Information Sessions and Career Fairs

**Working on your Applied Experience? Questions about the Synthesizing Assignment?**

Join the Applied Experience Instructor, Lisa Folda, in the PHS building (3505 N. Charles St., across from the tennis courts) this **Wednesday, April 18 at 5:30** for a Q&A session about creating an academic poster.

*Please review the Synthesizing Assignment details* in Blackboard ahead of time, or email Ms. Folda if you need them as an attachment. This session is to respond to your questions, so come ready! See you then!

**Kennedy Krieger Institute: Career Exploration Lunch**

Join representatives from the Kennedy Krieger Institute for lunch and conversation about the many roles available at KKI! We will discuss how the unique and transferable skills of JHU liberal arts undergraduates play an important role for KKI as they work as researchers, clinical providers, special educators and community advocates for Baltimore City. Lunch will be provided, so please register to let us know you are attending!

Register on Handshake [here](https://handshake.jhu.edu).

**Hopkins Bloomberg Public Health Magazine**

The new issue of *Hopkins Bloomberg Public Health* is available now at [https://magazine.jhsp.jhsph.edu](https://magazine.jhsp.jhsph.edu).
Click [here](#) to subscribe to the digital or print magazine.

---

**Video Available for BA/MHS Info Session**

Want to know more about the BA/MPH opportunities but couldn’t attend the info session? Recordings of the first half and second half of the event are now available online!

---

**Conferences and Talks**

**Bishop Douglas Miles Gives on Campus Talk**

You are invited to hear from and talk with Bishop Douglas Miles, a co-founder of the JHU Black Student Union and will be a 2018 recipient of an honorary degree from Johns Hopkins University. He will be presenting in the Health and Wellbeing in Baltimore Course on April 17th at 4:30 pm in Room 3 of Shaffer Hall. The course meets 4:30 – 5:40 pm. If you’d like additional information, contact Dr. Leaf at [pleaf@jhu.edu](mailto:pleaf@jhu.edu).

---

**CFAR Biostatistics and Epidemiology Methodology (BEM)**

The CFAR Biostatistics and Epidemiology Methodology (BEM) core invites you to attend:

"*Molecular Epidemiology of HIV-1 in the United States*

with Joel Wertheim, PhD

Tuesday, April 17, 2018 / 12:00 - 1:00 pm
615 North Wolfe Street, W1020
THE INSTITUTE FOR THE HISTORY OF MEDICINE PRESENTS

CFAR Biostatistics and Epidemiology Methods Mini-Symposium

Would you like to learn more about the hottest topics in HIV research methods?
Are you interested in networking with your fellow investigators in HIV research?
Are you looking for an opportunity to showcase your research to the HIV research community at JHU?

The CFAR Biostatistics and Epidemiology Methods (BEM) Core invites you to present your research at the next Mini-Symposium Series in HIV Methods. Each meeting will be focused on a specific HIV methodological area and will feature a collection of short presentations from 4 to 5 panelists.

The BEM Core invites all JHU researchers to submit applications for oral presentations at the next meeting on “Causal Inference,” scheduled for late May 2018. Applications should be submitted by email to JHUCFARBEM@jhu.edu by the abstract submission deadline on April 30th, 2018.

For more information, click here.

Visit jhuoms.org for more information

Social Determinants of Health Symposium

WHEN: April 30, 2018
WHERE: Turner Auditorium, 720 Rutland Avenue, Baltimore, MD 21205
MORE INFO: For more information, please visit their website. Registration will be available soon.

Save the date for the annual Social Determinants of Health Symposium, a day-long event that brings together national experts, local community leaders, city residents, faculty and students from Baltimore colleges and universities to discuss and examine pressing topics that are related to the root causes of health.
Student Activities and Events

APHA Global Public Health Film Festival

APHA's Global Public Health Film Festival aims to be a catalyst in the movement toward a healthier nation by sparking the conversation about health in creative ways. They are now accepting film submissions.

They encourage all submissions, including:
Animations, Documentaries, Narratives, Shorts, Promos, PSAs, and Related videos that demonstrate, educate, inspire, and encourage a change for a healthier future

The deadline for submissions is Friday, June 30th 2018.
Submissions can be entered and more information can be found here.

Free Kaplan Prep Courses

Free Kaplan prep courses are available online for the MCAT, GRE, DAT, PCAT, OAT, and GMAT. You can also sign up for the free study guide. Prizes such as gift cards and Spotify premium subscriptions will be given out at the events. Follow this link http://bit.ly/PrepFTWJHUTiffany to register!

Counseling Center Wellness Programs

The Counseling Center offers a variety of programs and workshops focused on developing skills or exploring topics that help students to Be Well, Do Well, and Live Well. All workshops are offered free of charge to Homewood and Peabody undergraduate and graduate students.

Click here to learn more and sign up.

Unpaid Internships and Service

Bienestar Internship Opportunities

Bienestar Human Services, Inc. is the largest Latino community-based organization in the United States that meets the social services, health education and prevention needs of Latino men, women, and children living with HIV/AIDS, and those most at risk of HIV, sexually transmitted diseases (STD’s) and other infections. Bienestar is committed to enhancing the health and well being of the Latino community and other underserved communities. Bienestar accomplishes this through community education, prevention, mobilization, advocacy, and the provision of direct social
support services. Bienestar serves the residents of the Los Angeles, San Bernardino, and San Diego County areas.

If you are interested, please reach out to Nicholas Turton, nturton@bienestar.org, for more information on these opportunities: Public Health – Communication and Public Health - Harm Reduction.

Rising senior, Michael Ontiveros, worked with this group last year and would be happy to tell you about his experience. Montive3@jhu.edu.

### Research Assistant Position with Psychiatry Department at JHU School of Medicine

An undergraduate research assistant position is available in the Schizophrenia Center at the Johns Hopkins School of Medicine for credit. The center seeks a talented and highly motivated individual to pursue translational/clinical research projects, including a) first episode psychosis project, and b) chronic schizophrenia and mood disorder project. Primary purposes include 1) to identify biomarker candidates, and 2) to generate hypotheses for pathophysiology of psychiatric disorders.

A successful candidate will work with interdisciplinary teams to analyze molecular profiling data (microarray, RNA-Seq, Ribo-Seq, etc.) and brain imaging data (MRI, fMRI, and MRS) as well as integrate data across clinical and molecular data layers. He/she will be co-mentored by multiple faculty members inside the Schizophrenia Center, including faculties expertise in data science, molecular science, brain imaging, and clinical psychiatry. Interested students should have experience in using cutting-edge computational methods to analyze data, and a background in biostatistics. Proficiency in at least two of the following languages: R, Python, Ruby, C++ is highly encouraged.

Please send CV to JHSZC@jhu.edu or contact Aditi Trivedi at atrived3@jhu.edu or 443-287-4986.

---

### Public Health Brigade to Honduras

Join Global Brigades for a week in May in Honduras. You would be working with one family to build a sanitation station (consisting of a shower, toilet, and water pila), cement floors, an eco-stove, and co-lead health education workshops. No previous Spanish experience needed! Two of these brigades can be completed for an Applied Experience.

Contact JHU Public Health Brigades president Madison Dutson at madisondutson@jhu.edu for more information.
Volunteer Opportunity in a Community-Based Study on Chagas Disease

A research project is being conducted by researchers at the Johns Hopkins School of Public Health and the non-profit organization Latin American Society of Chagas Disease (LASOCHA) to estimate the burden of Chagas disease and cardiac abnormalities in the Latin American population in the Baltimore Washington Metropolitan Area. Chagas disease is a parasitic infection that affects mainly Latin Americans and is considered one of the main causes of cardiomyopathy in this population.

Volunteers will be participating in data collection, educating community members about Chagas disease, performing rapid tests of Chagas disease, performing epidemiologic interviews, assisting cardiologists during electrocardiogram and echocardiogram evaluations, and organizing materials and documents. Volunteers must be undergraduate or graduate students in the subjects: medicine, nursing, biology/biochemistry, social sciences or public health, and fluency in Spanish is preferable.

For more information and how to apply please contact Yagahira Castro, ycastro1@jhu.edu or (667)207-3330.

Paid Jobs and Internships

Research Assistant

The Early Childhood Services Research Program at the Johns Hopkins School of Public Health is currently recruiting a Research Assistant. The Early Childhood Services Research Program is dedicated to conducting high-quality, utilization-focused research across the United States to improve the life course of families with young children.

The ideal candidate for the position is a graduating senior who is self-motivated, responsible, and detail-oriented with excellent people skills and organizational abilities.

The primary responsibilities for this position will be to work with the Project PI and Program Coordinators on several local and national research studies, maintain a database of practice-based home visiting research network members, and assist with management tasks.

To apply, search for requisition 9904 at jobs.jhu.edu. Contact Kay O’Neill at koneill@jhu.edu with any questions.

Gap Year Opportunity

Dr. Frank Lin, an Associate Professor in the School of Medicine and the Bloomberg School of Public Health and the director of the Cochlear Center for Hearing and Public Health, is looking for a research program assistant for a community-based clinical trial of an affordable and accessible hearing loss intervention for older adults that is delivered by trained community health workers. This person will be responsible for data collection from older adults who are living independently in senior living residential building throughout Baltimore City. This individual will directly interface
and coordinate with community partners to recruit study participants, gather questionnaire and other outcome data, and oversee participant involvement in the study. This job requires extreme attention to detail and for the individual to be self-motivated and to work and solve problems. This position would ideally require a 1-2 year commitment for the duration of the clinical trial. Manuscript authorship and other research opportunities are available pending the candidate’s interest. Access to personal transportation is required. This opportunity is an ideal 1-2 year gap year position before medical or graduate school.

For more information, please directly contact Frank Lin, MD, PhD
Email: flin1@jhmi.edu

Full-time research position with the Epidemiology Research Group in Organ Transplantation

The Epidemiology Research Group in Organ Transplantation (https://transplantepi.org), a lab in the Johns Hopkins Department of Surgery, is seeking a motivated individual for a full-time research program assistant position. Students will be working on a wide range of projects involving mobile health technology, living kidney donation, and solid organ transplantation.

Primary duties include: Recruiting research subjects and volunteers; implementing and maintaining data collection and analysis; coding of qualitative data with NVivo Pro 11; and assisting with running of focus group and in depth interviews.

The proposed start date is June 2018 and the research assistant will be working 40 hours per week. Compensation ranges from $11.72-16.11 per hour. More information here. Please contact macey@jhmi.edu with any questions and to send in your application.

Hiring Research Assistant - Diabetes mHealth Tool

The Diabetes Networking Tool (DNT) is a mobile health (mHealth) application that enhances Type II diabetes (T2D) patients’ ability to self-manage and avoid disease complications by bolstering family, household, and community-based support mechanisms. This app is targeted for T2D patients living in Southwest Baltimore.

Applicants must have excellent interpersonal skills, be responsible, and be comfortable with diverse communities. Preferred skills include experience with mHealth, knowledge of nutrition and/or diabetes. Students are expected to work 8 hours per week and compensation is yet to be determined. The position will begin as soon as possible.

Responsibilities include recruiting potential users of the app (including consenting and enrolling participants into the study), following-up with participants, collecting qualitative information, reporting user-problems, and assisting in IRB related work.

To apply, submit cover letter, resume, and 2 references (preferably from supervisors) to Pamela Surkan at psurkan@jhu.edu.

2018 GEMS Sites now recruiting student team members
Are you interested in tackling global health problems with a diverse, multidisciplinary team? Apply for one of several positions available through five Global Established Multidisciplinary Sites (GEMS) this year. Positions are recruiting for students from a variety of disciplines, including public health, medicine, education, and nursing. In previous years, GEMS students have worked together to inform development of mobile platforms for integrated care, novel autism screening tools, and population—level COPD assessments, among many opportunities. See here for descriptions of the 2018 sites and PI contact information.

**Hiring Research Assistant for Epidemiology Research Group in Organ Transplantation**

The Epidemiology Research Group in Organ Transplantation, a lab in the Johns Hopkins Department of Surgery, is seeking 1-2 motivated undergraduate students for a part-time research assistant position. Students will be working on the WHOLE Donor Study, a long-term follow up study of live kidney donors. Applicants should have excellent communication and organizational skills, attention to detail, and the ability to work well with others.

Responsibilities will include interviewing patients, abstracting medical records, consenting patients in clinic, and assisting on other studies as needed. This is a year-long position where students are expected to work 10 hours per week during the semester, and closer to 40 hours per week during the summer. Compensation is $12/hour or course credit. Proposed start date is June 2018.

To apply, submit cover letter, resume, unofficial transcript, and a brief statement of interest to Madeleine Waldram at mwaldra1@jhu.edu.

**Global Health Teaching Associate Position at Weil Cornell**

The Office of Global Health Education in Weill Cornell Medicine is recruiting for a new full time Global Health Teaching Assistant for the 2018-2019 academic year. The GHTA will work closely with faculty and students and provides the overall direction for all activities related to developing and implementing the Global Health Curriculum at Weill Cornell Medicine. The GHTA may also spend half a day per week involved in service-related work with resource-poor populations in New York City. Faculty will find an appropriate placement and mentor to meet personal interests and career goals of the GHTA.

This position is for soon-to-graduate seniors and graduates. The program begins in June of 2018 and continues into June of 2019 at Weill Cornell Medicine, with a chance to continue for a following year. The benefits include a salary and competitive health benefits package.
If interested, please submit the following materials to Caitlin Noonan at globalhealthta@med.cornell.edu: Your resume; 1-2 page cover letter describing your interest and experience in global health, your leadership and administrative experience, and any other points relevant to the position; and a faculty recommendation letter sent directly to globalhealthta@med.cornell.edu.

Collective Health Hiring for Operations Associate and Member Advocate

Collective Health is a health-tech company in San Francisco that is creating a better healthcare experience from the ground-up. The company is 4 years old and growing quickly! The Operations team is the engine of the business, operating the core processes that power the business. Collective Health is backed by some of the best investors in Silicon Valley and have been ranked the No. 2 Tech Company to Watch by the Wall Street Journal. They have also been voted as the best Health Tech company to work for by Rock Health.

Candidates should be intellectually curious and self-motivated people with 0-2 years of experience. They are hiring several people for these two roles, with start dates ranging from February-late summer: Operations Associate: http://grnh.se/kaorcd1 Member Advocate http://grnh.se/37p5ws1

Questions can be directed to PHS Hopkins alumnus Ian Colrick at icolric1@jhu.edu.

Summer Savings Waiver Grant Application — Summer 2018

The Office of Student Financial Services does not want financial considerations to prevent students with financial need from pursuing summer experiences that contribute to their career preparation and supplement their academic work. A student who is receiving need-based institutional grant funding and who participates in an unpaid internship or research opportunity related to their major or career goal for 20 hours per week or more during the summer may apply for a Summer Savings Waiver Grant. The maximum Summer Savings Waiver Grant is $2,600. Availability of funding cannot be guaranteed. Decisions will be based on the financial need of the applicant, date of application, and on a review of the student’s description of the opportunity and its relevance to the student’s academic and career objectives. Students who receive the Summer Savings Waiver Grant, will receive a $2600 grant after the internship/research opportunity is complete that replaces the $2600 summer savings expectation for the 2018-19 academic year.

Summer Savings Waiver Grant applications are not considered complete until the following requirements are fulfilled. All applications must be thoroughly completed. 1. Complete Summer Savings Waiver Grant application including signature from JHU Career Services Office. 2. Brief description of summer unpaid internship/research opportunity (typewritten, one page, signed). 3. All 2018-19 forms required for need-based financial aid must have been submitted. The status of financial aid documents can be verified on the Financial Aid To Do List tab of SIS Self-Service.
Fulbright Study/Research Award

Fulbright Study/Research grants are available to 140 countries in all academic disciplines and most artistic disciplines. By supporting an immersive, focused international experience for recent graduates, master’s candidates, doctoral students, and young professionals, the Fulbright aims to facilitate cultural exchange and promote mutual understanding.
