Recent research on inequality and poverty has shown that those born into low-income families, especially African Americans, still have difficulty entering the middle class, in part because of the disadvantages they experience living in more dangerous neighborhoods, going to inferior public schools, and persistent racial inequality. “Coming of Age in the Other America” shows that despite
overwhelming odds, some disadvantaged urban youth do achieve upward mobility.

Stefanie DeLuca, PhD, is an associate professor of sociology at the Johns Hopkins University. Her research uses sociological perspectives to inform education and housing policy.
May 2, 2017, 4:00pm-6:00pm, Mergenthaler 439

**Program in Women, Gender, and Sexuality Summer Research Fellows Workshop**
May 3, 2017, 4:00pm-6:30pm, Maryland 109

**Eye Health Survey**

If you are currently taking courses at the Bloomberg School of Public Health (including undergraduate students), you are eligible to complete a survey on eye health for a chance to win a $25 Amazon gift card. This survey is being conducted a group of JHSPH students from the Health Communications course (410.655) to assess effectiveness of a campaign aimed at improving eye health.

We think your opinions are important and would really appreciate it if you could take some time to complete the 10 minute survey below:

http://jhsph.co1.qualtrics.com/jfe/form/SV_b43WJsGcgAeQoPs

All answers are completely anonymous. At the end of the survey, you'll be directed to a separate questionnaire to enter your e-mail address for a chance to win the Amazon gift card. Please direct any questions about the survey to fei@jhu.edu.

**American Mock World Health Organization (AMWHO) Hopkins Executive Board Application**

This is an application for the E-Board of the Johns Hopkins University Chapter of the American Mock World Health Organization for the 2017-2018 school year. Undergraduate and Master’s students are welcome to apply. AMWHO aims to educate students of the proceedings of the WHO through a simulation of the World Health Assembly, the governing body of the WHO. As a new organization at Hopkins, students involved will have a great role in the structure of this chapter. By participating in this organization, you will gain not only leadership experience, but also unparalleled global health policy knowledge. Brief descriptions of the positions can be found here.

To sign up for the international conference click here, or visit their Facebook page.
Are you a student or working professional interested in expanding your knowledge and developing expertise in public mental health? Given the uncertainty about the future in healthcare, come and learn what lies ahead for public mental health - take courses in our summer institute and learn from the experts. We offer in person and online courses on methods for mental health research, mental health services and evaluation, global mental health and other hot topics.

Unpaid Internships and Service

Water Environment & Reuse Foundation: Research Program Assistant

Water Environment & Reuse Foundation, a non-profit water research organization, seeks a Research Program Assistant to provide administrative support and coordinate activities under the direction of several Program Directors and managers. This position serves as a member of a team of assistants who are cross-trained to support various administrative functions in the research department and across the organization.

See this link for more information.

If interested, please send letter of interest and resume to Lfillmore@werf.org
Looking for an applied experience opportunity or something productive to do during summer break? Interested in doing public health-related work abroad? Global Brigades is the world’s largest student-led global health and sustainable development organization. Public Health Brigades is one of its branches and its mission is to empower rural communities to prevent common illnesses through in-home infrastructure development, community leader training, and health education. Our upcoming 7-day brigade is planned for the end of May and we are currently looking for volunteers!

If you have any questions or are interested in coming on the brigade, please contact ehobbin1@jhu.edu for more information!

**Paid Jobs and Internships**

**Department of Anesthesiology & Critical Care Medicine (ACCM) Research Opportunity**

As part of its clinical research program, the ACCM department is searching for research assistants to help with the multitude of clinical studies/trials ongoing in the ORs and ICUs. We are interested in degree graduates seeking research experience/health care employment for at least 1 year. If you are interested, and would like more information, please contact Beth White, RN, research nurse manager at 443-287-5837 or ewhite11@jhmi.edu.

**FDA Center for Biologics Evaluation and Research (CBER) Seeking Post-Baccalaureate Fellows**

We are looking to fill 3 or 4 one-year post-bac positions in our bacterial genetics lab (under principal investigator Scott Stibitz) at CBER/FDA starting this summer. We are looking for recent grads with some experience with bacteriology and molecular biology. Post-bacs will be working on different projects (Staphylococcus aureus pathogenesis and genetics, Salmonella acid resistance, Shigella vaccine development, Bordetella genetics, and probiotic assay development), but all projects would involve a good deal of cloning and some protein expression. Our lab is within a research branch of the Center for Biologics Evaluation and Research (CBER), located in a new facility on the Food and Drug Administration headquarters main campus at White Oak/Silver Spring, Maryland.

Interested candidates should email their resumes to Roger Plaut at Roger.Plaut@fda.hhs.gov.

**Make a difference on issues that matter this summer with the Fund for the Public Interest!**
What are you planning to do with your summer? Do you want to make a real difference, working to protect the environment or public health? Do you want to gain real-world experience and pick up valuable skills? Do you want to make good money?

**Apply for a job with the Fund this summer**, and you could get all of that and more. We’re a national, non-profit organization that builds the people power for America’s leading environmental and social change organizations.

We’re hiring in over 30 cities across the country, including College Park, MD this summer to raise money and get thousands of people to take action. You’ll make a real difference on important issues. You may be working to help stop global warming, defend consumers from big banks and credit card companies, or stand up for clean water, just to name a few.

You’ll gain real-world experience and learn valuable skills. Making change happen isn’t easy, but history has shown time and again that when we build enough people power we can win. But to do that we need people who have the skills and leadership ability to get things done. And that’s what you’ll learn with the Fund.

We have a great training program. Training starts the first day, and it continues throughout your time on staff.

You will have the opportunity to learn how to lead a team and run news conferences, all while developing your public speaking skills, raising money and motivating people to get involved and take action. Skills that will be valuable, no matter what kind of job you want in the future.

And, you’ll make good money.

Many people are faced with a tough choice for how to spend their summer. Do I earn money by waiting tables, painting houses or making lattes, or do I take that unpaid internship so I can get real-world experience, or work on something I care about. You don’t have to make that choice.

You can make $4,500-$6,500 this summer while doing something you actually believe in. All while gaining the skills and experience you need to help you succeed in the future.

This is not your typical summer job, but if you’re looking for a great experience where you can make a real difference, and work with some great people along the way, then **apply for a summer job with The Fund**.

To apply, please visit **Summer Jobs That Matter**.

- [https://app.joinhandshake.com/jobs/732948](https://app.joinhandshake.com/jobs/732948)

---

The Baltimore HIV/AIDS Scholars Program was established in 2012 to promote the development of
promising undergraduate students into HIV/AIDS investigators. Students conduct research under the direct mentorship of established Johns Hopkins researchers with the purpose of advancing science in the fields of HIV prevention and treatment that are specifically of relevance to the HIV epidemic in Baltimore City. Mentors are drawn from the schools of Medicine, Nursing and Bloomberg School of Public Health.

The ten week program runs from the end of May through the first week of August. During this time, interns work with faculty on research projects in their field of interest. In addition, interns will attend HIV/AIDS oriented seminars and professional development sessions.

Applicants will include current sophomores, juniors and seniors who will be selected by a committee comprised of faculty and community representatives from the CFAR. Students from underrepresented ethnic minority groups and those from economically disadvantaged backgrounds who are interested in careers in science, public health or medicine are strongly encouraged to apply. The program is open to all majors. Interns are paid hourly, $16.00 per hour and work between 30-40 hours per week.

Please note: The official process is closed, but accepted student(s) will be folded into the larger group. Interested students should email Jordan White with resume. jjwhite@jhu.edu

PHS Weekly Submission Process

Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to PHStudies@jhu.edu by 5pm every Monday.

For announcements or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any position opening, please submit the position title, organization name, responsibilities and
eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.
