and Chair
Department of Health Policy and
Management
“Different Together”: Breaking Down Barriers to Inclusion at JHU

Mudd Hall Atrium
April 19, 2017
5:00PM - 6:30PM

As the Homewood Council on Inclusive Excellence (HCIE) embarks on implementing diversity strategies and solutions, we would like to share with the Hopkins community our council's priorities, goals and vision. During this forum we would like to bring together groups, individuals, committees, departments and units on the Homewood campus that are involved with or interested in working to improve diversity and inclusion on our campus. Our work to advance an inclusive climate is a collective effort and is enhanced by different groups working on the same goal.

The event will feature a reception, a brief introduction to HCIE and "power talk" by noted Hopkins alum, Baltimore Councilman William B. Henry II, JHU class of '92

Click HERE to register.

Student Groups and Activities

5:45-9:30pm (Exhibition and Talks)
Arellano Theatre and Gilman Atrium
Unpaid Internships and Service

**Water Environment & Reuse Foundation: Research Program Assistant**

Water Environment & Reuse Foundation, a non-profit water research organization, seeks a Research Program Assistant to provide administrative support and coordinate activities under the direction of several Program Directors and managers. This position serves as a member of a team of assistants who are cross-trained to support various administrative functions in the research department and across the organization.

See [this link](#) for more information.

If interested, please send letter of interest and resume to Lfillmore@werf.org.

**Korean translator needed for the Global Obesity Prevention Center**

Korean translator needed for the various intervention projects in Baltimore through the Global Obesity Prevention Center. The translator will assist our interventionist in store recruitment, translation of promotional materials, training materials and data collection instruments, as well as in intervention activities. Tasks may include regular communication with Korean American store owners via phone and in person visits, store recruitment visits, educational interactive sessions and taste tests, and collection of process evaluation data which may include sales recalls, store environmental assessments, and interactive session process forms.
Looking for an applied experience opportunity or something productive to do during summer break? Interested in doing public health-related work abroad? Global Brigades is the world’s largest student-led global health and sustainable development organization. Public Health Brigades is one of its branches and its mission is to empower rural communities to prevent common illnesses through in-home infrastructure development, community leader training, and health education. Our upcoming 7-day brigade is planned for the end of May and we are currently looking for volunteers!

If you have any questions or are interested in coming on the brigade, please contact ehobbin1@jhu.edu for more information!

---

**Paid Jobs and Internships**

**Department of Anesthesiology & Critical Care Medicine (ACCM) Research Opportunity**

As part of its clinical research program, the ACCM department is searching for research assistants to help with the multitude of clinical studies/trials ongoing in the ORs and ICUs. We are interested in degree graduates seeking research experience/health care employment for at least 1 year. If you are interested, and would like more information, please contact Beth White, RN, research nurse manager at 443-287-5837 or ewhite11@jhmi.edu.

**The Congressional Budget Office (CBO) Seeks an Assistant Analyst for Health Analysis**

The Congressional Budget Office is a small nonpartisan agency that provides economic and budgetary analysis to the Congress. CBO's Budget Analysis Division seeks an Assistant Analyst to work within its two health analysis units. This position is open only to candidates who have or are completing a bachelor's degree; it is not for those who have or are completing a master's degree. This is not a permanent position: At the end of a two-to-three-year appointment, Assistant Analysts typically leave CBO to continue their education in such disciplines as economics, public policy, medicine, or the law.

Tasks will include monitoring Medicare demonstrations and the implementation of major health care legislation; collecting and analyzing data; conducting literature reviews; and developing and producing summaries, charts, and tables. The division's health analysts work closely with key Congressional staff on U.S. health care policy, preparing multiyear spending projections for federal
health care programs such as Medicare, Medicaid, the health insurance marketplaces, and the Public Health Service.

Interested candidates should submit a cover letter, résumé, brief writing sample, unofficial transcripts, and contact information for three references online at www.cbo.gov/careers.

Click this link for more information.
FDA Center for Biologics Evaluation and Research (CBER) Seeking Post-Baccalaureate Fellows

We are looking to fill 3 or 4 one-year post-bac positions in our bacterial genetics lab (under principal investigator Scott Stibitz) at CBER/FDA starting this summer. We are looking for recent grads with some experience with bacteriology and molecular biology. Post-bacs will be working on different projects (Staphylococcus aureus pathogenesis and genetics, Salmonella acid resistance, Shigella vaccine development, Bordetella genetics, and probiotic assay development), but all projects would involve a good deal of cloning and some protein expression. Our lab is within a research branch of the Center for Biologics Evaluation and Research (CBER), located in a new facility on the Food and Drug Administration headquarters main campus at White Oak/Silver Spring, Maryland.

Interested candidates should email their resumes to Roger Plaut at Roger.Plaut@fda.hhs.gov.

Clinical Information Manager (CMI)

The Emergency Medical Associates (EMA) is looking to hire individuals that can work as Clinical Information Managers (CIMs) / Medical Scribes in their Emergency Departments. The CIM position offers a unique opportunity to gain exposure to the clinical field.

Emergency Medical Associates (EMA) is one of the most respected emergency department (ED) practice organizations in the United States and treats more than 1 million patients annually, while serving more than 30 hospital clients. The company is widely recognized for clinical excellence, as well as the ability to increase patient volume, turn around ED operations, and improve and sustain patient satisfaction.

The CIM works in an Emergency Department to provide clerical/administrative assistance to the ED physician and/or practitioners. They prefer candidates who are interested in the healthcare field and have at least 100 hours working or volunteering in healthcare, and an academic background in sciences/pre-med classes. They currently have full time and part-time positions available in New Jersey, New York, Pennsylvania (Lebanon), and North Carolina! They are looking for current students and alumni for Immediate and Summer 2017 starts.

Being a CIM provides you with a competitive advantage by placing you a step ahead in your career development. If interested in learning more about this exciting CIM position with Emergency Medical Associates, visit their website.

Click here for the “Top 5 Reasons to Work as a CIM”
Click here for the official CIM job listing
We are currently recruiting for two entry level positions, with multiple spots for each:

**Member Advocates:** Member Advocates are driven by empathy. We put the “care” back in healthcare. We shatter member expectations by providing above and beyond service. As experts in health benefits, Member Advocates are not only the face of the company, but are the voice behind innovation across every department. Through your experience at Collective Health, you will immerse yourself in the rapidly-evolving health insurance industry while mastering skills in operational efficiency, cross-departmental collaboration, and external professionalism.

**Operations Associates:** Each Operations Associate is part of a small team that runs every aspect of a customer's health plan – eligibility, claims, coordination of benefits, reinsurance. In this role, you will learn more about how insurance and healthcare actually work than any other position in the industry – you will essentially learn how to operate a healthcare insurance company. You will work across every department at Collective Health and be responsible for operating and scaling the core of our business. Through your experiences at Collective Health, you will become an expert in operations and in health care, while being at the forefront of transforming the industry.

We're looking for candidates with a strong academic record. An interest in healthcare is preferred. Our approach in everything we do is collaborative, open and curious. We’re looking for more passionate, driven people to join our growing team.

Please reach out to Danielle DiPersia, Hopkins Class of 2014, with any questions!

**Fellowships & Grants**

**Fulbright- Spring 2017**

Juniors, seniors, and recent graduates are encouraged to apply for the Fulbright US Student Program. As part of the Study/Research Award, applicants may propose a study project (either taking coursework or earning a degree), a research project (joining a lab, conducting fieldwork, pursuing an artistic project, etc.), or a combination of study and research in 1 of 140+ countries.

The English Teaching Assistantship places students predominantly in high schools and universities located in 1 of 75 countries; ETAs teach English language and American culture. At the heart of all of
these types of projects is cultural exchange, and the Fulbright particularly seeks students who are culturally curious, open, and eager to engage in their host communities. Students are welcome from all majors - with STEM fields and certain arts fields underrepresented in the Fulbright national candidate pool.

PHS Weekly Submission Process

Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to PHStudies@jhu.edu by 5pm every Monday.

For announcements or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any position opening, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.
