## Conferences and Talks

Get in touch online with **over 60 admissions representatives** from schools and programs of public health at the next This Is Public Health Virtual Fair on **July 11**. To learn more and register visit the [event website](#).

If you are looking to **meet in-person**, the next graduate school fair will be hosted on **July 17** in **Washington, DC**. For a full list of fairs, visit the [This Is Public Health events page](#).

## SAVE THE DATE!

# Maryland Harm Reduction Summit

Thursday, June 28<sup>TH</sup> 2018  
Martin's West, 6817 Dogwood Rd, Baltimore MD

Explore innovative approaches to the opioid epidemic while forging new partnerships. The Maryland Harm Reduction Summit will bring together community members, policy makers, health and social service providers to focus on non-judgmental, harm reduction approaches to individuals seeking care at any stage in their recovery. Topics span racial justice, trauma and harm reduction, strengthening systems of care, and integration of harm reduction into substance use disorder treatment settings, among others.

The Baltimore Harm Reduction Coalition is planning a **harm reduction resource fair** and **research poster session**. See the attached for information on how you or your organization can participate.

Registration opens soon! The Summit is co-sponsored by Maryland Behavioral Health Administration and the University of Maryland Training Center. CEUS will be available.

The registration fee can be waived for students and free transportation to the location will be provided. Stay tuned for the opening of registration and the release of a detailed agenda including sessions with numerous community representatives! Soon!

## Speak for Health

The American Public Health Association is calling on all public health students who want to take action, change the direction of our country and build a better public health system through advocacy. Join them at the [Speak for Health](#) event in Washington, DC for a 2-day bootcamp, from Sun, Jul 15, 2018, 9:00 AM – Mon, Jul 16, 2018, 5:00 PM, training tailored to public health students on how to be an effective public health advocate. They will cover the basics of how to advocate for evidence-based public health policies, including how to message your issue, how to amplify your advocacy with social media and how to influence your representatives.

More info can be found [here](#).

# Public Health Studies T-Shirt Design Contest

## Still accepting submissions!

The Public Health Studies Program is holding a t-shirt design contest. The winner of the contest will get their design on the new official PHS t-shirt and win a \$50 gift card. Please be creative and representative of Public Health!

### Requirements:

1. Design must be submitted as a .png file
2. Design must be public health related

Your design will be located on the back of the t-shirt. The front will consist of the Johns Hopkins Public Health Studies name and logo.

Please submit to Caroline Barry at [cbarry8@jhu.edu](mailto:cbarry8@jhu.edu).

The SPEAK2US hotline, launched in 2016, is geared toward the university and health system communities to report complaints or concerns related to harassment, discrimination, or other unacceptable behavior that takes place at Johns Hopkins. Reports can be made 24 hours a day, seven days a week via an [online form](#) or by phone at 844-SPEAK2US (844-773-2528). Students, please be aware of this resource.

### APHA Global Public Health Film Festival

APHA's Global Public Health Film Festival aims to be a catalyst in the movement toward a healthier nation by sparking the conversation about health in creative ways. They are now accepting film submissions.

They encourage all submissions, including:  
Animations, Documentaries, Narratives, Shorts, Promos, PSAs, and Related videos that demonstrate, educate, inspire, and encourage a change for a healthier future

The deadline for submissions is Friday, June 30<sup>th</sup> 2018.  
Submissions can be entered and more information can be found [here](#).

### Counseling Center Wellness Programs

The Counseling Center offers a variety of programs and workshops focused on developing skills or exploring topics that help students to Be Well, Do Well, and Live Well. All workshops are offered free of charge to Homewood and Peabody undergraduate and graduate students.

Click [here](#) to learn more and sign up.

### Unpaid Internships and Service

#### CAHMI Summer Internship Position

The Child & Adolescent Health Measurement Initiative (CAHMI) at Johns Hopkins School of Public Health is looking for a motivated, self-directed intern. The mission of the CAHMI is to ensure that children, youth and families are at the center of defining, assessing and driving improvements in children's health and health care quality. The **Summer Undergraduate Intern** will primarily work across two projects and may assist with other CAHMI project work as needed.

Applicant must be a current undergraduate student at an accredited college or university enrolled in a major related to the health or social sciences field. Interest in research and measurement, especially in the topic of children's health, is preferred. MS Office skills required; some exposure to MCH measurement and website creation or upkeep preferred. Strong writing and communication skills required. Applicant must have strong attention to detail and a basic understanding of research principles.

Learn more details on the position and how to apply [here](#).

### **Student Co-Facilitator Position**

The Center for Adolescent Health at JHSPH is seeking co-facilitators to join their Summer Youth Leadership Institute team. Facilitators are an integral part of our programming, working closely with student participants and school staff to ensure fidelity of the curriculum implementation, lead the climate session teaching and facilitation components, and provide assistance to ensure the overall continuity of the program is in alignment with its goals and objectives. Facilitators will engage in overall programming full-time, Monday –Friday, over a 5-week period between Monday, June 20, 2018 and Friday, July 27, 2018.

Ideal candidates will possess an enthusiastic work ethic and meet qualifications for facilitators outline below. The following are essential skills and availability necessary for facilitators:

- Ability to work summer months (late June – early August), onsite Monday –Friday, 9:30 am - 3:30 pm
  - Undergraduate or Graduate enrollment, preferably in public health
- Ability to participate in professional development after work hours (2 days during the programming period, early evening)
- Demonstrated understanding and interest in school climate, youth development, youth leadership and/or adolescent health/public health
  - Facilitation skills –former work or volunteer opportunity experience
    - Knowledge and interest in data analysis
- Demonstrated past experience working with youth, youth leadership as a peer, former work or volunteer opportunity
  - Interpersonal and communication skills
- Self-motivated working style and commitment to engagement in personal leadership development for oneself
  - Good communication, organizational and time management skills
    - Driver’s license (preferred)

Contact Katrina L. Brooks ([kbrook23@jhu.edu](mailto:kbrook23@jhu.edu)) to apply, or with any questions. Learn more about the Center for Adolescent Health [here](#).

### **Research for Credit Opportunity in the Epidemiology Research Group in Organ Transplantation**

The Epidemiology Research Group in Organ Transplantation, a transplant epidemiology lab in the Department of Surgery at Johns Hopkins School of Medicine, is seeking motivated undergraduate students for a part-time research trainee position. Students will be working on the ENGAGE Study, a study aiming to expand live donor kidney transplantation through advocacy training and social media for patients on the kidney transplant waitlist. Responsibilities include recruiting and interviewing patients, abstracting medical records, and instructing patients during our Live Donor Champion and Donor App Programs. Must commit to 2 semesters or more starting this summer 2018. If interested, please send a brief statement of interest, resume, and unofficial transcript to David Helfer at [dhelfer2@jhu.edu](mailto:dhelfer2@jhu.edu).

## Crisis Text Line Volunteer Opportunity

Crisis Text Line is the free, 24/7 text line for people in crisis in the United States. The service is powered by volunteer Crisis Counselors who work remotely anywhere with a computer and secure internet connection. Crisis Counselors answer texts from people in crisis, bringing them from a hot moment to a cool calm through active listening, collaborative problem solving, and safety planning.

Volunteers commit to 200 total hours, serving a recommended 4 hours/wk. to meet this requirement.

Apply at <https://www.crisistextline.org/volunteer/>.

### Global Medical Mission Fellow Positions Available

The [MDJunior](#) team is hiring 7 Global Medical Mission Fellows to accompany them in Puerto Rico.

The primary duties of Undergraduate Fellows will be helping the MDJunior team host mobile clinics in rural areas devastated by Hurricane Maria. This will include intake, vitals, pharmacy, and consult. Additionally, fellows will work on two public health projects in coordination with the CDC's Vector Control Unit in Puerto Rico.

The duration of the assignment is one week, from July 24-29, 2018. This position is for freshmen, sophomores, or juniors, and some experience with speaking Spanish is preferred.

Students can expect to learn how a public health institution in Puerto Rico operates, gain first-hand exposure to disadvantaged communities post-natural disaster, gain experience in setting up and operating a mobile clinic, and have the opportunity to network with distinguished medical professionals.

To apply, send your resume to Akash Mandavilli, at [akash@mdjr.org](mailto:akash@mdjr.org).

### Bienestar Internship Opportunities

Bienestar Human Services, Inc. is the largest Latino community-based organization in the United States that meets the social services, health education and prevention needs of Latino men, women, and children living with HIV/AIDS, and those most at risk of HIV, sexually transmitted diseases (STD's) and other infections. Bienestar is committed to enhancing the health and well-being of the Latino community and other underserved communities. Bienestar accomplishes this through community education, prevention, mobilization, advocacy, and the provision of direct social support services. Bienestar serves the residents of the Los Angeles, San Bernardino, and San Diego County areas.

If you are interested, please reach out to Nicholas Turton, [nturton@bienestar.org](mailto:nturton@bienestar.org), for more information on these opportunities: Public Health - Communication and Public Health - Harm Reduction.

Rising senior, Michael Ontiveros, worked with this group last year and would be happy to tell you about his experience. [Montive3@jhu.edu](mailto:Montive3@jhu.edu).

## Research Assistant Position with Psychiatry Department at JHU School of Medicine

An undergraduate research assistant position is available in the Schizophrenia Center at the Johns Hopkins School of Medicine for credit. The center seeks a talented and highly motivated individual to pursue translational/clinical research projects, including a) first episode psychosis project, and b) chronic schizophrenia and mood disorder project. Primary purposes include 1) to identify biomarker candidates, and 2) to generate hypotheses for pathophysiology of psychiatric disorders.

A successful candidate will work with interdisciplinary teams to analyze molecular profiling data (microarray, RNA-Seq, Ribo-Seq, etc.) and brain imaging data (MRI, fMRI, and MRS) as well as integrate data across clinical and molecular data layers. He/she will be co-mentored by multiple faculty members inside the Schizophrenia Center, including faculties expertise in data science, molecular science, brain imaging, and clinical psychiatry. Interested students should have experience in using cutting-edge computational methods to analyze data, and a background in biostatistics. Proficiency in at least two of the following languages: R, Python, Ruby, C++ is highly encouraged.

Please send CV to [JHSZC@jhu.edu](mailto:JHSZC@jhu.edu) or contact Aditi Trivedi at [atrived3@jhu.edu](mailto:atrived3@jhu.edu) or 443-287-4986.

## Volunteer Opportunity in a Community-Based Study on Chagas Disease

A research project is being conducted by researchers at the Johns Hopkins School of Public Health and the non-profit organization Latin American Society of Chagas Disease (LASOCHA) to estimate the burden of Chagas disease and cardiac abnormalities in the Latin American population in the Baltimore Washington Metropolitan Area. Chagas disease is a parasitic infection that affects mainly Latin Americans and is considered one of the main causes of cardiomyopathy in this population.

Volunteers will be participating in data collection, educating community members about Chagas disease, performing rapid tests of Chagas disease, performing epidemiologic interviews, assisting cardiologists during electrocardiogram and echocardiogram evaluations, and organizing materials and documents. Volunteers must be undergraduate or graduate students in the subjects: medicine, nursing, biology/biochemistry, social sciences or public health, and fluency in Spanish is preferable.

For more information and how to apply please contact Yagahira Castro, [ycastr01@jhu.edu](mailto:ycastr01@jhu.edu) or (667)207-3330.

## Paid Jobs and Internships

### Advocacy Communications Intern at PATH

PATH is an international organization that drives transformative innovation to save lives and improve health, especially among women and children.

---

The intern will grow expertise of global health advocacy practices as well as best practices for communicating to a range of stakeholders.

See more details [here](#).

### Communications Research Assistant Position Available at DataDENT

The Institute for International Programs at Johns Hopkins University (IIP-JHU) is seeking a Communications Research Assistant to support the DataDENT (Data for Decisions to Expand Nutrition Transformation) project.

See more details [here](#). To apply for this position send an email inquiry and resume to Brittany Furgal (bfurgal1@jhu.edu). Please state your interest in the position and qualifications.

## Job opportunity: Research Assistant

- Interested in...
  - Working with the **Rakai Health Sciences Program (RHSP)**, a well-known research and programs group in the HIV epidemiology and prevention world?
  - Gaining experience in public health research and administration?
  - Engaging in cross-cultural collaboration? Key groups include: RHSP/Makerere University (Uganda), JHU (Baltimore), Columbia (NYC), UCSD (San Diego), UCL (London), Oxford, Karolinska Institute (Sweden), and more
- A team of Johns Hopkins professors at the Schools of Medicine and Public Health who work with RHSP is seeking a research assistant!
- Explore [www.rhsp.org](http://www.rhsp.org)
- Contact Teresa [teresa.yeh@jhu.edu](mailto:teresa.yeh@jhu.edu) for more information!

### Chronic Disease Job Opportunity

The Clinical Services Innovation Team at CVS Health drives medication adherence and other health behavior change programs to support 70 million+ patients using our retail pharmacies on their path to better health. Examples of our programs and services include pharmacist consultation programs, interactive text messaging, programs to help patients manage costs, and other automated services.

They are seeking an innovation intern through the end of 2018 to help identify new health innovations, test them with small samples of patients, partner with IT teams to build and scale successful innovations to all 10,000 of our retail pharmacies, and implement change management strategies with field partners. This individual will be part of an established diverse team with pharmacist, business, and healthcare backgrounds that drive program growth at an accelerated pace.

Some roles include: advancing a portfolio of HIV treatment adherence interventions including proof-of-concept testing, refining the business case, and project planning/IT requirements; conducting primary and secondary research to assess new opportunities, proof of concept test early ideas, and build business cases; providing operational support on a human centered design lab. In order to qualify, you should have 1-3 prior years of experience in a healthcare organization, have significant experience in Excel and Powerpoint, strong communication skills, and familiarity with behavioral science and design thinking.

For any questions please contact Aarthi Rao, [Aarthi.Rao@CVSHealth.com](mailto:Aarthi.Rao@CVSHealth.com). To apply email Mr. Rao with a cover letter and resume.

### **Research Assistant/Study Coordinator Position**

A Research Assistant is needed to serve as a Study Coordinator for a federally-funded project on Acceptance and Use of Mobile Apps for Commercial Fishing Safety. The project will field test two mobile apps that have been developed to address safety concerns in the commercial fishing industry, one of the most hazardous industries in the United States.

The Study Coordinator will work on the Homewood campus and will provide organizational and logistical support for the project during the summer of 2018, with the possibility of continuing during the 2018-19 academic year. The Study Coordinator will assist with preparation of materials for participant recruitment and data collection and will oversee participant enrollment, follow-ups, and compensation. The Study Coordinator will assist with background research and will be responsible for updating literature searches and maintaining a bibliographic database of literature related to the project. The Study Coordinator may assist with preparation of manuscripts and presentations.

See [this link](#) for more information. To apply, send a resume and cover letter to Maria Bulzacchelli ([mbulzac1@jhu.edu](mailto:mbulzac1@jhu.edu))

### **Research Assistant/Data Collector Positions Available for This Summer**

Several Data Collectors are needed to recruit and interview participants for a federally-funded project on Acceptance and Use of Mobile Apps for Commercial Fishing Safety. The project will field test two mobile apps that have been developed to address safety concerns in the commercial fishing industry, one of the most hazardous industries in the United States.

Each Data Collector will be responsible for recruiting study participants from fishing ports in one of four coastal regions (Maine, New Hampshire-North Shore of Massachusetts, New Bedford-Cape Cod, and Rhode Island-Connecticut). Data Collectors will participate in some training in the early part of the summer and will then go into the field to recruit and interview participants over a 6-week period during July and August 2018.

See [this link](#) for more information. To apply, send a resume and cover letter to Maria Bulzacchelli ([mbulzac1@jhu.edu](mailto:mbulzac1@jhu.edu))

## Community Law in Action (CLIA) Internships

Community Law in Action (CLIA), a nonprofit based on the University of Maryland, Baltimore campus that advocates for juvenile justice reform in Maryland, is hiring part-time interns to help implement and manage a Communications campaign that aims to increase public awareness around youth in the justice system. This opportunity begins with the summer term, with the potential to continue into the fall semester. Tasks include:

- Strategizing on and implementing social media campaigns related to Baltimore City youth and criminal justice reform using Facebook, Instagram, and Twitter;
- Launching an email newsletter that aims to engage the public at the intersection of art, community partner collaborations, and Baltimore City youth;
- Conducting research around juvenile justice issues in Maryland and creating corresponding data visualizations;
  - Creating a podcast focused on youth and the juvenile justice system; and
- Conducting outreach and growing visibility for juvenile justice reform in order to more effectively introduce this narrative of reform to the public.

Interns will be asked to log 10 hours per week, 80% of which can be completed remotely, for a stipend of \$100 per week plus parking reimbursements. For an application, please send a copy of a your resume to Sarah Wall, CLIA's Government Relations Manager, at [sarah@cliayouth.org](mailto:sarah@cliayouth.org). See more information [here](#).

## Forensic Medical Intern - JFC Consulting LLC

Owned by a physician and graduate of JHU (BA 2003, MPH 2004), JFC Consulting LLC is a Westchester County based forensic medical-legal consulting practice focused on child abuse/neglect and post-injury damages assessments (life care plans). The candidate will be interested in a medical career with excellent writing skills. He/she should have housing in the Westchester area within 30 minutes of White Plains, a car and a laptop. The position is paid on an hourly sub-contractor basis for approximately 20 hours per week. Candidate will learn medical and legal record review skills, database medical cost analysis and research relevant forensic medical topics. Opportunities also available for unpaid internship time at a local academic medical center. Deadline for application: August 1, 2018. Contact by email only: Katie Peterson, LPN: [KPeterson@forensicpediatrics.com](mailto:KPeterson@forensicpediatrics.com) with statement of interest and CV.

## Department of Epidemiology Job Opening

The Department of Epidemiology is seeking a full time Research Assistant responsible for assisting two PIs (Drs. Shruti Mehta and Priya Duggal) in coordinating the activities of their domestic and international research studies. Dr. Mehta's research focuses on HIV and HCV, and Dr. Duggal's research focuses on genetic susceptibility to infectious disease. Duties will include study and meeting coordination, protocol and survey development, and assistance with IRB and grant applications and progress reports. Compensation ranges from \$15.78 - \$21.96 per hour, commensurate with experience. This job is open to graduating seniors. To apply, search for requisition 9805 at [jobs.jhu.edu](http://jobs.jhu.edu). Contact Nicole Thornton, [nthornt4@jhu.edu](mailto:nthornt4@jhu.edu), with any questions.

## Research Assistant Position for Arrhythmia Study

There is a research assistant position available on the Hopkins East Baltimore medical campus. The main function of this position will be to Screen, recruit, and assess patients with kidney disease for a study focused on arrhythmia and heart function in patients on dialysis.

The research assistant will also be expected to: review patient recruitment lists and preparing necessary packets for enrollment (e.g. necessary instruments, consent forms); conduct baseline and brief periodic follow-up evaluations by administering standardized structured interview in-person; keep accurate records of all contact made with study participants; responsible for entering data from paper and telephone evaluations into the study REDcap database and for responding to quality control queries as needed; assure accurate data collection, data cleaning, and data entry; and provide clerical support as needed

The pay is \$15-19 per hour. Hours are flexible with daytime, evening, and weekend shifts available. To apply, contact Chloe Knight [chloe.knight@jhmi.edu](mailto:chloe.knight@jhmi.edu)

Researchers will be travelling to Dialysis clinic facilities located in Baltimore metropolitan area. Will need a car to travel to sites.

### **Paralegal for the National Association of Attorneys General (NAAG)**

The National Association of Attorneys General (NAAG) is hiring a paralegal for their Center for Tobacco and Public Health. NAAG Center for Tobacco and Public Health specializes in matters related to the 1998 tobacco Master Settlement Agreement (MSA) and is dedicated to helping the attorneys general of the signatory states (Settling States) interpret, implement, and enforce this agreement. The NAAG Tobacco Center provides legal counsel and representation to the Settling States to assist them in preserving and enforcing the MSA's monetary and public health mandates.

In addition to providing the Settling States with counsel specializing in the MSA, the Tobacco Center will:

- Advise, support, and represent the Settling States in MSA-related litigation and arbitrations
- Represent the Settling States in bankruptcy cases filed by tobacco manufacturers
- Monitor MSA payments and the disbursement process, as well as corroborate the Independent Auditor's yearly payment calculations,
- Monitor tobacco companies' compliance with the MSA's payment and public health provisions, including advertising restrictions

To learn more about the position and to apply, click [here](#).

Questions can be sent to Tamara Schlinger at [tschlinger@naag.org](mailto:tschlinger@naag.org).

### **Research Assistant**

The Early Childhood Services Research Program at the Johns Hopkins School of Public Health is currently recruiting a Research Assistant. The Early Childhood Services Research Program is dedicated to conducting high-quality, utilization-focused research across the United States to improve the life course of families with young children.

The ideal candidate for the position is a graduating senior who is self-motivated, responsible, and detail-oriented with excellent people skills and organizational abilities.

The primary responsibilities for this position will be to work with the Project PI and Program Coordinators on several local and national research studies, maintain a database of practice-based home visiting research network members, and assist with management tasks.

To apply, search for requisition 9904 at [jobs.jhu.edu](http://jobs.jhu.edu). Contact Kay O'Neill at [koneill@jhu.edu](mailto:koneill@jhu.edu) with any questions.

### **Gap Year Opportunity**

Dr. Frank Lin, an Associate Professor in the School of Medicine and the Bloomberg School of Public Health and the director of the Cochlear Center for Hearing and Public Health, is looking for a research program assistant for a community-based clinical trial of an affordable and accessible hearing loss intervention for older adults that is delivered by trained community health workers. This person will be responsible for data collection from older adults who are living independently in senior living residential building throughout Baltimore City. This individual will directly interface and coordinate with community partners to recruit study participants, gather questionnaire and other outcome data, and oversee participant involvement in the study. This job requires extreme attention to detail and for the individual to be self-motivated and to work and solve problems. This position would ideally require a 1-2 year commitment for the duration of the clinical trial. Manuscript authorship and other research opportunities are available pending the candidate's interest. Access to personal transportation is required. This opportunity is an ideal 1-2 year gap year position before medical or graduate school.

For more information, please directly contact Frank Lin, MD, PhD  
Email: [flin1@jhmi.edu](mailto:flin1@jhmi.edu)

### **Science and Strategy Intern Position with Radiant Earth**

Radiant.Earth seeks a Science and Strategy Intern with experience in scientific research and information management and a passion for global development to conduct literature reviews and online research. Working with the Chief Science Officer, s/he will compile, analyze and synthesize data related to the use of geospatial reference and remote sensing in global development sector. At the crossroad of global development and data science, this internship will provide the student with a unique experience blending multiple sectors that will help scale the use of Earth observation data by practitioners focused on addressing operational challenges in the Global South. Interns will be considered for authorship on publications to which they make a substantive written contribution.

The Science and Strategy Intern will report directly to the company's Chief Science Officer in Washington DC. See more details on compensation and how to apply [here](#).

### **Hiring Research Assistant - Diabetes mHealth Tool**

The Diabetes Networking Tool (DNT) is a mobile health (mHealth) application that enhances Type II diabetes (T2D) patients' ability to self-manage and avoid disease complications by bolstering family, household, and community-based support mechanisms. This app is targeted for T2D patients living in Southwest Baltimore.

Applicants must have excellent interpersonal skills, be responsible, and be comfortable with diverse communities. Preferred skills include experience with mHealth, knowledge of nutrition and/or diabetes. Students are expected to work 8 hours per week and compensation is yet to be determined. The position will begin as soon as possible.

Responsibilities include recruiting potential users of the app (including consenting and enrolling participants into the study), following-up with participants, collecting qualitative information, reporting user-problems, and assisting in IRB related work.

To apply, submit cover letter, resume, and 2 references (preferably from supervisors) to Pamela Surkan at [psurkan@jhu.edu](mailto:psurkan@jhu.edu).

### 2018 GEMS Sites now recruiting student team members

Are you interested in tackling global health problems with a diverse, multidisciplinary team? Apply for one of several positions available through five Global Established Multidisciplinary Sites (GEMS) this year. Positions are recruiting for students from a variety of disciplines, including public health, medicine, education, and nursing. In previous years, GEMS students have worked together to inform development of mobile platforms for integrated care, novel autism screening tools, and population – level COPD assessments, among many opportunities. See [here](#) for descriptions of the 2018 sites and PI contact information.

### Collective Health Hiring for Operations Associate and Member Advocate

Collective Health is a health-tech company in San Francisco that is creating a better healthcare experience from the ground-up. The company is 4 years old and growing quickly! The Operations team is the engine of the business, operating the core processes that power the business. Collective Health is backed by some of the best investors in Silicon Valley and have been ranked the No. 2 Tech Company to Watch by the [Wall Street Journal](#). They have also been voted as the best Health Tech company to work for by [Rock Health](#).

Candidates should be intellectually curious and self-motivated people with 0-2 years of experience. They are hiring several people for these two roles, with start dates ranging from February-late summer: Operations Associate: <http://grnh.se/kaorcd1> Member Advocate <http://grnh.se/37p5ws1>

Questions can be directed to PHS Hopkins alumnus Ian Colrick at [icolric1@jhu.edu](mailto:icolric1@jhu.edu).
