SOPHAS Virtual Fair

Join ASPPH, SOPHAS, current students, and representatives from over 50 schools and programs of public health online at the SOPHAS Virtual Fair. You will be able to chat in real-time and have all of your admissions & application questions answered.

You can log in from anywhere and registration is FREE!
They will be hosting in-person fairs throughout the summer and fall along with three additional SOPHAS Virtual Fairs.

If you have any questions about the in-person or virtual fairs, reach out to Emily C. Gordon, Student Services Coordinator egordon@aspph.org

Fall SOPHAS Virtual Fair Dates & Registration:

Tuesday, September 19, 2017
Wednesday, November 16, 2017
Wednesday, January 31, 2018 - registration coming soon

Student Activities and Events

Hopkins Undergraduate Mobile Heath Initiative First GBM

HUMHI is a newly registered student organization that seeks to solve public health issues through mobile technology. Collaborating with Global Health Initiative at Bloomberg, we plan to provide undergraduate with resources and opportunities available at the Bloomberg School of Public Health. HUMHI is led by executive board comprised of undergraduate students and oversaw by the faculty advisors from the JHU Public Health Studies Program at both the graduate and the undergraduate level.

HUMHI is hosting its first GBM on Wed. 13th 8pm at Krieger 205.Anyone interested in becoming part of HUMHI are welcome to come. Free food will be provided.

Foreign Affairs Symposium Application Open

Are you interested in global affairs, current events and social issues? Would you like to the chance to meet activists like Chimamanda Adichie and Gloria Steinem, plan art exhibits with works by Ai Wei Wei, or participate in a video conference call with Edward Snowden? The staff application for the 2018 Foreign Affairs Symposium is live and can be found here. Please note that the application deadline is Monday, September 18th at 11:59 PM.

The Foreign Affairs Symposium will be hosting a Meet & Greet on Wednesday the 13th from 7pm to 9pm on MSE Q-Level. RSVP for the event here.

For more information and any questions please contact jhufas@gmail.com.

Johns Hopkins Emergency Departments Programs Applications Open

The JHH Adult and Pediatric Emergency Departments Volunteer Programs and the Emergency Volunteer Program at Bayview Medical Center are recruiting exceptional volunteers to help provide the best care for families and patients. Volunteer opportunities include directly supporting clinical
research, public health initiatives based from the department, quality assurance rounding, networking with specialists, dedicated shadowing hours, and exposure to the field of emergency medicine and critical care while assisting physicians and nurses. There will be an information session for all three programs on Thursday, September 14, and applications are due on September 22 at 11:59pm.

Apply to the Emergency Volunteer Programs [here](#). For more information and any questions please contact kharish2@jhu.edu.

---

### Public Health Connection Application

The Public Health Student Forum (PHSF) along with the Bloomberg School of Public Health Student Assembly have organized a program called “Public Health Connection”, a mentor-mentee partnership that will allow you to connect with a graduate student in your field of interest. Mentors and mentees will be paired on a first come, first serve basis, and the form will be due Friday, September 29th. Anyone who is interested in having a mentor is encouraged to apply [here](#).

---

### HOPE Introduction Meeting

Join HOPE at their first general body meeting on Thursday September 14th, from 6pm to 7:30pm in Gilman 17. There will be an introduction to the executive board and other pre-health students, an opportunity to expand your network with other colleges and medical schools, and learn about future HOPE events and opportunities.

---

### Public Health Case Competition and Trivia Club

A community for Public Health undergraduates to connect with their peers outside of a class environment as well as put skills that are learned in the classroom into practice. Organized trivia events and case competitions will allow you to collaborate in teams and foster your public health knowledge. The PHCCTC aims to prepare a team, of students to represent the Johns Hopkins University at the annual Public Health Scholar Bowl in St. Louis.

Anyone is welcome to join. The interest form can be found [here](#). For any questions about the club please contact jhuphcctc@gmail.com.

---

### AMWHO Applications Open

The American Mock World Health Organization (AMWHO) is now accepting applications for members of its General Body! AMWHO is a student forum similar to Model UN, with participants taking the role of WHO Ambassador, NGO representatives, or Media Correspondents to engage in civic debate regarding global health policy. The Hopkins AMWHO Chapter is among the newest to join the national AMWHO organization and will be sending a delegation of representatives to the
International AMWHO Conference in Atlanta Oct. 13-15. The Hopkins Chapter will also be seeking student leaders to host the inaugural regional AMWHO conference at Hopkins in the spring. To apply to the Hopkins Chapter's General Body, please fill out the form at the following link: TinyURL.com/AMWHOform. If you intend to join the Hopkins Delegation to the international conference in Atlanta, please fill out the second page of the same form. There will also be an infosession held at the PHS office, date TBD.

Public Health Student Forum

Applications are now open for the 2017-2018 Public Health Student Forum. Submit your application at jhuphsf.org by 9/20.
Are you a JHU Homewood student?
Are you interested in opportunities at Bayview?

You can ride free with Lyft!

The Johns Hopkins Bayview Medical Center is overflowing with research and education opportunities. To make it easier for Homewood students to come to Johns Hopkins Bayview, the Office of the Vice Dean is offering free rides using Lyft for students to travel between these two locations. This is a pilot program that will run until December 2017.

If you are a JHU student at Homewood who travels to Johns Hopkins Bayview for a research internship or a faculty member with a student in mind, please send an email to Leigh Fisher at LeighFisher@jhmi.edu for more information. In order to qualify for free transportation, we will verify with your faculty sponsor prior to issuing ride credits.

We look forward to seeing you at Johns Hopkins Bayview!

This program is sponsored by the Johns Hopkins Bayview Scientific Advisory Board.
For more information, contact: LeighFisher@jhmi.edu
410-550-8960
Unpaid Internships and Service

Internship Available at Chase Brexton Health Care Department

Chase Brexton is a community medical center that works to provide affordable health care for all. They seek to engage individuals, foundations, and corporations to help their work by donating money or time. Please visit https://www.chasebrexton.org/ for more information.

The intern will be exposed to donor development and management by interacting with donors, tracking donor information, using the database E-tapestry and preparing for a donor cultivation event. Preferred skills or computer, graphic design, language, organizational and editing skills.

For more information and any questions please contact mjones@chasebrexton.org.

Public Health Internship Available at Maryland PIRG

Maryland PIRG is an independent non-profit organization committed to the health and well-being of Marylanders. Their public health campaigns include stopping the overuse of antibiotics; protecting children from toxic chemical exposure; and advocating for stronger health protections at state and federal levels. Please visit www.MarylandPIRG.org for more information.

The intern will help educate and engage the public on the most critical issues of our time; help get PIRG’s issues into the media, build coalitions, organize events, and lobby decision-makers. Write letters to the editor, coordinate volunteers, host events, organize rallies, research and assemble data, and petition/phonebank.

See more information and details on how to apply here.

Social Media Internship Available at Chase Brexton Health Care LGBT Resource Center

The LGBT social media intern will create content and use technology to promote the LGBT Health Resource Center on all channels including social media, web, and email. The intern will also conduct research, craft written and visual content for outreach, and produce digital analytics for campaigns. As a member of the digital team, the intern will be a vital part of the development of the LGBT Health Resource Center and Chase Brexton’s marketing and communications initiatives.

For more details on hours and how to apply, click here.

ePartogram Study – Undergrad Intern for Data Capture/Extraction

Globally, 43,000 women die during childbirth due to obstructed labor, 904,000 newborns die from hypoxia and there are 1.02 million stillbirths each year. Many of these deaths could be prevented with timely identification and management of intrapartum complications. Based on the WHO modified partograph, Jhpiego’s novel intervention, the ePartogram, is a tablet-based application designed to improve labor management practices in low-resource settings by addressing key challenges in paper partograph use and interpretation, including ease of data entry, lack of real-time data collection, late detection of complications, and lack of awareness on when to take clinical
action. To further demonstrate ePartogram’s impact on decision-making and clinical care, this current study aims to measure the effectiveness of use of ePartogram versus the paper partograph on labor management and labor outcomes in maternity wards of 12 facilities in Kenya.

Primary responsibilities include:

• Attend standardization training on data extraction tool
• Extract quantitative data from de-identified primary data sources (partograph scans) and input into RedCAP on a tablet device, up to 20 hours per week – this will mostly be done while at Jhpiego office
• Participate in data validation exercises with research team and other extractors
• Report to supervisor any confusing hand-written entries on the partographs that make it difficult to enter to RedCap tool.
• Document and immediately report any challenges with the RedCAP tool

Applicant must be a current student at a JHU institution, have completed at least two years of undergraduate coursework, have coursework in mathematics and sciences (required), and research methods (preferred). A Bachelor’s degree in public health is also preferred. Additionally, candidates must have strong quantitative skills, professional-level written and verbal communication skills, be proficient in Microsoft Office, be able to work up to 20 hours per week, and preferably have experience working on a research study and/or with RedCap or similar software.

If interested: please send cover letter email with description of summer availability and CV/resume to: Lindsay Litwin, Program Officer, Innovations Unit, Jhpiego lindsay.litwin@jhpiego.org

Paid Jobs and Internships

Research Assistant Position with the Johns Hopkins Safety Project

The Health Policy and Management department of the School of Public Health is searching for fifteen research assistants to work on The Johns Hopkins Home Safety Project. This project was a community intervention trial that installed smoke alarms in homes in 2011. Research Assistants will be revisiting homes to check on smoke alarm functionality. There will be opportunities for assistance with analysis and manuscript preparation for interested students.

Interested students must have Federal Work Study Award in order to be hired and are expected to commit 10-19 hours per week. Flexible hours are also necessary to meet with participants.

For more information and any questions please contact wshields@jhsph.edu. See flyer here for more details.

Global Health Equity Scholars Program

The Global Health Equity Scholars Program is searching for eight to ten students university-wide, undergraduate or professional, interested in research on global health issues. GHE Scholars gain
valuable exposure and experience of global health networks as well as practical skills applicable to a field of interest. Scholars will be paid research assistants for one year and are expected to commit an average of 10-12 hours each week.

The application form can be found [here](https://www.ahealthierworld.jhu.edu/student-scholars-program). To find out more information about The Global Health Equity Scholars Program or the application process please visit [https://www.ahealthierworld.jhu.edu/student-scholars-program](https://www.ahealthierworld.jhu.edu/student-scholars-program).

**Network Data Analysis and Visualization Internship**

LINC is currently undertaking multiple activities that include the collection, analysis, and visualization of network data through Social Network Analysis (SNA) in order to design and evaluate development interventions. Our SNA work is applied in a variety of technical sectors, geographies, and network types. Most notably, current/recent analyses cover Public Sector Services, Agricultural Market Development, collaboration in Water and Sanitation, and Health Care Supply Chain, in Asia, Africa, and Latin America. LINC is currently seeking a part-time, paid network data analysis and visualization intern for the fall to support these activities as well as LINC’s overall approach to collecting, analyzing, and visualizing network data.

See [flyer](#) for more details.

---

**Research Assistant Position with the Epidemiology Research Group in Organ Transplantation**

The Epidemiology Research Group in Organ Transplantation, a lab in the Johns Hopkins Department of Surgery, is seeking motivated undergraduate students for a part-time research assistant position. Students will be working on the WHOLE Donor Study, a long-term follow up study of live kidney donors.

For more details on payment, hours, and how to apply, click [here](#).

---

**Project Coordinator at Northwell Health**

Northwell Health is an organization of 61,000 employees, 21 hospitals, and over 450 community practices and facilities in New York. Northwell Health’s care management organization is looking for a Project Coordinator to support the implementation of prevention, wellness, and disease management projects. Examples of projects include: Improving practice performance on HEDIS measures, launching new projects with the Center for Tobacco Cessation, and participating in NYS’ Delivery System Reform Incentive Payment (DSRIP) program.

Anyone who is interested should send their resume to Ariel E. Hayes, Senior Director of Program Development [ahayes@northwell.edu](mailto:ahayes@northwell.edu).
Korean Translator / Research Assistant

Korean translator needed for the B’more Healthy Corner Stores for Moms and Kids project in the Center for Human Nutrition and the Johns Hopkins Bloomberg school of Public Health. The translator will assist our interventionist in store recruitment, translation of promotional materials, training materials and data collection instruments, as well as in intervention activities. Tasks may include regular communication with Korean American store owners via phone and in person visits, store recruitment visits and collection of process evaluation data which may include sales recalls and store environmental assessments.

Time requirement at least 10 hours per week with a maximum of 19 hours per week. License and transportation strongly recommended, but not required.

If interested, please contact Caroline Wensel and Lisa Poirier, the project coordinators at cwensel1@jhu.edu and lpoirie4@jhmi.edu.

Communications Assistant for Global Health Research and Federal Budget Policy Project

The Department of International Health is seeking a student to work part-time on a communications project. The project is focused on collecting, collating and summarizing research, information and stories related to conversations around the federal administration’s budget proposal to significantly reduce funding for global health research and programs. The position will be up to 19 hours a week for six-months from the date of hire. Depending on need the term may be extended beyond six-months.

The position will report to Brandon Howard at the School of Public Health and work closely with the School of Nursing, the School of Medicine and staff in communications and government affairs at the University.

See more information here. Contact Brandon Howard to apply. The salary is $20/hour.

Research Assistant for Health Coaching in Pregnancy Study

The Research Assistant will perform tasks in all aspects of a health coaching program in pregnancy and postpartum and in the development of an online health coaching platform. We have an ongoing pilot study at Johns Hopkins and an expansion of the study launched at Reading Hospital in PA, and will be working with a technology company to develop an online platform of the program.

See more information here.

Research Associate, International Program in Healthcare Policy

The Commonwealth Fund is a private foundation that aims to promote a high performing health care system that achieves better access, improved quality, and greater efficiency, particularly for society’s most vulnerable, including low-income people, the uninsured, minority Americans, young
children, and elderly adults. The Fund carries out this mandate by supporting independent research on health care issues and making grants to improve health care practice and policy. An international program in health policy is designed to stimulate innovative policies and practices in the United States and other industrialized countries. The Fund has an endowment of $750 million, and an annual budget of $35 million.

Reporting to the Vice President and Director of the International Health Policy Program (VP&D), the Research Associate works closely with the VP&D and the other program staff to provide research, writing and analytic support on an on-going basis.

For more information, click here.

Student Position with Center for Communication Program

The Center for Communication Programs (CCP) at Johns Hopkins Bloomberg School of Public Health has received funding to support USAID’s interagency Zika Response. As part of this funding, CCP through the Knowledge for Health (K4Health) Project is monitoring rumors and misinformation propagated via social media in USAID-Zika priority countries of Dominican Republic, El Salvador, Guatemala, and Honduras. We are taking a random sample of monthly social media posts from the four countries and coding them to analyze for rumors and misinformation with the ultimate goal of sharing with local stakeholders to inform their response to these rumors and misinformation.

The Zika Student Employee will be part of a team working on coding the social media posts on a weekly basis. As a result, the student employee must be fluent in Spanish, speaking and reading, be familiar with Facebook/Twitter, and ideally have experience in content analysis and with coding software. The student will work closely with the PI to be trained on the code scheme and also to help write up the analysis.

The position is open to PHS undergraduates, IH, HBS, PFH graduates, and Masters of Arts in Communication students, which will begin September 5, 2017 through April 27, 2018, with an opportunity to extend.

Qualifications

- Fluency in Spanish
- Undergraduate degree completed in public relations, communications, public health or related field
- Working toward graduate degree in communications, journalism, or public health
- Possesses excellent written and oral communication and interpersonal skills
- Previous experience with mass media/social media content analysis, strongly preferred
- Ability to work well independently, and within a team
- Familiarity with available tools and platforms in the social media space, nice to have
- Commitment to organization’s mission and global health
- Previous experience working in a Latin American country preferred

### Fellowships and Grants

#### Medical Missionaries Global Health Fellowship

The Medical Missionaries Global Health Fellowship offers two recent college graduates, graduate students, or professionals interested in global health the opportunity to gain experience in health care delivery in Haiti. Fellows will spend one year in Thomassique, Haiti, working at St. Joseph’s Clinic, where they act as liaisons between Medical Missionaries (www.medmissionaries.org) — the US-based organization that built and provides funding for the Clinic — and the Clinic’s all-Haitian staff. The Fellowship begins in June 2018 and ends in June 2019.

The application form can be found [here](http://medmissionaries.org/). To find out more information about Medical Missionaries or the application process please visit [http://medmissionaries.org/](http://medmissionaries.org/) or email us at mmghfellows@gmail.com.

### Public Health Resource Guide

Please see the PHS website (Contact tab) or click [here](http://krieger.jhu.edu/publichealth/resources/) to use the online Advisor Scheduling System.

* Please note – system does not work with Chrome or Safari browsers or mobile devices

### PHS Weekly Submission Process

Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to PHStudies@jhu.edu by 5pm every Monday.

**For announcements** or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

**For any position opening**, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.

### PHS Office Directory
