aptitude and skills required to work in a complex multidisciplinary healthcare environment. The Program Includes:

- 8 - 10 week practical work experience in a healthcare organization
- Summer internship stipend (compensation based on level of education)
  - Assigned mentor and preceptor
- Educational and developmental seminars
Internship with The University of Michigan Center for Value-Based Insurance Design

The University of Michigan Center for Value-Based Insurance Design (V-BID Center) currently has openings for the 2017 Undergraduate summer internship program. This is a paid position located at the North Campus Research Center in Ann Arbor, MI. As a non-profit embarking on its 12th year of growth and success, the V-BID Center leads in research, development, and advocacy for innovative health insurance plans. Since its inception, these values have inspired important public policy ventures as the Center has positioned itself at the heart of the national healthcare and reform debate. The V-BID summer internship program affords undergraduate students the opportunity to integrate themselves into the vast, fast-paced world of public health policy. Upon joining our multidisciplinary team, interns will participate in hands-on, collaborative experiences as they gain a better understanding of various facets of health care policy. Throughout the Summer, each intern and their unique contributions will become an integral asset to our work.

---

Faculty in the School of Criminology, Law and Society at George Mason University are conducting a study to examine how neighborhood social and ecological conditions affect health, fear, and safety outcomes of residents. This research is taking place in Baltimore, Maryland. It is a five-year project funded by the National Institute of Drug Abuse, which is a division within the National Institutes of Health. The study is being led by Dr. David Weisburd and Dr. Danielle Rudes from George Mason University, Dr. Brian Lawton of John Jay College of Criminal Justice, Dr. Justin Ready of Griffith University, and Dr. Amelia Haviland of Carnegie Mellon University.

We are recruiting enthusiastic undergraduate and graduate students to participate in the study as employees. Job responsibilities will include conducting door-to-door resident surveys and systematic observations of street conditions in Baltimore City, Maryland. Most data collection will take place from April through October. This is an exciting opportunity for students to obtain research experience, and it may be beneficial in preparing to enter the job market or graduate school.

**Employment details and prerequisites:**
- Current advanced undergraduate (Junior or Senior) or graduate student
- Good academic standing
• Base hourly compensation will be $12 per hour with higher wages for students who assist with project coordination and quality control.
  • Average 20 hours per week
  • Shifts will be 5-9 hours long
• Need to feel comfortable knocking on strangers’ doors in unfamiliar neighborhoods
  • Attend in-person training sessions, no exceptions
  • Display an understanding of study content and concepts
• Ability to meet the travel requirements of the project in Baltimore, MD

**Actively seeking employees with vehicle to transport research team between sites
**Spanish-speakers needed

Looking for people with strong interpersonal skills, can speak and communicate effectively, can learn quickly and are highly motivated to work. Must be a strong team player and a problem solver.

If you have any questions concerning the research study, or if you would like to participate in this research study, please email health.safety.study@gmail.com.

The Congressional Budget Office (CBO) Seeks an Assistant Analyst for Health Analysis

The Congressional Budget Office is a small nonpartisan agency that provides economic and budgetary analysis to the Congress. CBO's Budget Analysis Division seeks an Assistant Analyst to work within its two health analysis units. This position is open only to candidates who have or are completing a bachelor's degree; it is not for those who have or are completing a master's degree. This is not a permanent position: At the end of a two-to-three-year appointment, Assistant Analysts typically leave CBO to continue their education in such disciplines as economics, public policy, medicine, or the law.

Tasks will include monitoring Medicare demonstrations and the implementation of major health care legislation; collecting and analyzing data; conducting literature reviews; and developing and producing summaries, charts, and tables. The division's health analysts work closely with key Congressional staff on U.S. health care policy, preparing multiyear spending projections for federal health care programs such as Medicare, Medicaid, the health insurance marketplaces, and the Public Health Service.

Interested candidates should submit a cover letter, résumé, brief writing sample, unofficial transcripts, and contact information for three references online at www.cbo.gov/careers.

Click this link for more information.

Department of Anesthesiology & Critical Care Medicine (ACCM) Research Opportunity

As part of its clinical research program, the ACCM department is searching for research assistants to help with the multitude of clinical studies/trials ongoing in the ORs and ICUs. We are interested in degree graduates seeking research experience/health care employment for at least 1 year. If you are interested, and would like more information, please contact Beth White, RN, research nurse manager at 443-287-5837 or ewhite11@jhmi.edu.
Center for Drug Safety and Effectiveness Research Coordinator

The Johns Hopkins Center for Drug Safety and Effectiveness, housed in the School of Public Health, is looking for a Research Program Coordinator to begin as soon as possible. Research projects span a wide variety of topics and areas, including the prescription opioid epidemic, pharmaceutical regulation and pharmaceutical policy, as well as other areas related to drug safety and effectiveness. We work with a number of physicians, epidemiologists, pharmacists, biostatisticians, among other specialists. Candidates should have a background in epidemiology or public health.

Interested candidates can find the full job description and application [here](#).

Send your resume, as well as any questions you may have, to Dora Lin at dlin25@jhu.edu.

Research Program Assistant Positions at Hopkins Center to Eliminate Cardiovascular Health Disparities

The Johns Hopkins Center to Eliminate Cardiovascular Health Disparities is hiring 9 part-time (18 hrs/wk) Research Program Assistants to help with patient recruitment, interviewing, surveying, tracking, and data entry for the RICH LIFE Project—Reducing Inequities in Care of Hypertension: Lifestyle Improvements for Everyone. We are committed to building a culturally diverse group and encourage applications from minority candidates.

Full description posted on the [Careers site here](#).

FDA Center for Biologics Evaluation and Research (CBER) Seeking Post-Baccalaureate Fellows

We are looking to fill 3 or 4 one-year post-bac positions in our bacterial genetics lab (under principal investigator Scott Stibitz) at CBER/FDA starting this summer. We are looking for recent grads with some experience with bacteriology and molecular biology. Post-bacs will be working on different projects (Staphylococcus aureus pathogenesis and genetics, Salmonella acid resistance, Shigella vaccine development, Bordetella genetics, and probiotic assay development), but all projects would involve a good deal of cloning and some protein expression. Our lab is within a research branch of the Center for Biologics Evaluation and Research (CBER), located in a new facility on the Food and Drug Administration headquarters main campus at White Oak/Silver Spring, Maryland.

Interested candidates should email their resumes to Roger Plaut at Roger.Plaut@fda.hhs.gov.

Clinical Information Manager (CMI)

The Emergency Medical Associates (EMA) is looking to hire individuals that can work as Clinical Information Managers (CIMs) / Medical Scribes in their Emergency Departments. The CIM position offers a unique opportunity to gain exposure to the clinical field.

Emergency Medical Associates (EMA) is one of the most respected emergency department (ED) practice organizations in the United States and treats more than 1 million patients annually, while
serving more than 30 hospital clients. The company is widely recognized for clinical excellence, as well as the ability to increase patient volume, turn around ED operations, and improve and sustain patient satisfaction.

The CIM works in an Emergency Department to provide clerical/administrative assistance to the ED physician and/or practitioners. They prefer candidates who are interested in the healthcare field and have at least 100 hours working or volunteering in healthcare, and an academic background in sciences/pre-med classes. They currently have full time and part-time positions available in New Jersey, New York, Pennsylvania (Lebanon), and North Carolina! They are looking for current students and alumni for Immediate and Summer 2017 starts.

Being a CIM provides you with a competitive advantage by placing you a step ahead in your career development. If interested in learning more about this exciting CIM position with Emergency Medical Associates, visit their website.

Click here for the “Top 5 Reasons to Work as a CIM”
Click here for the official CIM job listing
Click here for the CIM Client Hospital Location Map

Research Assistant Needed

The purpose of the position is to assist full-time faculty member in various projects including but not limited to health services research, community based participatory research projects in cancer and cardiovascular disease, grant development, literature searches and reviews, service learning programs, community-based health and organizations.

Rate per hour: $8-10
Hours per week: 6 – 10
Employment Period: July 1 – open
(The position is for Summer but it can be extended into the Fall Semester)

Click here for more information.

We are currently recruiting for two entry level positions, with multiple spots for each:

**Member Advocates:** Member Advocates are driven by empathy. We put the “care” back in healthcare. We shatter member expectations by providing above and beyond service. As experts in health benefits, Member Advocates are not only the face of the company, but are the voice behind innovation across every department. Through your experience at Collective Health, you will immerse yourself in the rapidly-evolving health insurance industry while mastering skills in operational efficiency, cross-departmental collaboration, and external professionalism.

**Operations Associates:** Each Operations Associate is part of a small team that runs every aspect of a customer's health plan - eligibility, claims, coordination of benefits, reinsurance. In this role, you
will learn more about how insurance and healthcare actually work than any other position in the industry – you will essentially learn how to operate a healthcare insurance company. You will work across every department at Collective Health and be responsible for operating and scaling the core of our business. Through your experiences at Collective Health, you will become an expert in operations and in health care, while being at the forefront of transforming the industry.

We're looking for candidates with a strong academic record. An interest in healthcare is preferred. Our approach in everything we do is collaborative, open and curious. We’re looking for more passionate, driven people to join our growing team.

Please reach out to Danielle DiPersia, Hopkins Class of 2014, with any questions!

---

**Research Employment Opportunity**

We are recruiting enthusiastic undergraduate and graduate students for field researcher positions on a large research project. Job responsibilities will include conducting door-to-door resident surveys and systematic observations of street conditions in Baltimore City, Maryland. Most data collection will take place from April through October. This is an exciting opportunity for students to obtain research experience, use as an internship, and it may be beneficial in preparing to enter the job market or graduate school. Please email health.safety.study@gmail.com if interested in applying or have any questions.

---

**Summer JHU Research Assistant Positions**

The Center for a Livable Future is recruiting for a limited number of graduate student research assistants to work this summer. The positions will provide programmatic, research, and administrative assistance to CLF staff and faculty. Responsibilities could include a range of duties such as web-based research, report writing, data cleaning and data entry, data analysis, literature review, event planning, maintaining social media tools, and communication material development. Performing administrative support activities is part of a Research Assistant's scope of work, but generally involves no more than 20 percent of work hours. Research Assistants are encouraged to attend CLF-sponsored seminars and lectures that are scheduled during the summer months.

More information about positions available [here](#).

---

**Opportunities with NIH**

The following training programs are available:

1) **SUMMER INTERNSHIP PROGRAM IN BIOMEDICAL RESEARCH (SIP)**

   Eligibility: all college-level students who are U.S. citizens or permanent residents [https://www.training.nih.gov/programs/sip](https://www.training.nih.gov/programs/sip)

   Summer programs at the National Institutes of Health (NIH) provide an opportunity to spend a summer working at the NIH side-by-side with some of the leading scientists in the world, in an environment devoted exclusively to biomedical research. The NIH consists of the 240-bed Mark O. Hatfield Clinical Research Center and more than 1200 laboratories/research projects located on the main campus in Bethesda, MD, and the surrounding area as well as in Baltimore and Frederick, MD;
Research Triangle Park, NC; Hamilton, MT; Framingham, MA; Phoenix, AZ; and Detroit, MI. NOTE: the number of positions in Hamilton, Framingham, Phoenix, and Detroit is limited. Internships cover a minimum of eight weeks, with students generally arriving at the NIH in May or June. The NIH Institutes and the Office of Intramural Training & Education sponsor a wide range of summer activities including lectures featuring distinguished NIH investigators, career/professional development workshops, and Summer Poster Day.

2) 2017 AMGEN SCHOLARS PROGRAM AT NIH (A SIP SUBPROGRAM)
Eligibility: rising junior, senior or 5th year senior who are U.S. citizens or permanent residents, cumulative GPA > 3.2
https://www.training.nih.gov/amgenscholars
The Amgen Scholars Program at NIH is a partnership between the Amgen Foundation, the Foundation for the NIH, and the NIH Office of Intramural Training & Education. This program is for undergraduates who are interested in learning more about health disparities and the role science, policy, and community engagement can play in their elimination. Preference will be given to students that lack opportunities to carry out independent research during the school year (due to family responsibilities, economic exigencies, or inability of their institutions to provide such opportunities). Amgen Scholars at NIH will spend the summer working at NIH's main campus in Bethesda. The Program will have four core components: 1) independent research performed under the mentorship of an NIH intramural scientist; 2) roundtable discussions exploring the intersection of research and public policy related to health disparities; 3) career guidance and mentorship focused on the broad array of biomedical careers; and 4) leadership training focused on the skills needed to successfully work in team-oriented global research environments.

3) Biomedical Engineering Summer Internship Program (BESIP)
Eligibility: Rising BME seniors or 5th year seniors who are U.S. citizens or permanent residents
https://www.nibib.nih.gov/training-careers/undergraduate-graduate/biomedical-engineering-summer-internship-program-besip
The NIBIB sponsored Biomedical Engineering Summer Internship (BESIP) is for undergraduate biomedical engineering students who have completed their junior year of college. The 10-week program, under the guidance of Dr. Robert Lutz, BESIP Program Director, is scheduled from June 5, 2017 to August 11, 2017. The internship will allow rising senior bioengineering students to participate in cutting-edge biomedical research projects under the mentorship of world-class scientists in NIH laboratories in Bethesda, MD.
Selected by a nationwide competition, the interns will have the opportunity to indicate preferences from a list of available NIH projects that involve areas of engineering or physical science expertise. The students will participate in group meetings, attend planned lectures and laboratory visits, and be encouraged to submit posters to the NIH Poster Day where summer interns from all disciplines present their projects.

Research Technician Position at Scanogen
Scanogen is looking for a motivated and skilled research technician to join the R&D team. Scanogen is a rapidly-growing start-up company developing the first point-of-care nucleic acid detection platform looking for highly driven and inventive individuals to revolutionize clinical diagnostics.

More information here.
Fellowships & Grants

Second James D. Goodyear Public Health Service in Baltimore Award

The Public Health Studies program is now accepting applications for the second James D. Goodyear Public Health Service in Baltimore Award. Named in honor of the former Associate Director of Public Health Studies, this award will provide a stipend of $3000 to one Public Health Studies undergraduate student per year, allowing the student to complete an otherwise unpaid public health service internship based in Baltimore City.

Applicants must have already secured an internship for the summer of 2017 in order to be considered for the award. An application essay, describing the scope of the internship and its relevance to your career development, current academics and future goals is required. Click this link for complete requirements and the application.

Applications are due to Caroline Barry by 5pm on April 10th, 2017. Contact the Public Health Studies office with any questions.

If you would like to donate to the Goodyear Award fund, you may do so here.

Internship Opportunities at Greentech’s U.S. Biologics Technical Development

Genentech’s U.S. Biologics Technical Development (USBTD) develops, delivers and supports robust, cost-effective production methods and technologies. The group has long been recognized as a world leader in developing large-scale manufacturing processes, sophisticated analytical methods and effective drug delivery systems. To learn more about our research and development processes, check out our Making Medicine site. We have numerous opportunities for current students and recent graduates in engineering and science programs alike to help deliver the future of medicine to patients.

**For current undergraduate and graduate students:**
Genentech’s internship programs offer undergraduate and graduate students the chance to work at one of the leading companies in biotechnology. See flyer attached for more info. For consideration for a summer internship (3 months) or a spring/fall internship (6 months) opportunity, apply to JobID 00448594 (Spring Intern), 00448599 (Summer Intern) or 00448587 (Fall Intern) on gene.com/careers and submit your resume to Handshake (tracking code: 478561 for Summer 3-month internships, 478560 for Spring/Fall 6-month internships).

**For undergraduate and masters level students in the Class of 2017 and recent graduates:**
Genentech offers a variety of rotational programs geared towards giving recent graduates in-depth training and skill development. Students looking to gain experience in USBTD should apply to the Process Development Rotational Program (PDRP). If technical operations leadership opportunities better suit your career interests, apply to Genentech’s Operations Rotational Development Program (ORDP). See flyers attached for more info on these programs. Applications for these programs are currently open and are accepted on a rolling basis so apply now to JobID 00448264 for PDRP or
00448553 for ORDP on gene.com/careers and submit your resume to Handshake (tracking code: 478737 for PDRP, 478742 for ORDP).

For more information, please email yang.jessica_p@gene.com ortschudi.katherine@gene.com.

PHS Weekly Submission Process

Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to PHStudies@jhu.edu by 5pm every Monday.

For announcements or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any position opening, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.

PHS Office Directory

Maria Bulzacchelli, Director, mbulzac1@jhu.edu
