Hello Students –

Next week is the Thanksgiving break!! Take some time to relax, eat some good food and hopefully, visit family. Remember – we are still in the midst of this pandemic so please practice safety during this break.

Dr. Trageser’s office hours:
If you would like to chat please set up an appointment!

REMEMBER, WE ARE HERE FOR YOU!

If you are having any difficulties this semester please make sure you are communicating with your instructors. This is going to be more important than ever. Please remember, all us in the Neuroscience Program are here to support each other!

| **SPRING REGISTRATION ONGOING** | Undergraduate registration for Spring 2021 continues for the students below and opens at 7:00 a.m. on the following days:

November 16th – Juniors
November 18th – Sophomores
November 20th – Freshmen |
|-------------------------------|--------------------------------------------------------------------------------------------------|
| **HOPKINS UNDERGRADUATE RESEARCH JOURNAL (HURL)** | The Hopkins Undergraduate Research Journal (HURL) compiles STEM and humanities undergraduate research into a journal for faculty, staff and student to read. The journal helps to celebrate undergraduate work, which we find especially important given the current undergraduate climate. Please click this link to submit research.

The deadline for submission for the next journal is December 1st. |
| **DAVID S. OLTON RESEARCH AWARD** | Due to the uncertain nature of Spring research the Olton Research Award submission date has been moved to December 1, 2020. The application description has also been updated.

Go to Research Grants & Awards at:

| **BROAD SUMMER RESEARCH PROGRAM** | The Broad Summer Research Program (BSRP) offers students with a demonstrated commitment to promoting diversity and inclusion in STEM disciplines the opportunity to conduct intensive research in a collaborative community.

BSRP participants spend the summer performing original computational or experimental-based research in labs across the Broad Institute’s research areas, from cancer to infectious disease to computational biology. In addition, the program features a rich curriculum outside the lab that emphasizes career development, personal development, and teamwork in a small cohort.

Deadline: January 11, 2021 |
### BROAD BIOMEDICAL POSTBAC SCHOLARS PROGRAM

An innovative, two-year program, **BBPS** offers participants a comprehensive, structured and immersive experience that includes groundbreaking research and academic and career guidance. BBPS participants will carry out research as paid, full-time Associate Computational Biologists or Research Associates, working alongside leading scientists within the Broad Institute.

Eligibility - seniors or recent graduates who majored in the biological, physical or computer sciences, engineering or mathematics, and are interested in pursuing a graduate degree (M.S., Ph.D., M.D./Ph.D.)

Deadline: January 18, 2021
