Information Sessions and Career Fairs

Student Job Fair

The Student Job Fair will be on Friday, September 1st from 10am to 1pm in the Glass Pavilion.

Many employers conduct interviews on-the-spot, so come prepared. Below are some tips to help you be ready:

- Dress is business casual
- If you have a resume, bring at least 10 copies
- Bring your JCard – it’s required for entry
- Bring your class schedule so that you know ‘exactly’ when you are available to work
- Print and bring your ticket

Click Here for more information and to get your ticket!

RING IN THE 2017 SCHOOL YEAR @ THE

PHS WELCOME BACK BBQ

Thursday, September 7th
4:00-7:00pm
Public Health Studies Office Backyard
3505 N. Charles St.

GET YOUR FREE T-SHIRT HERE!
This is an application for the E-Board of the Johns Hopkins University Chapter of the American Mock World Health Organization for the 2017-2018 school year. Undergraduate and Master’s students are welcome to apply. AMWHO aims to educate students of the proceedings of the WHO through a simulation of the World Health Assembly, the governing body of the WHO. As a new organization at Hopkins, students involved will have a great role in the structure of this chapter. By participating in this organization, you will gain not only leadership experience, but also unparalleled global health policy knowledge. Brief descriptions of the positions can be found here.
Unpaid Internships and Service

United Against Inequities in Disease (UAID) – Public Health Internship

United Against Inequities in Disease (UAID) is a national nonprofit organization that empowers students and communities across the United States to reduce health inequities (unjust and preventable differences in health outcomes between groups of people).

As a public health organization dedicated to long-term sustainability and impact, UAID students throughout the country lead innovative projects to reduce health inequities in their own communities. Please visit www.uaid.org for more details.

UAID is pleased to announce open intern positions on the UAID National Board of Directors. If you are interested in social justice and are looking for a leadership opportunity in public health, please apply here: http://www.uaid.org/internapplication. Preference will be given to those who apply early.

ePartogram Study – Undergrad Intern for Data Capture/Extraction

Globally, 43,000 women die during childbirth due to obstructed labor, 904,000 newborns die from hypoxia and there are 1.02 million stillbirths each year. Many of these deaths could be prevented with timely identification and management of intrapartum complications. Based on the WHO modified partograph, Jhpiego’s novel intervention, the ePartogram, is a tablet-based application designed to improve labor management practices in low-resource settings by addressing key challenges in paper partograph use and interpretation, including ease of data entry, lack of real-time data collection, late detection of complications, and lack of awareness on when to take clinical action. To further demonstrate ePartogram’s impact on decision-making and clinical care, this current study aims to measure the effectiveness of use of ePartogram versus the paper partograph on labor management and labor outcomes in maternity wards of 12 facilities in Kenya.

Primary responsibilities include:

- Attend standardization training on data extraction tool
- Extract quantitative data from de-identified primary data sources (partograph scans) and input into RedCAP on a tablet device, up to 20 hours per week – this will mostly be done while at Jhpiego office
- Participate in data validation exercises with research team and other extractors
- Report to supervisor any confusing hand-written entries on the partographs that make it difficult to enter to RedCap tool.
- Document and immediately report any challenges with the RedCAP tool

Applicant must be a current student at a JHU institution, have completed at least two years of undergraduate coursework, have coursework in mathematics and sciences (required), and research methods (preferred). A Bachelor’s degree in public health is also preferred. Additionally, candidates
must have strong quantitative skills, professional-level written and verbal communication skills, be proficient in Microsoft Office, be able to work up to 20 hours per week, and preferably have experience working on a research study and/or with RedCap or similar software.

If interested: please send cover letter email with description of summer availability and CV/resume to: Lindsay Litwin, Program Officer, Innovations Unit, Jhpiego lindsay.litwin@jhpiego.org

**Paid Jobs and Internships**

**Project Coordinator at Northwell Health**

Northwell Health is an organization of 61,000 employees, 21 hospitals, and over 450 community practices and facilities in New York. Northwell Health’s care management organization is looking for a Project Coordinator to support the implementation of prevention, wellness, and disease management projects. Examples of projects include: Improving practice performance on HEDIS measures, launching new projects with the Center for Tobacco Cessation, and participating in NYS’ Delivery System Reform Incentive Payment (DSRIP) program.

Anyone who is interested should send their resume to Ariel E. Hayes, Senior Director of Program Development ahayes@northwell.edu.

**Korean Translator / Research Assistant**

Korean translator needed for the B’more Healthy Corner Stores for Moms and Kids project in the Center for Human Nutrition and the Johns Hopkins Bloomberg school of Public Health. The translator will assist our interventionist in store recruitment, translation of promotional materials, training materials and data collection instruments, as well as in intervention activities. Tasks may include regular communication with Korean American store owners via phone and in person visits, store recruitment visits and collection of process evaluation data which may include sales recalls and store environmental assessments.

Time requirement at least 10 hours per week with a maximum of 19 hours per week. License and transportation strongly recommended, but not required.

If interested, please contact Caroline Wensel and Lisa Poirier, the project coordinators at cwensel1@jhu.edu and lpoirie4@jhmi.edu.

**Summer Opportunity at JHU Worklife Programs**

Worklife Programs is looking for student summer help (June through August) to assist with the Johns Hopkins Breastfeeding Support Program. We need someone on a weekly basis who can order supplies, stock Mother’s Rooms and the vending machine at the hospital campus. We also need this...
person to gather sign-in sheets and check Rooms at several locations (e.g. Homewood, Mt Washington, JHH). We would like help with small projects such as updating maps and videos on our website. This job can be done one day per week (approximately 2-5 hours per week) and is flexible regarding day and time. The student must have their own transportation.

To apply, contact Barbara Fowler, Lifespan Services Manager; bfowler@jhu.edu; 443-997-3805.

**Communications Assistant for Global Health Research and Federal Budget Policy Project**

The Department of International Health is seeking a student to work part-time on a communications project. The project is focused on collecting, collating and summarizing research, information and stories related to conversations around the federal administration’s budget proposal to significantly reduce funding for global health research and programs. The position will be up to 19 hours a week for six-months from the date of hire. Depending on need the term may be extended beyond six-months.

The position will report to Brandon Howard at the School of Public Health and work closely with the School of Nursing, the School of Medicine and staff in communications and government affairs at the University.

See more information [here](#). Contact Brandon Howard to apply. The salary is $20/hour.

---

**Research Assistant for Health Coaching in Pregnancy Study**

The Research Assistant will perform tasks in all aspects of a health coaching program in pregnancy and postpartum and in the development of an online health coaching platform. We have an ongoing pilot study at Johns Hopkins and an expansion of the study launched at Reading Hospital in PA, and will be working with a technology company to develop an online platform of the program.

See more information [here](#).

**Research Associate, International Program in Healthcare Policy**

The Commonwealth Fund

The Commonwealth Fund is a private foundation that aims to promote a high performing health care system that achieves better access, improved quality, and greater efficiency, particularly for society's most vulnerable, including low-income people, the uninsured, minority Americans, young children, and elderly adults. The Fund carries out this mandate by supporting independent research on health care issues and making grants to improve health care practice and policy. An international program in health policy is designed to stimulate innovative policies and practices in the United States and other industrialized countries. The Fund has an endowment of $750 million, and an annual budget of $35 million.

Reporting to the Vice President and Director of the International Health Policy Program (VP&D), the Research Associate works closely with the VP&D and the other program staff to provide research, writing and analytic support on an on-going basis.
