WHEN: April 30, 2018
WHERE: Turner Auditorium, 720 Rutland Avenue, Baltimore, MD 21205

**Featured Speakers**

**Grace Hao** is a senior majoring in Materials Science & Engineering and has worked in the Searson lab at the Institute for NanoBioTechnology (INBT) for the past 3 1/2 years.

**Amy Zheng** is a senior studying Molecular & Cellular Biology and Medicine, Science, & the Humanities with a Spanish for the Professions minor. She is currently researching with the Cancer Disparities Center at the Johns Hopkins Sidney Kimmel Cancer Center.

**Kyu Sang Han** is a senior Chemical & Biomolecular Engineering major researching in the Wirtz lab at the Institute for NanoBioTechnology (INBT).

**Seminar 1: Cancer**
Monday, 2/05/18, 12-1pm
*Levering Great Hall*

Learn more at http://bit.ly/HOURSeminar
MORE INFO: For more information, please visit their website. Registration will be available soon.

Save the date for the annual Social Determinants of Health Symposium, a day-long event that brings together national experts, local community leaders, city residents, faculty and students from Baltimore colleges and universities to discuss and examine pressing topics that are related to the root causes of health.

### Student Activities and Events

**Calling all KSAS Departments, Programs, Centers and Institutes: Show us your work in photos!**

Submit up to three (3) original images of research/creative projects across the university. We are looking for photos from basic sciences, engineering, social sciences, public health, the humanities and creative arts. Two winners will be selected from each category: undergraduate submissions, graduate submissions, post-doc and research scientist positions, and faculty/staff positions.

- Grand Prize of $500 | Reserve Prize of $250 | All winners will be treated to lunch at Gertrude’s with Vice Provost for Research Denis Wirtz

Photos will be displayed in the new Research Development Team (RDT) Office and the Hopkins Office for Undergraduate Research (HOUR) Office as well as their websites and social media outlets.

**Deadline to submit, Wednesday, February 7 at [https://research.jhu.edu/photocontest](https://research.jhu.edu/photocontest)**

### Counseling Center Wellness Programs

The Counseling Center offers a variety of programs and workshops focused on developing skills or exploring topics that help students to Be Well, Do Well, and Live Well. All workshops are offered free of charge to Homewood and Peabody undergraduate and graduate students.

Click [here](https://research.jhu.edu/photocontest) to learn more and sign up.

### Unpaid Internships and Service

**Undergraduate Diversity Summer Program in Epidemiology and Biostatistics**

The deadline has been extended to February 8th at 11:55pm for the Harvard Undergraduate Diversity Summer Program in Epidemiology and Biostatistics.

Students can apply [here](https://research.jhu.edu/photocontest). Questions about the application can be directed to [harvardepisummer@hsph.harvard.edu](mailto:harvardepisummer@hsph.harvard.edu)

### Fund for Global Health
Fund for Global Health is looking for undergraduate students with interests in global public health and advocacy! The mission of the Fund for Global Health is to provide the maximum possible health benefit to vulnerable people in developing countries. One of the best ways to accomplish this is by advocating for increased U.S. funding for effective global health programs. This year, they are focused on increasing U.S. foreign aid for addressing tuberculosis, maternal & child health, and universal immunization.

To apply, please submit a resume, a 1-2 page writing sample and a brief statement of interest to the Director of Advocacy, Keith Johnson, at k.johnson@fundforglobalhealth.org. Minimum 4-month commitment required; 12 months is preferred.

---

**Medicare Payment Advisory Commission (MedPAC) Research Assistant Position**

The Medicare Payment Advisory Commission (MedPAC) seeks research assistant candidates who are committed to producing high-quality work in an intellectually challenging environment. MedPAC is interested in candidates who would be available to start work in the Summer of 2018 and commit to the position for two years. MedPAC is a small, nonpartisan federal government agency that advises the U.S. Congress on the Medicare program. MedPAC staff evaluate Medicare policies and payment systems, develop policy options for consideration by the Commission, and present their work in regular public meetings. MedPAC publishes its recommendations and supporting analyses in two annual reports and other periodic reports as mandated by Congress. In addition, staff prepare analyses of proposed regulations, write issue briefs, and contribute to the preparation of Congressional testimony.

Research assistants must be able to work as part of a team and independently take on assigned tasks to fulfill the Commission’s mandate. We particularly value candidates with written and oral communication skills, because research assistants are asked to write policy briefs and present findings in public. Depending on need, research assistants perform a variety of tasks including data collection, data programming (using SAS software), literature reviews, interviewing, and coordination of travel for site visits.

For more information, click [here](#).

---

**Crisis Prevention and Intervention Internships**

EveryMind is a leading mental health resource in the DC region offering direct services, information, and referrals for EVERYONE. From school age children to older adults, services include mental health counseling, intensive case management, as well as crisis prevention and intervention. Internships are one of the many ways in which EveryMind is helping to build the next generation of mental health service providers. Internships are available for a semester or the entire school year. All internships are unpaid, but may be eligible for school credit. Weekly supervision is provided to interns.

Potential activities interns participate in include: providing supportive listening, information and resources referrals for individuals through telephone, text, and chat services; designing and implementing outreach and recruiting initiatives; providing mental health presentations throughout
the community; and participating in the BTheOne Public Awareness Campaign to spread important messages about preventing suicide and drug abuse.

To apply for an EveryMind internship, submit a completed application to Pamela Lee at intern@Every-Mind.org or via fax at 301.738.1030. Please submit your resume and personal statement, indicating your choice of internship and placement, with the application.

---

**Survey Research Assistant (Intern) at Immune Deficiency Foundation**

The Immune Deficiency Foundation is a non-profit organization that is dedicated to improving the diagnosis, treatment, and quality of life for Primary Immunodeficiency diseases. The IDF is searching for a Survey Research Assistant who will work with the Survey Research Analyst on a project about body temperature in patients with primary immunodeficiency. Your responsibilities will be collaborating with the IDF Communications Department to create a promotional plan for the study; communicating with the study participants before, and after the study; and inputting the study data into applicable databases. The time commitment would be about 25-35 hours per week.

For more information and any questions, please contact ewatson@primaryimmune.org or volunteer@primaryimmune.org.

---

**Public Policy Assistant (Intern) at Immune Deficiency Foundation**

The Immune Deficiency Foundation is a non-profit organization that is dedicated to improving the diagnosis, treatment, and quality of life for Primary Immunodeficiency diseases. The IDF is searching for a Public Policy Assistant who will work with the Public Policy Department to address immunodeficiency healthcare access issues. Your responsibilities will be to track policy and advocacy issues on both the state and federal levels, assist with Advocacy Day preparations, and participate in 2018 Advocacy Day in DC. This is a great opportunity for anyone who wished to gain experience working on advocacy campaigns and public policy initiatives. The time commitment would be about 15-20 hours per week.

For more information and any questions, please contact ewatson@primaryimmune.org.

---

**Undergraduate Scholarship Program at NIH**

The National Institutes of Health (NIH) Undergraduate Scholarship Program (UGSP) offers competitive scholarships to students from disadvantaged backgrounds who are committed to careers in biomedical, behavioral, and social science health-related research. The program offers: Scholarship support, paid research training at the NIH during the summer, and paid employment and training at the NIH after graduation.
The NIH UGSP will pay up to $20,000 per academic year in tuition, educational expenses, and reasonable living expenses to scholarship recipients. Scholarships are awarded for 1 year, and can be renewed up to 4 years.

More information and the application [here](#). The application is due March 15, 2018.

### Summer Internship Program at NIH

Summer programs at the National Institutes of Health (NIH) provide an opportunity to spend a summer working at the NIH side-by-side with some of the leading scientists in the world, in an environment devoted exclusively to biomedical research (At the NIH "biomedical sciences" includes everything from behavioral and social sciences, through biology and chemistry, to physics, mathematical modeling, computational biology, and biostatistics).

Internships cover a minimum of eight weeks, with students generally arriving at the NIH in May or June. The NIH Institutes and the Office of Intramural Training & Education sponsor a wide range of summer activities including lectures featuring distinguished NIH investigators, career/professional development workshops, and Summer Poster Day.

Prospective candidates must apply [here](#). The program is open to undergraduate and graduate students. The application is available until March 1, 2018. It requires submission of a resume, a list of coursework and grades, a cover letter describing your interests and goals, and two references.

### Summer Internship Program with the Association of Schools & Programs of Public Health

ASPPH is accepting applications for the Summer 2018 ASPPH Undergraduate Internship Program, a 10 – 12 week experience at ASPPH headquarters in Washington, DC. Interns will have the opportunity to work on a variety of projects focusing on education in public health; gain experience working in a professional public health organization; apply skills they have learned in their classes; and interact with and learn from experts in the field of public health.

Only undergraduate students who are enrolled full-time in a public health, global health, or related major with at least two years of undergraduate education completed, are eligible for this internship. Students who will graduate with a degree from such a program in Spring 2018 are also eligible.

ASPPH is recruiting applicants for three positions in the following areas: student recruitment, undergraduate education, and data management and analysis.

More information and application instructions can be found [here](#). The application is due Sunday, March 11, 2018 at 11:59pm.

### Global Health Teaching Associate Position at Weil Cornell

The Office of Global Health Education in Weill Cornell Medicine is recruiting for a new full time Global Health Teaching Assistant for the 2018-2019 academic year. The GHTA will work closely with faculty and students and provides the overall direction for all activities related to developing and implementing the Global Health Curriculum at Weill Cornell Medicine. The GHTA may also
spend half a day per week involved in service-related work with resource-poor populations in New York City. Faculty will find an appropriate placement and mentor to meet personal interests and career goals of the GHTA.

This position is for soon-to-graduate seniors and graduates. The program begins in June of 2018 and continues into June of 2019 at Weill Cornell Medicine, with a chance to continue for a following year. The benefits include a salary and competitive health benefits package.

If interested, please submit the following materials to Caitlin Noonan at globalhealthta@med.cornell.edu: Your resume; 1-2 page cover letter describing your interest and experience in global health, your leadership and administrative experience, and any other points relevant to the position; and a faculty recommendation letter sent directly to globalhealthta@med.cornell.edu.

**Full-Time Research Assistant in Health Policy**

L&M Policy Research, LLC is seeking candidates for entry-level research positions beginning Summer 2018 in Washington, DC. L&M is a highly-collaborative and collegial boutique health services research firm that offers a deep knowledge of public and private health care issues grounded in extensive experience in qualitative and quantitative research methods and health services management and operations. Our dedicated staff provides the highest quality research to assist government and private organizations in improving health care across the United States, with particular focus on Medicare, Medicaid, and private insurance marketplace reforms.

Minimum qualifications include: recent bachelor’s degree, strong interest in health policy research, excellent organizational skills, strong technical writing skills, strong analytical skills, library and internet research experience, capacity to work both autonomously and as a team, ability to prioritize competing deadlines and complete tasks for multiple assignments simultaneously, proficiency with Excel and presentation graphics software skills, and familiarity with data analysis and software packages (e.g., STATA, SAS). Working proficiency in Spanish is a plus.

To apply, please send a resume, writing sample, and cover letter to: careers@LMpolicyresearch.com Applications are due by April 1.

---

**USDN Equity Diversity Inclusion (EDI) Fellowship Program**

The Global Philanthropy Partnership (GPP) and the Urban Sustainability Directors Network (USDN) are pleased to offer six summer 2018 fellowship opportunities with local governments. Fellows will receive a valuable learning experience while helping local governments to advance their sustainability and inclusion goals. 2018 fellowships will be offered with the City of Austin (TX), City of Baltimore (MD), City of Eugene (OR), City of Fayetteville (AR), City of Milwaukee (WI), and City of San Antonio (TX).

GPP and USDN will provide a living wage specific to the location at which you are placed, full-time employment over the summer, and free attendance at the October 2018 USDN annual meeting (expenses paid. As an intern fellows will experience working in a local government sustainability program on a well-defined project that advances a community’s sustainability and equity goals and
working with a project that is inclusive of underserved and under-represented communities and responsive to their needs and priorities. Fellows will also receive mentorship and participation in a national learning cohort of USDN EDI fellows, as well as access to all USDN member discussions and products.

More information and the application [here](#). Applications are accepted on a rolling basis through early March 2018.

---

### 2018 NIDA Summer Research Internship Program

The National Institute on Drug Abuse (NIDA) invites students interested in pursuing a career in substance abuse research to submit an application for the 2018 NIDA Summer Research Internship Program. This program provides summer research internships to undergraduate students 18 years and older, with a focus on recruiting students underrepresented in the biomedical, behavioral, and clinical sciences. Interns work with NIDA funded scientists at research institutions across the United States for 8 weeks in the field of substance abuse and addiction research. For a list of research sites participating in the 2018 program please see the [NIDA Summer Research Internship Program brochure](#). Internships may involve a variety of experiences including laboratory experiments, data collection and analysis, patient interviews, literature reviews and more. Graduating 2018 college seniors are eligible to apply. Interns receive a stipend of $12/hr., and if necessary and eligible, provisions for travel and housing expenses.

To apply online and to view program information, see the [NIDA Summer Research Internship Program online application](#). The application deadline is February 12th, 2018.

If you have any questions, contact Julie Huffman at [Huffmanj@mail.nih.gov](mailto:Huffmanj@mail.nih.gov). Office of Diversity and Health Disparities, NIDA.

### Research Interviewer for the PREPARE NOW study
Searching for research interviewer for the PREPARE NOW study, a new program to help prepare patients with chronic kidney disease for decisions about treatment for kidney failure. Researchers will contact eligible patients by telephone and obtain informed consent. You will be responsible for administering the baseline and follow-up questionnaire using standardized structured interview by telephone and then enter the data into an on-line REDCap database. The pay is $15 per hour. The hours are flexible with daytime, evening and weekend shifts available. The office is located at 2024 E Monument Street, Baltimore, MD 21210.

For more information on how to apply and any questions please contact Patti Emphraim at pephraim@jhu.edu.

Full-Time Research Assistant in Key Populations Program

The Bloomberg School of Public Health’s Department of Epidemiology is hiring a full time research assistant to work in the Key Populations Program. The position would be a great match for candidates with a Bachelor’s degree, who have been involved in or have strong commitment to public health research, are interested in working on issues related to stigmatized populations, and who have strong attention to detail. The program focuses on the health and rights of stigmatized populations around the globe. A full job description and application can be found here.

Location: East Baltimore Campus
Minimum qualifications: Bachelor’s Degree

Michigan Future Public Health Leaders Program (FPHLP)

Applications are now open for the Michigan Future Public Health Leaders Program (FPHLP)!

FPHLP is a 10-week summer residential program here at U-M SPH for underrepresented college students and recent grads who are looking for a meaningful introduction to public health. It is a cooperative agreement with the Centers for Disease Control and Prevention (CDC) Office of Minority Health and Health Equity (OMHHE) to address the shortage of diversity in the public health workforce. No public health experience is required. To learn more and apply, click here!

V-BID Center Summer Internship Program at University of Michigan

The Center for Value-Based Insurance Design at the University Michigan is searching for undergraduate students from around the country. They are offering an opportunity to integrate students into the vast, fast-paced world of public health policy. Upon joining the multidisciplinary team, interns will participate in hands-on, collaborative experiences as they gain a better understanding of various facets of health care policy. Throughout the summer, each intern and their unique contributions will become an integral asset to the center’s work.

Applications will be accepted through February 15, 2018. If interested, please forward a cover letter and resume to vbidcenter@umich.edu.
For more information or to speak with alumni of the V-BID summer internship program, please contact the V-BID Center Program Manager, Susan Lynne Oesterle, vbidcenter@umich.edu.

**Design Opportunity in Center for Communication Programs**

The IP/I project seeks to contract a student to support the development of a package of resources to support improved interpersonal communication for immunization among frontline health workers globally. The scope of work includes graphic design, layout, and design. Qualifications for the opportunity include: relevant expertise designing and producing print materials, especially for health, development or social issues; prior experience designing and developing communications products for a regional or global audience; experiencing designing or developing training materials for low-literacy audiences; and a demonstrated ability to pay attention to detail and deliver high quality program.

Start date: February 2018, end date: June 2018. Undergraduate pay rate: $13/hour.

If Interested, send a resume to Jvani Cabiness jcabine1@jhu.edu and Claudia Ilbert claudia.ilbert@jhu.edu

**Fellowships and Grants**

**Philadelphia Department of Public Health's 2018 Urban Health Fellowship Program**

The Philadelphia Department of Public Health is now accepting applications for its third class of Urban Health Policy Fellows. This two-year paid fellowship is designed specifically for those with baccalaureate degrees in public health. During the program, Urban Health Policy Fellows work directly with senior leaders of one of the nation’s most innovative health departments on high priority projects, while receiving on-the-job training in public health policy development. The next class of the fellowship will begin in early July 2018, and continue through June 2020.

More information and the application process here. The deadline for submitting applications is Friday, March 9, 2018.

Interested applicants are encouraged to join the Department for a live webinar on Wednesday, February 21, 2018 at 1pm. Those interested in participating can email UPHFellow@phila.gov.

**Teach in Baltimore, earn master's degree with full tuition support**

The JHU School of Education is accepting applications for the Baltimore Education Fellows 2018 cohort. This is a unique opportunity for Krieger School of Arts and Sciences graduates who have an interest in education and are committed to making a difference in Baltimore. Accepted fellows earn a master's degree in one year and complete internships in city schools. Faculty are available to meet with interested students; applications are due by April 1.

For more information, go to the Master of Arts in Teaching–Baltimore Education Fellows page of the School of Education website.
Summer Training and Research (STAR) Opportunity

STAR offers Johns Hopkins University undergraduate students $4000 to help offset the expense of staying at JHU over the summer to start or continue work with a Hopkins faculty member or lab in any division, department or program at Johns Hopkins. This is not for students working internships outside of the JHU community.

The STAR session runs for 10 weeks over the summer from June to mid-August (June 4, 2018 – August 10, 2018). Students are expected to arrange and pay for their own summer housing. STAR encourages applications from students from under-served backgrounds (e.g., first generation students, low-income backgrounds), students who are underrepresented in STEM fields, and/or those who may not have previously had an opportunity for a research experience. STAR will also offer participants professional development opportunities throughout the summer and continuing through the academic year. STAR participants will be required to present a poster at the annual Hopkins CARES Symposium and Poster Session. They will also have the opportunity to present their research at the annual DREAMS day held annually in April.

For more information and to apply, click [here](#). Applications are open until **February 23, 2018**.

---

Preventing Chronic Diseases Research Paper Submission to CDC

Preventing Chronic Disease (PCD) at the Center for Disease Control is looking for students at high school, undergraduate, or graduate level and recent post-graduates to submit papers relevant to the prevention, screening, surveillance, or population-based intervention of chronic diseases, including but not limited to arthritis, asthma, cancer, depression, diabetes, obesity, and cardiovascular disease. The primary goals of the concert is to provide applicants with an opportunity to gain knowledge and skills on the publication process and to promote mutually beneficial student-mentor relationships to strengthen the student’s ability to generate future scholarly manuscripts.

Manuscripts must be received electronically no later than 5:00 PM EST on **Friday, February 23, 2018**. Additional information and detailed submission guidelines are available on the PCD website at [https://www.cdc.gov/pcd/announcements.htm](https://www.cdc.gov/pcd/announcements.htm).
