Eye Health Survey

If you are currently taking courses at the Bloomberg School of Public Health (including undergraduate students), you are eligible to complete a survey on eye health for a chance to win a $25 Amazon gift card. This survey is being conducted a group of JHSPH students from the Health Communications course (410.655) to assess effectiveness of a campaign aimed at improving eye health.

We think your opinions are important and would really appreciate it if you could take some time to complete the 10 minute survey below:  
http://jhsph.co1.qualtrics.com/jfe/form/SV_b43WJsGcgAeQoPb

All answers are completely anonymous. At the end of the survey, you’ll be directed to a separate questionnaire to enter your e-mail address for a chance to win the Amazon gift card. Please direct any questions about the survey to fei@jhu.edu.

American Mock World Health Organization (AMWHO) Hopkins Executive Board Application

This is an application for the E-Board of the Johns Hopkins University Chapter of the American Mock World Health Organization for the 2017-2018 school year. Undergraduate and Master’s students are welcome to apply. AMWHO aims to educate students of the proceedings of the WHO through a simulation of the World Health Assembly, the governing body of the WHO. As a new organization at Hopkins, students involved will have a great role in the structure of this chapter. By participating in this organization, you will gain not only leadership experience, but also
unparalleled global health policy knowledge. Brief descriptions of the positions can be found here. To sign up for the international conference click here, or visit their Facebook page.

Are you a student or working professional interested in expanding your knowledge and developing expertise in public mental health? Given the uncertainty about the future in healthcare, come and learn what lies ahead for public mental health - take courses in our summer institute and learn from the experts. We offer in person and online courses on methods for mental health research, mental health services and evaluation, global mental health and other hot topics.

Unpaid Internships and Service

Looking for an applied experience opportunity or something productive to do during summer break? Interested in doing public health-related work abroad? Global Brigades is the world’s largest student-led global health and sustainable development organization. Public Health Brigades is one
of its branches and its mission is to empower rural communities to prevent common illnesses through in-home infrastructure development, community leader training, and health education. Our upcoming 7-day brigade is planned for the end of May and we are currently looking for volunteers!

If you have any questions or are interested in coming on the brigade, please contact ehobbin1@jhu.edu for more information!

Paid Jobs and Internships

City of Baltimore Bureau of Maternal and Child Health: Grant Service Specialist & Data Analyst/Programmer

The Baltimore City Health Department is currently seeking an organized individual to fill the role of Data Analyst/Programmer for the Bureau of Maternal and Child Health. This position is full-time and responsible for a wide variety of data management and analytical tasks, computer programming, and systems design development. Supervision if received from a technical superior. This is a two-year, grant-funded position.

Interested candidates should submit a resume and cover letter to:
Name: Jana Goins
Title: MCH Epidemiologist
Bureau/Program: Maternal and Child Health
Street Address: 1001 East Fayette St.
City, State, Zip Code: Baltimore, MD 21202
Email Address: Jana.Goins@baltimorecity.gov

Click here for more information!

Department of Anesthesiology & Critical Care Medicine (ACCM) Research Opportunity

As part of its clinical research program, the ACCM department is searching for research assistants to help with the multitude of clinical studies/trials ongoing in the ORs and ICUs. We are interested in degree graduates seeking research experience/health care employment for at least 1 year. If you are interested, and would like more information, please contact Beth White, RN, research nurse manager at 443-287-5837 or ewhite11@jhmi.edu.

FDA Center for Biologics Evaluation and Research (CBER) Seeking Post-Baccalaureate Fellows

We are looking to fill 3 or 4 one-year post-bac positions in our bacterial genetics lab (under principal investigator Scott Stibitz) at CBER/FDA starting this summer. We are looking for recent grads with some experience with bacteriology and molecular biology. Post-bacs will be working on different projects (Staphylococcus aureus pathogenesis and genetics, Salmonella acid resistance, Shigella vaccine development, Bordetella genetics, and probiotic assay development), but all projects would involve a good deal of cloning and some protein expression. Our lab is within a research branch of the Center for Biologics Evaluation and Research (CBER), located in a new facility on the Food and
Drug Administration headquarters main campus at White Oak/Silver Spring, Maryland.

Interested candidates should email their resumes to Roger Plaut at Roger.Plaut@fda.hhs.gov.

Make a difference on issues that matter this summer with the Fund for the Public Interest!

What are you planning to do with your summer? Do you want to make a real difference, working to protect the environment or public health? Do you want to gain real-world experience and pick up valuable skills? Do you want to make good money?

Apply for a job with the Fund this summer, and you could get all of that and more. We’re a national, non-profit organization that builds the people power for America’s leading environmental and social change organizations.

We’re hiring in over 30 cities across the country, including College Park, MD this summer to raise money and get thousands of people to take action. You’ll make a real difference on important issues. You may be working to help stop global warming, defend consumers from big banks and credit card companies, or stand up for clean water, just to name a few.

You’ll gain real-world experience and learn valuable skills. Making change happen isn’t easy, but history has shown time and again that when we build enough people power we can win. But to do that we need people who have the skills and leadership ability to get things done. And that’s what you’ll learn with the Fund.

We have a great training program. Training starts the first day, and it continues throughout your time on staff.

You will have the opportunity to learn how to lead a team and run news conferences, all while developing your public speaking skills, raising money and motivating people to get involved and take action. Skills that will be valuable, no matter what kind of job you want in the future.

And, you’ll make good money.

Many people are faced with a tough choice for how to spend their summer. Do I earn money by waiting tables, painting houses or making lattes, or do I take that unpaid internship so I can get real-world experience, or work on something I care about. You don’t have to make that choice.

You can make $4,500-$6,500 this summer while doing something you actually believe in. All while gaining the skills and experience you need to help you succeed in the future.

This is not your typical summer job, but if you’re looking for a great experience where you can make a real difference, and work with some great people along the way, then apply for a summer job with The Fund.

To apply, please visit Summer Jobs That Matter.

Interested in health and international development?

Panagora Group has a position open for an HIV/AIDS Portal Administrator. The position is full-time for 12 months, with the possibility of extension, and located in Arlington, VA.

We are seeking a qualified individual with experience in health systems strengthening, data analytics, and HIV/AIDS commodity data! The Portal Administrator will support USAID-funded Global Health Supply Chain - Procurement and Supply Management (GHSC-PSM) with piloting the Procurement Planning and Monitoring Report (PPMR).

Two positions available with Panagora group.
The positions are posted in Handshake and students can apply there directly:
The Baltimore HIV/AIDS Scholars Program was established in 2012 to promote the development of promising undergraduate students into HIV/AIDS investigators. Students conduct research under the direct mentorship of established Johns Hopkins researchers with the purpose of advancing science in the fields of HIV prevention and treatment that are specifically of relevance to the HIV epidemic in Baltimore City.

Mentors are drawn from the schools of Medicine, Nursing and Bloomberg School of Public Health. The ten week program runs from the end of May through the first week of August. During this time, interns work with faculty on research projects in their field of interest. In addition, interns will attend HIV/AIDS oriented seminars and professional development sessions.

Applicants will include current sophomores, juniors and seniors who will be selected by a committee comprised of faculty and community representatives from the CFAR. Students from underrepresented ethnic minority groups and those from economically disadvantaged backgrounds who are interested in careers in science, public health or medicine are strongly encouraged to apply. The program is open to all majors. Interns are paid hourly, $16.00 per hour and work between 30-40 hours per week.

Please note: The official process is closed, but accepted student(s) will be folded into the larger group. Interested students should email Jordan White with resume. jjwhite@jhu.edu
PHStudies@jhu.edu by 5pm every Monday.

For announcements or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any position opening, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.
