Information Sessions and Career Fairs

Video Available for BA/MHS Info Session

Want to know more about the BA/MPH opportunities but couldn't attend the info session last month? Recordings of the first half and second half of the event are now available online!

Holistic Health Fair

Come meet us for this free gathering every Sunday at noon, at the BiomedRx Health Center. Every Sunday there will be vendors representing various holistic health products and therapies. Invite your friends! There will be tours of the BiomedRx Health Center, and presentations on such therapies as neurofeedback and biomagnetic pair therapy.

Located at the corner of Mountain Ave. and Foothill Blvd. in Upland.

Click here for more information
A panel and table discussions between the Baltimore and Hopkins community on how the partnership between the two can benefit Hopkins students & Baltimore youth.

Panelists:

- Will Wisner Carlson: Baltimore Scholar alumni, APO
- Maggie Weese - works at the Center for Social Concern
- Lance McCoy - Baltimore scholar alumni
- Aaron Chang - CEO of Renalert
- Charlotte James - works for Code in Schools in Baltimore

If you would like to attend, please register on Eventbrite at https://www.eventbrite.com/e/community-conversations-student-and-alumni-perspectives-tickets-40718475055

Sponsored by the Johns Hopkins Urban Health Institute, Center for Social Concern, and the Johns Hopkins University Social Justice Collective, and the Baltimore Scholars Program. For additional information contact: Chijioke Oranye, chijiokeoranye@yahoo.com or Dr. Phil Leaf pleaf@jhu.edu or 443 287-3009
Rap Sessions in Africana Studies

The third and final Rap Session in Africana Studies for the fall semester will take place on November 30th, 2017 at the Center for Diversity and Inclusion, OMA Lounge. The session will feature a presentation by Anne-Marie Livingstone, PhD Candidate in Sociology, who will share findings from a participatory study on racial profiling in policing in Montreal, Quebec. The study was a collaborative effort involving fellow academics and a team of five young people from a neighborhood of the city targeted by the province’s controversial action plan against “street gangs.”

Summer Institute in Bioethics at Yale University

Yale’s Interdisciplinary Center for Bioethics offers an intensive and international summer institute in bioethics in New Haven, Ct, open to graduate students, professionals, and select undergraduates. The program features a series of morning lectures surveying the field of bioethics and over twenty-five small, intensive seminars on topics such as neuroethics, end-of-life care, law, and more. Select students will be invited to “Fast Track,” a close mentoring experience to help students develop and publish submissions to bioethics journals.

The full program runs from June 1 to July 21, 2018. Applications are encouraged by January 15th. Tuition is $1875 for undergraduates, and $2275 for graduate students.

For more information, see bioethics.yale.edu/summer or contact lori.bruce@yale.edu.
Genetic Ability, Wealth and Financial Decision-Making

Kevin Thom
Department of Economics
New York University

As part of Johns Hopkins University’s Department of Economics Applied Micro seminar series Kevin Thom will present a paper co-authored by Danny Barth, Center for Economic and Social Research at the University of Southern California, and Broadus Mitchell Assistant Professor of Economics and Hopkins Population Center Associate Nicholas W. Papageorge. The paper uses recent advances in behavioral genetics to link specific genetic markers related to educational attainment to wealth, financial decision-making, subjective expectations and planning horizons.

3:30-5:00pm
Wednesday November 29th
JHU Homewood Wyman Park Building Room 603
Co-sponsored by Hopkins Population Center
Global Brigades is hosting a medical/public health brigade to Honduras in January of 2018. This next brigade will be a hybrid medical/dental/public health brigade that will improve the overall health of a rural community. Members will run a medical clinic, while partnering with local health care professionals. This will also count as an Applied Experience. The brigade will run from January 16th, 2017 to January 24th, 2017.
“Calm” App – Free Subscription

Meet Calm. Discover your stress-free self. Calm includes meditation and breathing exercises, sleep stories, and relaxing nature sounds. There is also content specifically designed for college students. The JHU community can try the Calm app for free this year. Unlock your subscription [here](#).

Counseling Center Wellness Programs

The Counseling Center offers a variety of programs and workshops focused on developing skills or exploring topics that help students to Be Well, Do Well, and Live Well. All workshops are offered free of charge to Homewood and Peabody undergraduate and graduate students.

Unpaid Internships and Service

Medical/Public Health Brigade to Honduras

Join Global Brigades from January 16th-24th 2018 in Honduras. This next brigade will be a hybrid medical/dental/public health brigade that will improve the overall health of a rural community. This counts as an Applied Experience. For more information, click [here](#).

Community Impact Internships Program

Join other Hopkins students this summer in Baltimore working alongside community members to make a difference. The CIIP is a paid summer internship program that selects 50 JHU undergraduate students to be paired with nonprofit organizations, community organizations, and government agencies throughout Baltimore City, and offers an intensive, cohort-based learning environment. Internships focus on community-identified projects and are selected for each student based on their skills and interests, providing a unique and individualized experience. In addition to
interning in the community, the program includes an extensive orientation program and weekly reflection sessions with presentations to familiarize interns with Baltimore’s past and present.

Interns will work 35 hours a week for 8 weeks and earn a $4000 salary. The dates for this year’s program are June 4th – August 4th, 2018. CIIP is available to current JHU Freshman through Juniors.

The application for the 2018 Community Impact Internships Program (CIIP) is available at http://studentaffairs.jhu.edu/socialconcern/programs/ciip/interns/. The deadline is on December 22nd.

Survey Research Assistant (Intern) at Immune Deficiency Foundation

The Immune Deficiency Foundation is a non-profit organization that is dedicated to improving the diagnosis, treatment, and quality of life for Primary Immunodeficiency diseases. The IDF is searching for a Survey Research Assistant who will work with the Survey Research Analyst on a project about body temperature in patients with primary immunodeficiency. Your responsibilities will be collaborating with the IDF Communications Department to create a promotional plan for the study; communicating with the study participants before, and after the study; and inputting the study data into applicable databases. The time commitment would be about 25-35 hours per week.

For more information and any questions, please contact ewatson@primaryimmune.org or volunteer@primaryimmune.org.

Public Policy Assistant (Intern) at Immune Deficiency Foundation

The Immune Deficiency Foundation is a non-profit organization that is dedicated to improving the diagnosis, treatment, and quality of life for Primary Immunodeficiency diseases. The IDF is searching for a Public Policy Assistant who will work with the Public Policy Department to address immunodeficiency healthcare access issues. Your responsibilities will be to track policy and advocacy issues on both the state and federal levels, assist with Advocacy Day preparations, and participate in 2018 Advocacy Day in DC. This is a great opportunity for anyone who wished to gain experience working on advocacy campaigns and public policy initiatives. The time commitment would be about 15-20 hours per week.

For more information and any questions, please contact ewatson@primaryimmune.org.

Research for Credit Opportunity in the Epidemiology Research Group in Organ Transplantation

The Epidemiology Research Group in Organ Transplantation, a transplant epidemiology lab in the Department of Surgery at Johns Hopkins School of Medicine, is seeking motivated undergraduate students for a part-time research trainee position. Students will be working on the ENGAGE Study, a study aiming to expand live donor kidney transplantation through advocacy training and social media for patients on the kidney transplant waitlist. Responsibilities include recruiting and interviewing patients, abstracting medical records, and instructing patients during our Live Donor Champion and Donor App Programs. We ask for at least a one-year commitment and prefer students who are willing and able to work in the summer.
If interested, please send a brief statement of interest, resume, and unofficial transcript to Jonathan Konel, Research Assistant, Department of Surgery, Division of Transplant Surgery at JMKonel@jhu.edu.

CDSE Research Assistant

The Center for Drug Safety and Effectiveness is looking for a research assistant to provide research and administrative support to a multidisciplinary team of clinicians and researchers. The investigations use a variety of public and proprietary data sources including administrative data such as health plan claims, audits of ambulatory-based care, electronic health information and longitudinal patient surveys. The investigations vary in their regulatory or clinical focus, although all are designed to be maximally relevant to improving the quality and safety of medication use in the United States. The student will have the opportunity to participate in multiple facets of the research from development of research aims to the preparation of final reports.

The time commitment is approximately 10-15 hours weekly during the school year and up to 40 hours per week during the summer. Students should be interested in epidemiology, pharmacology, or related field.

For more information and any questions please contact jheywar1@jhu.edu.

Fellowships and Grants

Digital DaVinci Award

The Digital Da Vinci annual award presented by the Johns Hopkins University Digital Media Center is named for Leonardo Da Vinci, painter, sculptor, inventor, engineer renowned for his creativity and originality in art, science and technology. What ideas do you have to lead us into a new era? Is your idea Leonardo-worthy? The DMC has money available for creative projects! What tools, materials, and mentoring would it take to get your idea off the napkin and into the real world?

Applications encouraged from full-time students in the JHU Schools of Arts & Sciences or Engineering, student clubs or organizations based on Homewood campus, and staff, faculty, and graduate instructors who are piloting a creative technology project that students will complete for class on the Homewood campus.

Applications for The Digital Da Vinci Award (formerly called the Creative Use of Technology Grant) are due on November 19, 2017 at midnight via email to digitalmedia@jhu.edu. For more information please see attached fact sheet or our web site http://bit.ly/digitaldavinciaward.

Meg Walsh Award

Meg Walsh, BA ’84, was a dedicated alumna, passionate explorer of the world, and, as treasurer and vice president of Lucent Technologies, a true leader in the global community. This award provides a graduating senior form the Krieger School of Arts and Sciences with $32,000 to undertake an independent project of his or her own unique design involving international travel. The award affords the opportunity for a promising Hopkins graduate to focus on an independent project that
explores the student’s own interests and abilities, test his or her knowledge and assumptions in a broader international context, and develop leadership skills. Projects may be in any area, including public service, creative or artistic, research, and more.

For more information and the application materials, please visit http://sites.krieger.jhu.edu/sds/for-students-2/meg-walsh-award/.

**Preventing Chronic Diseases Research Paper Submission to CDC**

Preventing Chronic Disease (PCD) at the Center for Disease Control is looking for students at high school, undergraduate, or graduate level and recent post-graduates to submit papers relevant to the prevention, screening, surveillance, or population-based intervention of chronic diseases, including but not limited to arthritis, asthma, cancer, depression, diabetes, obesity, and cardiovascular disease.

The primary goals of the concert is to provide applicants with an opportunity to gain knowledge and skills on the publication process and to promote mutually beneficial student-mentor relationships to strengthen the student’s ability to generate future scholarly manuscripts.

Manuscripts must be received electronically no later than 5:00 PM EST on Friday, February 23, 2018. Additional information and detailed submission guidelines are available on the PCD website at https://www.cdc.gov/pcd/announcements.htm.

---

**The Horizons Technology Fellowship**

The Horizons Fellowship supports 200 outstanding university students in their pursuit to become leaders in technology. Our program provides immersive software engineering and web/mobile development courses geared towards high-achieving college students. Students need not have a computer science background! Horizon students have gone on to receive offers from firms such as Google, Slack, Yelp, Amazon, Visa, J.P. Morgan and more.

More information and the application on the website [here](#).

**Public Health Resource Guide**

[http://krieger.jhu.edu/publichealth/resources/](http://krieger.jhu.edu/publichealth/resources/)

Please see the PHS website (Contact tab) or click [here](#) to use the online Advisor Scheduling System.

* Please note – system does not work with Chrome or Safari browsers or mobile devices.
Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to PHStudies@jhu.edu by 5pm every Monday.

For announcements or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any position opening, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.
