Information Sessions and Career Fairs

Fulbright Information Sessions - Spring 2017
Tuesday, April 18, 5-6pm, Malone G33/35
Wednesday, April 19, 7-8pm, BLC 4040
Monday, April 24, 7-8pm, BLC 4040
Thursday, April 27, 8-9pm, BLC 4040

Additional information under Fellowships and Grants
NONPROFIT CAREER WEEK
APRIL 17-21, 2017

Find your way to change the world.

**April 17**
11 am to 1 pm
Charles Commons, Salon C
Lunch will be served

**Exploring Nonprofit Careers Networking Lunch**
Mara Winters, Board Governance Advisor at Maryland Nonprofits, discusses the benefits of pursuing your passion and starting at a nonprofit. Employers, including United Way, will join for a networking lunch with students.

**April 18**
5 pm resume reviews
6 pm panel
Charles Commons, Salons A and B

**Alumni Resume Reviews and Networking**
Alumni and current students look over your resume and share how they used their community experience at Hopkins to land careers in the nonprofit sector and beyond.

**April 19**
TBD
Charles Commons Barber Conf. Room

**Nonprofit Finance**
Managing finances, opportunities and working with donors are key parts of nonprofit careers that translate well to other sectors—learn from this expert session.

**April 19**
12 to 1:30 pm
Gilman Atrium

**City Year Coffee Chat**
Meet with City Year reps to find out if their programs—working with at-risk schools to help bridge the gap for students—are a match for you.

**April 20**
10 am to 2 pm
Glass Pavilion

**Nonprofit Internship and Opportunity Fair**
There’s still time to find an internship or job! Come learn about current job, internship and volunteer opportunities with Teach for America, United Way Maryland, Urban Teachers, City Year, Saga Innovations, and more.

**April 21**
4 to 6 pm
Glass Pavilion

**Center for Social Concern 25th Anniversary Event**
Celebrating 25 years of community engagement together.

Register for all events on handshake
studentaffairs.jhu.edu/careers
Challenges for Science and Environmental Health Policy
Under the New Administration

APRIL 18, 2017
12:15 – 1:20 p.m.
Hampton House Auditorium (B14B)
624 N. Broadway

For more information, please contact Susan Murrow at smurrow1@jhu.edu.

Marsha Wills-Karp, PhD
Anna M. Baetjer Professor and Chair
Department of Environmental Health and Engineering

MODERATOR:
Colleen Barry, PhD, MPP
Fred and Julie Soper Professor and Chair
Department of Health Policy and Management
Join HUHR and the Baltimore Harm Reduction Coalition to become a certified first-responder in the event of an opioid overdose. Come learn important skills and hear about how Naloxone can save lives. Check out our FB page for more info or to reach out to our team! [https://www.facebook.com/jhuhr/](https://www.facebook.com/jhuhr/)

Premedical Leadership Opportunity at Health Guardians of America

Health Guardians of America is a health nonprofit organization with a project designed to reduce risk factors for obesity, heart disease, and diabetes. We are currently recruiting executive board members who are interested in our preventive medicine efforts against obesity driven diseases. As the Johns Hopkins chapter was just newly founded, this is a great opportunity for students interested in getting leadership experience in healthcare. More information can be found on the website [www.healthguardians.org](http://www.healthguardians.org).

Applicants must be rising sophomores or rising juniors, with an average GPA of 3.6 or above. For consideration to join, please email a cover letter and a resume to jhu@healthguardians.org. Exceptional applicants will be invited for an interview. The deadline to submit an application is April 16th, 2017 at 11:59 p.m.
Each year thousands of Baltimore communities’ pets end up at county/city open admission shelters. The vast majority of these pets are either abandoned or given up by low-income or middle-income families because they cannot afford to care for them or are losing their family home, apartment, or job and must move to a place that does not allow, or charges a security deposit for, having a pet.

Many of the people giving up their pet(s), do not have knowledge of or know how to access resources to help them protect their assets and/or provide a "bridge" until they can get on "stable
We propose a study that would examine whether it is possible to use this visit to the county/city shelter as an intervention point for people who are (1) close to losing their homes; or (2) having trouble with their landlords. Such an intervention would allow us to identify families at risk and intervene BEFORE they were evicted, or before landlord/tenant problems became severe. It would also reduce the number of animals "turned in" to the shelters.

See more information here.

Korean translator needed for the Global Obesity Prevention Center

Korean translator needed for the various intervention projects in Baltimore through the Global Obesity Prevention Center. The translator will assist our interventionist in store recruitment, translation of promotional materials, training materials and data collection instruments, as well as in intervention activities. Tasks may include regular communication with Korean American store owners via phone and in person visits, store recruitment visits, educational interactive sessions and taste tests, and collection of process evaluation data which may include sales recalls, store environmental assessments, and interactive session process forms.

Contact: Cara Shipley, Research Program Coordinator, cshiple9@jhu.edu

Looking for an applied experience opportunity or something productive to do during summer break? Interested in doing public health-related work abroad? Global Brigades is the world’s largest student-led global health and sustainable development organization. Public Health Brigades is one of its branches and its mission is to empower rural communities to prevent common illnesses through in-home infrastructure development, community leader training, and health education. Our upcoming 7-day brigade is planned for the end of May and we are currently looking for volunteers!

If you have any questions or are interested in coming on the brigade, please contact ehobbin1@jhu.edu for more information!

SBG Health Sciences Summer Internship

Are you interested in an internship with a growing Small Business team and organization? If so, then come join SBG Technology Solutions (SBG)! SBG is a Service Disabled Veteran Owned Small Business (SDVOSB), specializing in Engineering, Information Technology, Cyber-Security and Training. We are seeking a results-oriented Health Sciences Intern. The ideal candidate for this exciting position, is someone who has a positive and energetic attitude, is hard-working, and possesses the ability to support a fast-paced government contractor. The location of performance is
Overview:
We are seeking a dynamic Health Sciences Intern to support the Health and Benefits division team with daily functions within the division. The Health Sciences Intern will provide administrative assistance to a variety of project managers and leads in the Health and Benefits division including working on a variety of special projects. Intern candidates should be transitioning from their junior to senior year in college and have health sciences as their major.

Primary Responsibilities:
- Administrative reception duties to become familiar with SBG’s client base
- Filing and organizing contractual documents
- Reviewing technical business proposals for clarity and cohesiveness
- Providing miscellaneous technical support to portfolio managers
- Other duties as assigned

Requirements:
- Completed junior year and transitioning to senior year in college.
- Possess proven organizational skills with a strong attention to detail and the ability to prioritize and work well in an environment with dynamic demands.
- Possess excellent verbal and written communication skills.
- Proficient with Microsoft Office tools (i.e. MS Word, MS Excel and MS PowerPoint).
- Flexibility and adaptability; able to shift attention and focus to different priorities.
- Pursuing a health sciences related degree.

Please visit us at [www.sbgts.com](http://www.sbgts.com) and if you are interested in this opportunity, please do not hesitate to send your resume to kthomas@sbgts.com. We look forward to hearing from you.

Please include a cover letter on “Why you would be an ideal candidate for the Health Sciences Internship position”. Resumes without a cover letter will not be considered.

World Health Organization, Substandard and Falsified Medical Products Group

The Safety and Vigilance (SAV) Unit within Regulation of Medicines and other Health Technologies (RHT) is looking for an intern to work on the Global Surveillance and Monitoring System for a minimum period of two-three months in the summer of 2017 (timeline is flexible).

The World Health Organization (WHO) has a mandate to tackle substandard, spurious, falsely labelled, falsified and counterfeit (SSFFC) Medical Products, as part of WHO’s fundamental role in protecting public health. There is a recognized lack of reliable and verified data of the global scope, scale and harm caused by SSFFC medical products. In response, WHO has developed the Global Surveillance and Monitoring System (GSMS), which is designed to significantly improve the quantity and quality of data on SSFFC medical products, whilst providing operational support when and where required. Further information on the activities of the GSMS is available here: [http://www.who.int/medicines/regulation/ssffc/en/](http://www.who.int/medicines/regulation/ssffc/en/)

More information [here](http://www.who.int/medicines/regulation/ssffc/en/).
Paid Jobs and Internships

Now Hiring:
Public Health Studies
Office Assistants

Office assistants help to maintain the PHS Weekly Announcements, coordinate and facilitate Public Health Studies-sponsored events, engage PHS students, and assist PHS advisers with various tasks in the office.

Requirements and Additional Information:

- Only students with Federal Work Study are eligible to apply.
- The positions are only open to Public Health Studies majors.
- There are currently 2 open positions.
- We’re hoping to have at least one person who can start this summer.

If you are interested in this position, please send a resume to Caroline Barry, cbarry@ihu.edu by April 25, 2017. Feel free to send questions or concerns via email as well.

Thank you!
Research Employment Opportunity:
Community Health, Crime, and Safety: A Comparative Longitudinal Study of Drug Hot Spots

Faculty in the School of Criminology, Law and Society at George Mason University are conducting a study to examine how neighborhood social and ecological conditions effect health, fear, and safety outcomes of residents. This research is taking place in Baltimore, Maryland. It is a five-year project funded by the National Institute of Drug Abuse, which is a division within the National Institutes of Health. The study is being led by Dr. David Weisburd and Dr. Danielle Rudes from George Mason University, Dr. Brian Lawton of John Jay College of Criminal Justice, Dr. Justin Ready of Griffith University, and Dr. Amelia Haviland of Carnegie Mellon University.

We are recruiting enthusiastic undergraduate and graduate students to participate in the study as employees. Job responsibilities will include conducting door-to-door resident surveys and systematic observations of street conditions in Baltimore City, Maryland. Most data collection will take place from April through October. This is an exciting opportunity for students to obtain research experience, and it may be beneficial in preparing to enter the job market or graduate school.

**Employment details and prerequisites:**
- Current advanced undergraduate (Junior or Senior) or graduate student
- Good academic standing
- Base hourly compensation will be $12 per hour with higher wages for students who assist with project coordination and quality control.
  - Average 20 hours per week
  - Shifts will be 5-9 hours long
- Need to feel comfortable knocking on strangers’ doors in unfamiliar neighborhoods
  - Attend in-person training sessions, no exceptions
  - Display an understanding of study content and concepts
- Ability to meet the travel requirements of the project in Baltimore, MD

**Actively seeking employees with vehicle to transport research team between sites**

**Spanish-speakers needed**

Looking for people with strong interpersonal skills, can speak and communicate effectively, can learn quickly and are highly motivated to work. Must be a strong team player and a problem solver.

If you have any questions concerning the research study, or if you would like to participate in this research study, please email health.safety.study@gmail.com.

The Congressional Budget Office (CBO) Seeks an Assistant Analyst for Health Analysis

The Congressional Budget Office is a small nonpartisan agency that provides economic and budgetary analysis to the Congress. CBO's Budget Analysis Division seeks an Assistant Analyst to work within its two health analysis units. This position is open only to candidates who have or are completing a bachelor's degree; it is not for those who have or are completing a master's degree. This is not a permanent position: At the end of a two-to-three-year appointment, Assistant Analysts typically leave CBO to continue their education in such disciplines as economics, public policy, medicine, or the law.
Tasks will include monitoring Medicare demonstrations and the implementation of major health care legislation; collecting and analyzing data; conducting literature reviews; and developing and producing summaries, charts, and tables. The division’s health analysts work closely with key Congressional staff on U.S. health care policy, preparing multiyear spending projections for federal health care programs such as Medicare, Medicaid, the health insurance marketplaces, and the Public Health Service.

Interested candidates should submit a cover letter, résumé, brief writing sample, unofficial transcripts, and contact information for three references online at www.cbo.gov/careers.

Click this link for more information.

Department of Anesthesiology & Critical Care Medicine (ACCM) Research Opportunity

As part of its clinical research program, the ACCM department is searching for research assistants to help with the multitude of clinical studies/trials ongoing in the ORs and ICUs. We are interested in degree graduates seeking research experience/health care employment for at least 1 year. If you are interested, and would like more information, please contact Beth White, RN, research nurse manager at 443-287-5837 or ewhite11@jhmi.edu.

FDA Center for Biologics Evaluation and Research (CBER) Seeking Post-Bacalaureate Fellows

We are looking to fill 3 or 4 one-year post-bac positions in our bacterial genetics lab (under principal investigator Scott Stibitz) at CBER/FDA starting this summer. We are looking for recent grads with some experience with bacteriology and molecular biology. Post-bacs will be working on different projects (Staphylococcus aureus pathogenesis and genetics, Salmonella acid resistance, Shigella vaccine development, Bordetella genetics, and probiotic assay development), but all projects would involve a good deal of cloning and some protein expression. Our lab is within a research branch of the Center for Biologics Evaluation and Research (CBER), located in a new facility on the Food and Drug Administration headquarters main campus at White Oak/Silver Spring, Maryland.

Interested candidates should email their resumes to Roger Plaut at Roger.Plaut@fda.hhs.gov.

Clinical Information Manager (CMI)

The Emergency Medical Associates (EMA) is looking to hire individuals that can work as Clinical Information Managers (CIMs) / Medical Scribes in their Emergency Departments. The CIM position offers a unique opportunity to gain exposure to the clinical field.

Emergency Medical Associates (EMA) is one of the most respected emergency department (ED) practice organizations in the United States and treats more than 1 million patients annually, while serving more than 30 hospital clients. The company is widely recognized for clinical excellence, as well as the ability to increase patient volume, turn around ED operations, and improve and sustain patient satisfaction.
The CIM works in an Emergency Department to provide clerical/administrative assistance to the ED physician and/or practitioners. They prefer candidates who are interested in the healthcare field and have at least 100 hours working or volunteering in healthcare, and an academic background in sciences/pre-med classes. They currently have full time and part-time positions available in New Jersey, New York, Pennsylvania (Lebanon), and North Carolina! They are looking for current students and alumni for Immediate and Summer 2017 starts.

Being a CIM provides you with a competitive advantage by placing you a step ahead in your career development. If interested in learning more about this exciting CIM position with Emergency Medical Associates, visit their website.

We are currently recruiting for two entry level positions, with multiple spots for each:

**Member Advocates:** Member Advocates are driven by empathy. We put the “care” back in healthcare. We shatter member expectations by providing above and beyond service. As experts in health benefits, Member Advocates are not only the face of the company, but are the voice behind innovation across every department. Through your experience at Collective Health, you will immerse yourself in the rapidly-evolving health insurance industry while mastering skills in operational efficiency, cross-departmental collaboration, and external professionalism.

**Operations Associates:** Each Operations Associate is part of a small team that runs every aspect of a customer’s health plan – eligibility, claims, coordination of benefits, reinsurance. In this role, you will learn more about how insurance and healthcare actually work than any other position in the industry – you will essentially learn how to operate a healthcare insurance company. You will work across every department at Collective Health and be responsible for operating and scaling the core of our business. Through your experiences at Collective Health, you will become an expert in operations and in health care, while being at the forefront of transforming the industry. We’re looking for candidates with a strong academic record. An interest in healthcare is preferred. Our approach in everything we do is collaborative, open and curious. We’re looking for more passionate, driven people to join our growing team.

Please reach out to Danielle DiPersia, Hopkins Class of 2014, with any questions!

**Research Employment Opportunity**

We are recruiting enthusiastic undergraduate and graduate students for field researcher positions on a large research project. Job responsibilities will include conducting door-to-door resident surveys and systematic observations of street conditions in Baltimore City, Maryland. Most data collection will take place from April through October. This is an exciting opportunity for students to obtain research experience, use as an internship, and it may be beneficial in preparing to enter the
Research Technician Position at Scanogen

Scanogen is looking for a motivated and skilled research technician to join the R&D team. Scanogen is a rapidly-growing start-up company developing the first point-of-care nucleic acid detection platform looking for highly driven and inventive individuals to revolutionize clinical diagnostics.

Fellowships & Grants

STAR offers Johns Hopkins University undergraduate students a $4000 stipend to help offset the expense of staying in Baltimore over the summer to start or continue work in a JHU lab or with a Hopkins faculty member in any division, department or program. Students do not necessarily have to be participating in a research project or creative endeavor currently, but must reach out to a faculty member in advance of applying to gain approval for a project to take place over the summer. The STAR session runs from 6/1 to 8/15. For anyone considering a shorter experience, please contact our office directly to discuss eligibility and options.

STAR encourages applications from students from underserved backgrounds (e.g., first generation students, low-income backgrounds), students who are underrepresented in STEM fields, and/or those who may not have previously had an opportunity for a research experience. The deadline to apply is 4/15/2017. Awards will be announced on or about 5/1/2017.

Applications are now open, click [here](#).

For questions please contact the HOUR offices at [HOUR@JHU.EDU](mailto:HOUR@JHU.EDU)

---

Fulbright- Spring 2017

Juniors, seniors, and recent graduates are encouraged to apply for the the Fulbright US Student Program. As part of the Study/Research Award, applicants may propose a study project (either taking coursework or earning a degree), a research project (joining a lab, conducting fieldwork, pursuing an artistic project, etc.), or a combination of study and research in 1 of 140+ countries. The English Teaching Assistantship places students predominantly in high schools and universities located in 1 of 75 countries; ETAs teach English language and American culture. At the heart of all of these types of projects is cultural exchange, and the Fulbright particularly seeks students who are
Students are welcome from all majors - with STEM fields and certain arts fields underrepresented in the Fulbright national candidate pool.

Please see the PHS website (Contact tab) or click here to use the online Advisor Scheduling System.*

* Please note – system does not work with Chrome or Safari browsers or mobile devices

PHS Weekly Submission Process

Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to PHStudies@jhu.edu by 5pm every Monday.

For announcements or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any position opening, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.
