PUBLIC HEALTH STUDIES:

STUDENT PANEL DISCUSSIONS FOR RISING SENIORS

The Public Health Studies Program will be hosting student panel discussions for juniors. These discussions will feature current seniors and will give perspective on many aspects of the senior year including Bloomberg coursework, PHS Honors, and studying abroad senior fall.

- March 8th 5:30pm, Sherman Room in Levering Hall
- April 3rd 5:30, Ames 218
The Career Center will be hosting walk-ins in the month of March and beginning of April to invest students with the professional skills and the industry-specific knowledge and experience they need to successfully launch their careers. These drop-in dates will be hosted in the Public Health Office at 3505 N Charles St. The dates will be:

- Thursday 3/15 10:00-12:00
- Friday 3/30 10:00-12:00
- Wednesday 4/4 3:00-5:00

Want to know more about the BA/MPH opportunities but couldn’t attend the info session? Recordings of the [first half](#) and [second half](#) of the event are now available online!

Public Health Student Forum at Johns Hopkins University is pleased to extend you the application to present at the 9th Annual Undergraduate Conference in Public Health featuring Dr. Leana Wen, Health Commissioner of Baltimore City, and Dr. Alfred Sommer, former Dean of the Johns Hopkins Bloomberg School of Public Health!

All undergraduate or graduate student attending any university may apply to give an oral or poster presentation. Students who are chosen to give an oral presentation will give a 10 minute powerpoint presentation on their research to the attendees of the Conference, which is followed by 2 minutes of discussion and questions. Students who are chosen to present a poster will participate in a poster session after the oral presentations. All presentations must have high quality illustrations of the results that succinctly convey the major points of the work.
Application deadline: **11:59 PM on Monday, March 12, 2018.**
Please apply [here](#), and email [jhuphsf@jhu.edu](mailto:jhuphsf@jhu.edu) if you have any questions.

Unpaid Internships and Service

Summer Internship Scholarship with BA Rudolph Foundation

The B.A. Rudolph Foundation champions the educational and professional development of women for whom a small amount of support could make a significant difference. Specifically, the Foundation provides financial and professional support to women with summer internships in public service (graduate and undergraduate in the Washington, DC area) and STEM internships/fellowships/assistantships (undergraduate, nationwide). The goal of the stipends is to cover living expenses, making it feasible for students to accept unpaid internships. In addition to financial support, the Foundation provides each scholar with 1-2 mentors in her field of interest, professional development workshops, and networking opportunities.

Scholarship applications are due by: March 28 for graduate public service applicants, April 4 for STEM applicants, April 11 for undergraduate public service applicants.

The B.A. Rudolph Foundation is committed to the principles of diversity and equity. In that spirit, we are particularly dedicated to reaching applicants from a broad spectrum of qualified people. Applicants with diverse backgrounds, experiences, ability and perspectives are encouraged to apply here.

Open Seventeen Challenge (O17)

Do you want to help solve some of the world’s most challenging health problems?

Join the Open Seventeen Challenge (O17) now and get a chance to spend a summer working with the UN initiative Be Healthy Be Mobile developing your project! The Open Seventeen Challenge is an online student challenge that wants you come up with solutions to specific challenges related to SDG #3: “Healthy Lives and Well-Being for All at All ages”, in particular mobile-health solution for developing and developed regions.

In collaboration with the UN initiative Be Healthy Be Mobile (run by the World Health Organization and the International Telecommunications Union), O17 proposes six challenges in the area of non-communicable diseases, where Open Data and techniques like crowdsourcing with mobile Apps could make a difference. All students at Bachelors or Masters level can apply.

How it works?

1. Check out the challenges and pitch your idea (you can apply as a team or individually)
2. 50 students will be selected to move to the next round and receive free coaching by The GovLab at NYU and international mentors to transform your idea into a project. The coaching of the semi-finalist will happen from March 19 - April 30, 2017 through 2h weekly virtual sessions.

3. The best ideas will be selected to either participate on the SDG Summer School (July-August 2018) at Geneva and China, or to join UNLEASH 2018 (all cost covered!)

Deadline for students to register for Open Seventeen is March 12th. Questions? Email us at info@openseventeen.org

Volunteers Needed for The National Museum of Natural History

The National Museum of Natural History is currently recruiting volunteers for Outbreak: Epidemics in a Connected World, a unique exhibit opening May 2018. Outbreak is a temporary exhibit that explores zoonotic viral diseases and connections between the health of animals, humans, and the environment. Viruses featured in the exhibit include HIV, Influenza, SARS, and Ebola. As a volunteer, you will: raise awareness about efforts to detect, respond to, and prevent epidemics, engage in fact-based discussions with the public on hot topics in global health, and receive training on the exhibit's content and visitor engagement from world-renowned Smithsonian staff.

In order to volunteer for the National Museum of Natural History you must: pass a Smithsonian background check, complete a one-hour, in-person interview (scheduling of interviews is flexible), complete online and face-to-face training in April and May of 2018, and commit to volunteering in the exhibit eight hour per month for one year starting in May 2018 (note that scheduling of shifts is flexible)

No experience is necessary. Apply by March 23rd 2018
To Apply contact NMNHVolunteer@si.edu.

Public Health Brigade to Honduras

Join Global Brigades for a week in May in Honduras. You would be working with one family to build a sanitation station (consisting of a shower, toilet, and water pila), cement floors, an eco-stove, and co-lead health education workshops. No previous Spanish experience needed! Two of these brigades can be completed for an Applied Experience.

Contact JHU Public Health Brigades president Madison Dutson at madisondutson@jhu.edu for more information.
Volunteer Opportunity in a Community-Based Study on Chagas Disease

A research project is being conducted by researchers at the Johns Hopkins School of Public Health and the non-profit organization Latin American Society of Chagas Disease (LASOCHA) to estimate the burden of Chagas disease and cardiac abnormalities in the Latin American population in the Baltimore Washington Metropolitan Area. Chagas disease is a parasitic infection that affects mainly Latin Americans and is considered one of the main causes of cardiomyopathy in this population.

Volunteers will be participating in data collection, educating community members about Chagas disease, performing rapid tests of Chagas disease, performing epidemiologic interviews, assisting cardiologists during electrocardiogram and echocardiogram evaluations, and organizing materials and documents. Volunteers must be undergraduate or graduate students in the subjects: medicine, nursing, biology/biochemistry, social sciences or public health, and fluency in Spanish is preferable.

For more information and how to apply please contact Yagahira Castro, ycastro1@jhu.edu or (667)207-3330.

Fund for Global Health

Fund for Global Health is looking for undergraduate students with interests in global public health and advocacy! The mission of the Fund for Global Health is to provide the maximum possible health benefit to vulnerable people in developing countries. One of the best ways to accomplish this is by advocating for increased U.S. funding for effective global health programs. This year, they are focused on increasing U.S. foreign aid for addressing tuberculosis, maternal & child health, and universal immunization.

To apply, please submit a resume, a 1-2 page writing sample and a brief statement of interest to the Director of Advocacy, Keith Johnson, at k.johnson@fundforglobalhealth.org. Minimum 4-month commitment required; 12 months is preferred.

Medicare Payment Advisory Commission (MedPAC) Research Assistant Position

The Medicare Payment Advisory Commission (MedPAC) seeks research assistant candidates who are committed to producing high-quality work in an intellectually challenging environment. MedPAC is interested in candidates who would be available to start work in the Summer of 2018 and commit to the position for two years. MedPAC is a small, nonpartisan federal government agency that advises the U.S. Congress on the Medicare program. MedPAC staff evaluate Medicare policies and payment systems, develop policy options for consideration by the Commission, and present their work in regular public meetings. MedPAC publishes its recommendations and supporting analyses in two annual reports and other periodic reports as mandated by Congress. In addition, staff prepare analyses of proposed regulations, write issue briefs, and contribute to the preparation of Congressional testimony.

Research assistants must be able to work as part of a team and independently take on assigned tasks to fulfill the Commission’s mandate. We particularly value candidates with written and oral communication skills, because research assistants are asked to write policy briefs and present findings in public. Depending on need, research assistants perform a variety of tasks including data
collection, data programming (using SAS software), literature reviews, interviewing, and coordination of travel for site visits.

Paid Jobs and Internships

Administrative Coordinator Position at PSI

We are looking for Administrative Coordinator to support both the HIV/TB and Global Marketing departments with overall day-to-day operations (50% LOE per department). The Coordinator will have wide-ranging responsibilities and work with PSI staff at all levels both in Washington and overseas. The ideal candidate is someone who will pro-actively meet administrative needs, can juggle multiple, competing priorities, and will enthusiastically ensure smooth and timely flow of work. Some tasks include: assisting in the preparation of documents, including PowerPoint presentations, spreadsheets and correspondence; supporting financial management by tracking expenses, processing invoices, reconciling credit card activity, assisting in managing departmental invoices and consultants, and helping ensure compliance with funding requirements. This position is based in Washington, D.C.

More information and the application [here](#).

Malaria Program Assistant at PSI

PSI seeks a Program Assistant (PA) to support program management functions in the Malaria, Child Survival, and Sanitation department. The PA will have wide-ranging responsibilities and work with PSI staff at all levels both in Washington and overseas. The position requires flexibility and willingness to assume varied duties and projects with an emphasis on administrative tasks. Some tasks include planning a variety of events; supporting administrative preparation for key malaria, child survival and sanitation presentations, conferences, meetings and retreats; and providing administrative and financial management support to funded projects. This position is based in Washington, D.C. and reports to the Associate Program Manager, MCSD.

More information and the application [here](#).

Second Decade Society Grant

The Second Decade Society offers grants to Krieger students working with Nonprofits. Students must apply on Handshake and complete a Google survey to receive the $3,000 award.

More information can be found [here](#).

UMBC Public Service Scholars Program
The Shriver Center at UMBC coordinates several Public Service Scholars fellowship programs on behalf of the state of Maryland. These fellowships provide students across Maryland the opportunity to develop as future leaders in Maryland’s public and social sectors. The Public Service Scholars program out of UMBC is open to all Maryland college students but they must be a Junior or Senior in the fall.

Public Service Scholars programs are comprised of 4 components:

Experience: Fellows are placed at a nonprofit organization or government agency and work full-time under the mentorship of a senior-level professional

Exploration: Fellows attend an orientation and frequent seminars to strengthen their understanding of the sector in which they are placed

Exposure: Fellows attend field trips, meetings, and networking events, and are given opportunities to connect with Maryland’s leaders

Practice: Fellows work together in groups to put their knowledge and skills into practice and present their projects to stakeholders

For more information on available positions, click here. Priority deadline March 1, final deadline March 15.

Applications Open for Goodyear Award

The Public Health Studies program is now accepting applications for the third James D. Goodyear Public Health Service in Baltimore Award. Named in honor of the former Associate Director of Public Health Studies, this award will provide a stipend of $3000 to one Public Health Studies undergraduate student per year, allowing the student to complete an otherwise unpaid public health service internship based in Baltimore City.

Applicants must have already secured an internship for the summer of 2018 in order to be considered for the award. An application essay, describing the scope of the internship and its relevance to your career development, current academics and future goals is required. View the application form for complete requirements.

Applications are due to Caroline Barry by 5pm on April 6th, 2018. Contact the Public Health Studies office with any questions.
Johns Hopkins Hospital Medical Affairs Internship 2018-2019

The Johns Hopkins Hospital Medical Affairs Internship is a yearlong, paid, full-time position aimed at highly motivated individuals who are pursuing a career in medicine and are looking for a gap-year opportunity. The internship is designed to provide aspiring physician leaders with a comprehensive learning experience at a premier academic health system.

The intern will be exposed to hospital operations and leadership through administrative support to Medical Affairs subcommittees such as The House Staff Council, The Ethics Consultation Service, and The Influenza Prevention Taskforce. Furthermore, the intern will serve as a project coordinator on a specific project during their internship. Project opportunities will vary and reflect both the participant’s learning goals and the priorities of The Medical Affairs Office. Candidates will also have the opportunity to attend senior leadership meetings throughout Johns Hopkins Medicine and gain exposure to various health system functions. Prior to beginning, the selected intern will finalize goals, expectations, and evaluation criteria with the Sr. Vice President of Medical Affairs and the Internship Program Manager.

Applications will be accepted until March 30th, 2018 5pm EST

ASPPH Accepting Applications for Undergraduate Summer Internship Program

The Association of Schools and Programs of Public Health (ASPPH) is accepting applications for the Summer 2018 ASPPH Undergraduate Internship Program, a 10 – 12 week experience at ASPPH headquarters in Washington, DC. Interns will have the opportunity to work on a variety of projects focusing on education in public health, gain experience working in a professional public health organization, apply skills they have learned in their classes, and interact with and learn from experts in the field of public health.
ASPPH is recruiting applicants for three positions in the following areas: student recruitment, undergraduate education, and data management and analysis. Additional information can be found in the program announcement.

Only undergraduate students who are enrolled full-time in a public health, global health, or related major with at least two years of undergraduate education completed are eligible for this internship. Students who will graduate with a degree from such a program in Spring 2018 are also eligible.

Applications are due by March 11th. For more information, click here. To apply, click here.

**Undergraduate Scholarship Program at NIH**

The National Institutes of Health (NIH) Undergraduate Scholarship Program (UGSP) offers competitive scholarships to students from disadvantaged backgrounds who are committed to careers in biomedical, behavioral, and social science health-related research. The program offers: Scholarship support, paid research training at the NIH during the summer, and paid employment and training at the NIH after graduation.

The NIH UGSP will pay up to $20,000 per academic year in tuition, educational expenses, and reasonable living expenses to scholarship recipients. Scholarships are awarded for 1 year, and can be renewed up to 4 years.

More information and the application here. The application is due March 15, 2018.

**Summer Internship Program with the Association of Schools & Programs of Public Health**

ASPPH is accepting applications for the Summer 2018 ASPPH Undergraduate Internship Program, a 10 – 12 week experience at ASPPH headquarters in Washington, DC. Interns will have the opportunity to work on a variety of projects focusing on education in public health; gain experience working in a professional public health organization; apply skills they have learned in their classes; and interact with and learn from experts in the field of public health.

Only undergraduate students who are enrolled full-time in a public health, global health, or related major with at least two years of undergraduate education completed, are eligible for this internship. Students who will graduate with a degree from such a program in Spring 2018 are also eligible.

ASPPH is recruiting applicants for three positions in the following areas: student recruitment, undergraduate education, and data management and analysis.

More information and application instructions can be found here. The application is due Sunday, March 11, 2018 at 11:59pm.

**Global Health Teaching Associate Position at Weil Cornell**

The Office of Global Health Education in Weill Cornell Medicine is recruiting for a new full time Global Health Teaching Assistant for the 2018-2019 academic year. The GHTA will work closely
with faculty and students and provides the overall direction for all activities related to developing and implementing the Global Health Curriculum at Weill Cornell Medicine. The GHTA may also spend half a day per week involved in service-related work with resource-poor populations in New York City. Faculty will find an appropriate placement and mentor to meet personal interests and career goals of the GHTA.

This position is for soon-to-graduate seniors and graduates. The program begins in June of 2018 and continues into June of 2019 at Weill Cornell Medicine, with a chance to continue for a following year. The benefits include a salary and competitive health benefits package.

If interested, please submit the following materials to Caitlin Noonan at globalhealthta@med.cornell.edu: Your resume; 1-2 page cover letter describing your interest and experience in global health, your leadership and administrative experience, and any other points relevant to the position; and a faculty recommendation letter sent directly to globalhealthta@med.cornell.edu.

---

**Full-Time Research Assistant in Health Policy**

L&M Policy Research, LLC is seeking candidates for entry-level research positions beginning Summer 2018 in Washington, DC. L&M is a highly-collaborative and collegial boutique health services research firm that offers a deep knowledge of public and private health care issues grounded in extensive experience in qualitative and quantitative research methods and health services management and operations. Our dedicated staff provides the highest quality research to assist government and private organizations in improving health care across the United States, with particular focus on Medicare, Medicaid, and private insurance marketplace reforms.

Minimum qualifications include: recent bachelor’s degree, strong interest in health policy research, excellent organizational skills, strong technical writing skills, strong analytical skills, library and internet research experience, capacity to work both autonomously and as a team, ability to prioritize competing deadlines and complete tasks for multiple assignments simultaneously, proficiency with Excel and presentation graphics software skills, and familiarity with data analysis and software packages (e.g. STATA, SAS). Working proficiency in Spanish is a plus.

To apply, please send a resume, writing sample, and cover letter to: careers@LMpolicyresearch.com

Applications are due by April 1.

**Fellowships and Grants**

Public service fellowship opportunities
You know you’re committed to public service. But do you know where your experience at Hopkins will take you? The National Fellowships Program is one place to find out. If you want to deepen your academic training or your experiential learning, a nationally competitive fellowship might be your path to it. Talk to us about the Truman Scholarship, Boren Scholarship, Emerson Fellowship, Baltimore Corps Fellowship, Udall Scholarship, and others. Visit our website to fill out a short inquiry form and meet with an NFP advisor.

Philadelphia Department of Public Health's 2018 Urban Health Fellowship Program

The Philadelphia Department of Public Health is now accepting applications for its third class of Urban Health Policy Fellows. This two-year paid fellowship is designed specifically for those with baccalaureate degrees in public health. During the program, Urban Health Policy Fellows work directly with senior leaders of one of the nation’s most innovative health departments on high priority projects, while receiving on-the-job training in public health policy development. The next class of the fellowship will begin in early July 2018, and continue through June 2020.

More information and the application process here. The deadline for submitting applications is Friday, March 9, 2018.

Teach in Baltimore, earn master's degree with full tuition support

The JHU School of Education is accepting applications for the Baltimore Education Fellows 2018 cohort. This is a unique opportunity for Krieger School of Arts and Sciences graduates who have an interest in education and are committed to making a difference in Baltimore. Accepted fellows earn a master's degree in one year and complete internships in city schools. Faculty are available to meet with interested students; applications are due by April 1.

For more information, go to the Master of Arts in Teaching–Baltimore Education Fellows page of the School of Education website.

Public Health Resource Guide

Please see the PHS website (Contact tab) or click here to use the online Advisor Scheduling System.

* Please note – system does not work with Chrome or Safari browsers or mobile devices

PHS Weekly Submission Process
Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to PHStudies@jhu.edu by 5pm every Monday.

For announcements or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any position opening, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.

PHS Office Directory
