Information Sessions and Career Fairs

Video Available for BA/MHS Info Session

Want to know more about the BA/MPH opportunities but couldn’t attend the info session last month? Recordings of the first half and second half of the event are now available online!

Holistic Health Fair

Come meet us for this free gathering every Sunday at noon, at the BiomedRx Health Center. Every Sunday there will be vendors representing various holistic health products and therapies. Invite your friends! There will be tours of the BiomedRx Health Center, and presentations on such therapies as neurofeedback and biomagnetic pair therapy.

Located at the corner of Mountain Ave. and Foothill Blvd. in Upland.

Conferences and Talks

Summer Institute in Bioethics at Yale University
Yale’s Interdisciplinary Center for Bioethics offers an intensive and international summer institute in bioethics in New Haven, Ct, open to graduate students, professionals, and select undergraduates. The program features a series of morning lectures surveying the field of bioethics and over twenty-five small, intensive seminars on topics such as neuroethics, end-of-life care, law, and more. Select students will be invited to “Fast Track,” a close mentoring experience to help students develop and publish submissions to bioethics journals.

The full program runs from June 1 to July 21, 2018. Applications are encouraged by January 15th. Tuition is $1875 for undergraduates, and $2275 for graduate students.

For more information, see bioethics.yale.edu/summer or contact lori.bruce@yale.edu.

---

**Student Activities and Events**

**Join the Green Jobs Team**

Are you a Freshman that cares about the environment? Apply to be a member of the Green Jobs Team and help organize the 6th Annual JHU Green Jobs Panel & Networking Session!

The Green Jobs Panel and Networking Session began in 2011 with the goal of increasing awareness of sustainable careers in the Johns Hopkins University community, Baltimore City, and beyond. We believe that students are in a great position to make the world a more sustainable place once they enter the workforce, and that students should have the opportunity to acquire the skills and connections they need to achieve this objective.

We are excited to add a new member to our team! Applications are due January 10th. Apply [here](#) and if you would like to learn more about our organization, please visit our [website](#).

If you have any questions, please contact Christine Adib at cadib1@jhu.edu.
2018 3rd Term Course

Health and Homelessness:
Linking research to practice and policy
JSPH 410.610
4 Saturdays, 3 credits
Open to students from JHU, JHSPH, SOM, SON

Classes will be held:
January 27 & February 10: 9:30am – 4:30pm
February 24 & March 10: 9:30am – 1:00pm
615 N. Wolfe St., Room W3030

Presenters include:
Baltimore Office of Homeless Service, Health Care for the Homeless, the Public Justice Center, Behavioral Health System Baltimore, the Youth Empowered Society (YES Center), panels of women and men experiencing homelessness, and others.

Students will also participate in a 12-hour community-based practicum in a location of their choice.

This course is interactive, engaging, and offers students a unique perspective into homelessness in Baltimore along with the opportunity to get involved beyond the classroom.

For more information, please contact instructor Lee Bone, MPH, BSN at lbone@jhsph.edu or the course TAs: Tuo-Yen Tseng (tttseng8@jhu.edu) and Abigail Winiker (awiniker@jhu.edu)
The holiday season is one of joy, laughter, hope, and giving. As you consider ways to help the less fortunate, consider donating money or goods to those in need in Puerto Rico!

Puerto Rico Rising is part of a grassroots movement that has taken the task to help Puerto Rico during its disaster and recovery phases after Hurricane María. In Maryland, they will be focusing their efforts in the long-term projects that will improve public health, quality of life and infrastructure. Their team includes physicians, public health practitioners, engineers and other professionals volunteering their time and talents. Specific projects include developing communication technologies that do not require internet access, linking medical and grassroots organizations in Puerto Rico to communities in need, and providing sustainable ways for community capacity building.

On this last initiative, they have partnered with Sector Maná, a local community in Barranquitas in the path of the eye of the hurricane. They are collaborating with community leaders and have conducted a preliminary needs assessment to help the community from within. Their first capacity building event will take place January 5th, the eve of Three Kings Day. During this event, they will deliver supplies, health education, mental health services, a medical clinic, warm food, holiday gifts for children, and being identifying long-term projects alongside members of the community.

To embark on this initiative, they have created an Amazon Wish List of articles that have been identified by local community leaders as necessary to assist with immediate issues: lack of power and running water; water-borne illnesses; mosquito-borne illnesses; lack of shade/exposure to excess sunlight; houses without roofs; acute illnesses; poor hygiene; and feeding children and the elderly. The list reflects items to assist in meeting these needs, and can be found here: https://tinyurl.com/y8eja27b. At checkout, select the delivery address “Yonaira Rivera's Gift Registry.” All donations will be delivered in-person January 5th and thereon out, as they work in efforts to rebuild.

They will also be collecting monetary donations to help in rebuilding houses, purchasing propane gas tanks for portable stovetops, and providing communication technologies to help with lack of internet access. For those wanting to donate money, you can visit their Go Fund Me page: www.gofundme.com/puerto-rico-rising-maryland

Puerto Rico will take a long time to rebuild, but if we start small and scale up, anything is possible. Thank you for your assistance during this time.
Counseling Center Wellness Programs

The Counseling Center offers a variety of programs and workshops focused on developing skills or exploring topics that help students to Be Well, Do Well, and Live Well. All workshops are offered free of charge to Homewood and Peabody undergraduate and graduate students.

Unpaid Internships and Service

**DEADLINE EXTENDED! Internship Opportunity in India!**

**Transformative Technology for Zero TB in Tibetan Kids Internship**

The Johns Hopkins Center for Tuberculosis Research has been awarded a planning grant for their project called: Transformative Technology for Zero TB in Tibetan Kids. Undergraduate students are being recruited to help develop educational and social media content, a communication strategy, and possibly begin work on video training elements to build capacity in Dharamsala, India.

Please see more details on requirements and how to apply [here](#). All applications due **December 27th**.

---

**Crisis Prevention and Intervention Internships**

EveryMind is a leading mental health resource in the DC region offering direct services, information, and referrals for EVERYONE. From school age children to older adults, services include mental health counseling, intensive case management, as well as crisis prevention and intervention.

Internships are one of the many ways in which EveryMind is helping to build the next generation of mental health service providers. Internships are available for a semester or the entire school year. All internships are unpaid, but may be eligible for school credit. Weekly supervision is provided to interns.

**Potential Internship Activities:**

- Program accredited by the American Association of Suicidology and Contact USA
- Providing supportive listening, information and resource referrals, and crisis intervention (including suicide assessments) for individuals through telephone, text, and chat services
- Partnering with Montgomery County Public Schools (MCPS) to administer “Red Flags,” a depression and suicide awareness program serving MCPS middle and high school students and communities
- Participating in mental health fairs, expos, and community events
- Designing and implementing outreach and recruiting initiatives
- Providing mental health presentations throughout the community
- Participating in the BTheOne Public Awareness Campaign to spread important messages about preventing suicide and drug abuse
- Project collaboration with ServingTogether to support phone intakes, assessments, and referrals for veterans and military family members seeking a range of services.
- Supporting agency initiatives to promote overall mental wellness in the community

To apply for an EveryMind internship, submit a completed application to Pamela Lee at intern@Every-Mind.org or via fax at 301.738.1030. Please submit your resume and personal statement (indicating your choice of internship placement) with the application.

**Summer “Serve and Learn” Volunteer Program for Ghana Health and Education Initiative**

The Ghana Health and Education Initiative Summer “Serve and Learn” volunteer program offers participants the chance to work in a rural Ghanaian community alongside local staff members in support of a community organization’s health and education programs.

To apply or obtain more information, please click [here](#) or contact Elena Szakewski at communications@ghei.org.

---

**Medical/Public Health Brigade to Honduras**

Join Global Brigades from January 16th-24th 2018 in Honduras. This next brigade will be a hybrid medical/dental/public health brigade that will improve the overall health of a rural community. This counts as an Applied Experience. For more information, click [here](#).

---

**Community Impact Internships Program**

Join other Hopkins students this summer in Baltimore working alongside community members to make a difference. The CIIP is a paid summer internship program that selects 50 JHU undergraduate students to be paired with nonprofit organizations, community organizations, and government agencies throughout Baltimore City, and offers an intensive, cohort-based learning environment. Internships focus on community-identified projects and are selected for each student based on their skills and interests, providing a unique and individualized experience. In addition to interning in the community, the program includes an extensive orientation program and weekly reflection sessions with presentations to familiarize interns with Baltimore’s past and present.

Interns will work 35 hours a week for 8 weeks and earn a $4000 salary. The dates for this year’s program are June 4th – August 4th, 2018. CIIP is available to current JHU Freshman through Juniors.
The application for the 2018 Community Impact Internships Program (CIIP) is available at [http://studentaffairs.jhu.edu/socialconcern/programs/ciip/interns/](http://studentaffairs.jhu.edu/socialconcern/programs/ciip/interns/). The deadline is on December 22nd.

**Survey Research Assistant (Intern) at Immune Deficiency Foundation**

The Immune Deficiency Foundation is a non-profit organization that is dedicated to improving the diagnosis, treatment, and quality of life for Primary Immunodeficiency diseases. The IDF is searching for a Survey Research Assistant who will work with the Survey Research Analyst on a project about body temperature in patients with primary immunodeficiency. Your responsibilities will be collaborating with the IDF Communications Department to create a promotional plan for the study; communicating with the study participants before, and after the study; and inputting the study data into applicable databases. The time commitment would be about 25-35 hours per week.

For more information and any questions, please contact ewatson@primaryimmune.org or volunteer@primaryimmune.org.

**Public Policy Assistant (Intern) at Immune Deficiency Foundation**

The Immune Deficiency Foundation is a non-profit organization that is dedicated to improving the diagnosis, treatment, and quality of life for Primary Immunodeficiency diseases. The IDF is searching for a Public Policy Assistant who will work with the Public Policy Department to address immunodeficiency healthcare access issues. Your responsibilities will be to track policy and advocacy issues on both the state and federal levels, assist with Advocacy Day preparations, and participate in 2018 Advocacy Day in DC. This is a great opportunity for anyone who wished to gain experience working on advocacy campaigns and public policy initiatives. The time commitment would be about 15-20 hours per week.

For more information and any questions, please contact ewatson@primaryimmune.org.

**Research for Credit Opportunity in the Epidemiology Research Group in Organ Transplantation**

The Epidemiology Research Group in Organ Transplantation, a transplant epidemiology lab in the Department of Surgery at Johns Hopkins School of Medicine, is seeking motivated undergraduate students for a part-time research trainee position. Students will be working on the ENGAGE Study, a study aiming to expand live donor kidney transplantation through advocacy training and social media for patients on the kidney transplant waitlist. Responsibilities include recruiting and interviewing patients, abstracting medical records, and instructing patients during our Live Donor Champion and Donor App Programs. We ask for at least a one-year commitment and prefer students who are willing and able to work in the summer.

If interested, please send a brief statement of interest, resume, and unofficial transcript to Jonathan Konel, Research Assistant, Department of Surgery, Division of Transplant Surgery at JMKonel@jhu.edu.

**Research Opportunity on Alcohol Misuse**
This research is focused on a systematic review and meta-analysis of randomized controlled trials of psychosocial and pharmacological interventions aimed at reducing alcohol misuse in low- and middle-income countries, which has been registered with the Cochrane Drug and Alcohol Group. Students will assist in screening, data extraction and other aspects of the systematic review/meta-analysis.

For more information and any questions, please contact mgree116@jhu.edu.
2018
Academy for Research, Clinical, and Health Equity Scholarship (ARCHES)

Six-week program for eight undergraduate students who are rising juniors and rising seniors interested in pursuing medical studies. This program will engage selected participants in clinical experience, guided research, and immersive service at Georgetown University.

ARCHES Offers:

- Shadowing
- Research
- Clinical Rotations
- Community Service

Program Dates & Benefits

Program Dates: July 27 - August 11, 2018

Stipend: $4,000. ($2,000 paid after the first 3 weeks, and final $2,000 paid at the end of the 6 weeks)

Travel: Up to $250 per student on a case-by-case basis by the Georgetown Office of Diversity & Inclusion

Housing: Housing provided on Georgetown campus June 27 - August 11, suite-style occupancy rooms

Meals/Food: Students are responsible for their own meals/food cost (except for program event meals provided by ARCHES).

APPLY BY February 5th, 2018 at som.georgetown.edu/guarches

Kimberly.Walker@georgetown.edu
(202) 687-7320
**Full-Time Research Assistant in Key Populations Program**

The Bloomberg School of Public Health’s Department of Epidemiology is hiring a full time research assistant to work in the Key Populations Program. The position would be a great match for candidates with a Bachelor’s degree, who have been involved in or have strong commitment to public health research, are interested in working on issues related to stigmatized populations, and who have strong attention to detail. The program focuses on the health and rights of stigmatized populations around the globe. A full job description and application can be found [here](#).

Location: East Baltimore Campus  
Minimum qualifications: Bachelor’s Degree

---

**Michigan Future Public Health Leaders Program (FPHLP)**

Applications are now open for the Michigan Future Public Health Leaders Program (FPHLP)!

FPHLP is a 10-week summer residential program here at U-M SPH for underrepresented college students and recent grads who are looking for a meaningful introduction to public health. It is a cooperative agreement with the Centers for Disease Control and Prevention (CDC) Office of Minority Health and Health Equity (OMHHE) to address the shortage of diversity in the public health workforce. No public health experience is required. To learn more and apply, click [here](#)!
The Center for Value-Based Insurance Design at the University of Michigan is searching for undergraduate students from around the country. They are offering an opportunity to integrate students into the vast, fast-paced world of public health policy. Upon joining the multidisciplinary team, interns will participate in hands-on, collaborative experiences as they gain a better understanding of various facets of health care policy. Throughout the summer, each intern and their unique contributions will become an integral asset to the center’s work.

Applications will be accepted through February 15, 2018. If interested, please forward a cover letter and resume to vbidcenter@umich.edu.

For more information or to speak with alumni of the V-BID summer internship program, please contact the V-BID Center Program Manager, Susan Lynne Oesterle, vbidcenter@umich.edu.

Amgen Scholars Program at Massachusetts Institute of Technology

MIT has an opportunity for undergraduate students to engage in research through the 2018 Amgen Scholars Program. This opportunity will be a faculty-mentored summer research program in science and biotechnology areas. Students will participate in full-time research, attend seminars and workshops, present their research, network with other undergraduates with similar research interests and attend a mid-summer symposium at UCLA. Admitted students will receive a $4500 stipend, receive on-campus housing, a food allowance, and visiting scholars will be provided to and from Boston.

The deadline for the application is February 1, 2018.

More information about the program and eligibility here. The application here.

Resource Development Opportunity in Center for Communication Programs Student Position

The ICP/I project seeks to contract a Masters or PhD-level student to support the development of package of resources to support improved interpersonal communication for immunization among frontline health workers globally. Undergraduates with professional experience are also welcome to apply. The scope of work includes materials development, documentation, and technical support for the production of project deliverables. Start date: January 2018, end date: June 2018. Undergraduate pay rate: $13/hour

Qualifications include:

- Master or PhD-level candidate, or undergraduates with 3+ year professional experience
- Relevant expertise designing and producing print materials, especially for health, development or social issues
- Prior experience designing and developing communications products for a regional or global audience
- Prior experience integrating health messaging or behavior change into communications products
- Experiencing designing or developing training materials for low-literacy audiences
- Some knowledge of RMNCH topics
Design Opportunity in Center for Communication Programs

The IP/I project seeks to contract a student to support the development of a package of resources to support improved interpersonal communication for immunization among frontline health workers globally. The scope of work includes graphic design, layout, and design. Start date: February 2018, end date: June 2018. Undergraduate pay rate: $13/hour.

Qualifications include:

- At least one year of professional experience
- Relevant expertise designing and producing print materials, especially for health, development or social issues.
- Prior experience designing and developing communications products for a regional or global audience, preferred
- Experienced designing or developing training materials for low-literacy audiences, preferred
- Able to attend meetings with US-based project team and consultants
- Demonstrated ability to pay attention to detail and deliver high quality products
- Proactive and responsive with willingness and eagerness to iterate and ensure the product is responsive to client’s needs and audience preferences

If interested, send your resume to Jvani Cabiness jcabine1@jhu.edu and Claudia Ilbert claudia.ilbert@jhu.edu

Part-time Undergraduate Research Trainee for Epidemiology Research Group

The Epidemiology Research Group in Organ Transplantation is seeking motivated undergraduate students for part-time research trainee positions. If interested, please send a brief statement of interest, resume, and unofficial transcript to Jonathan Konel, Department of Surgery, Division of Transplant Surgery at JMKonel@jhu.edu.

Community Impact Partnership Program

The Community Impact Partnership Program is a competitive, paid summer internship program that selects 50 JHU undergraduate students to be paired with nonprofit organizations, community organizations, and government agencies throughout Baltimore City. The application deadline is December 22nd. For more information, click here.
Research Program Assistant at Center on Aging and Health (Gap-Year Opportunity)

Dr. Frank Lin, of the School of Medicine and the Bloomberg School of Public Health, is looking for a research program assistant for a community-based clinical trial of an affordable and accessible hearing loss intervention for older adults. As the research program assistant you will be responsible for data collection from older adults who are living independently in senior living residential buildings throughout Baltimore City. Ideally this position would be a 1-2 year commitment. This opportunity is an ideal 2 year gap year position before medical or graduate school. Familiarity with prospective clinical studies or trials, research protocols, and IRB procedures is required.

More information and the job application [here](#).

For any questions, please contact Dr. Lin at flin1@jhmi.edu or his office number: 410-502-0150.

---

CDSE Research Assistant

The Center for Drug Safety and Effectiveness is looking for a research assistant to provide research and administrative support to a multidisciplinary team of clinicians and researchers. The investigations use a variety of public and proprietary data sources including administrative data such as health plan claims, audits of ambulatory-based care, electronic health information and longitudinal patient surveys. The investigations vary in their regulatory or clinical focus, although all are designed to be maximally relevant to improving the quality and safety of medication use in the United States. The student will have the opportunity to participate in multiple facets of the research from development of research aims to the preparation of final reports.

The time commitment is approximately 10-15 hours weekly during the school year and up to 40 hours per week during the summer. Students should be interested in epidemiology, pharmacology, or related field.

For more information and any questions please contact jheywar1@jhu.edu.

---

Summer Training and Research (STAR) Opportunity

STAR offers Johns Hopkins University undergraduate students $4000 to help offset the expense of staying at JHU over the summer to start or continue work with a Hopkins faculty member or lab in any division, department or program at Johns Hopkins. This is not for students working internships outside of the JHU community.

The STAR session runs for 10 weeks over the summer from June to mid August (June 4, 2018 – August 10, 2018). Students are expected to arrange and pay for their own summer housing.
STAR encourages applications from students from under-served backgrounds (e.g., first generation students, low-income backgrounds), students who are underrepresented in STEM fields, and/or those who may not have previously had an opportunity for a research experience. STAR will also offer participants professional development opportunities throughout the summer and continuing through the academic year. STAR participants will be required to present a poster at the annual Hopkins CARES Symposium and Poster Session. They will also have the opportunity to present their research at the annual DREAMS day held annually in April.

For more information and to apply, click here. Applications are open until February 23, 2018.

---

### Preventing Chronic Diseases Research Paper Submission to CDC

Preventing Chronic Disease (PCD) at the Center for Disease Control is looking for students at high school, undergraduate, or graduate level and recent post-graduates to submit papers relevant to the prevention, screening, surveillance, or population-based intervention of chronic diseases, including but not limited to arthritis, asthma, cancer, depression, diabetes, obesity, and cardiovascular disease. The primary goals of the concert is to provide applicants with an opportunity to gain knowledge and skills on the publication process and to promote mutually beneficial student-mentor relationships to strengthen the student’s ability to generate future scholarly manuscripts.

Manuscripts must be received electronically no later than 5:00 PM EST on Friday, February 23, 2018. Additional information and detailed submission guidelines are available on the PCD website at https://www.cdc.gov/pcd/announcements.htm.

---

### The Horizons Technology Fellowship

The Horizons Fellowship supports 200 outstanding university students in their pursuit to become leaders in technology. Our program provides immersive software engineering and web/mobile development courses geared towards high-achieving college students. Students need not have a computer science background! Horizon students have gone on to receive offers from firms such as Google, Slack, Yelp, Amazon, Visa, J.P. Morgan and more.

More information and the application on the website here.

Please see the PHS website (Contact tab) or click here to use the online Advisor Scheduling System.

* Please note – system does not work with Chrome or Safari browsers or mobile devices
PHS Weekly Submission Process

Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to PHStudies@jhu.edu by 5pm every Monday.

For announcements or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any position opening, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.
