

Kevin Charles Schlaufman

JHU P&A, 3400 N Charles St, Baltimore, MD 21218 · (410) 516-3295 · kschlaufman@jhu.edu · www.kevinschlaufman.com

Professional Appointments

Assistant Professor , Rowland Department of Physics and Astronomy, Johns Hopkins University	2017 – Present
Carnegie-Princeton Fellow , Carnegie Observatories and Princeton University	2015 – 2016
Kavli Fellow , Kavli Institute for Astrophysics and Space Research, MIT	2012 – 2015
Senior Data Scientist , LinkedIn Corporation	2011 – 2012

Education

UC Santa Cruz , MS and PhD in Astronomy and Astrophysics	2006 – 2011
Stanford University , MS in Scientific Computing and Computational Mathematics <i>Statistics Concentration</i>	2004 – 2006
Penn State , BS in Mathematics and BS in Astronomy and Astrophysics <i>Honors and High Distinction plus minor in Physics</i>	2000 – 2004

Honors and Awards

Infinite Kilometer Award , MIT School of Science <i>Recognized for routinely working beyond my assigned responsibilities and for exceptional contributions to the community</i>	2013
Chancellor's Dissertation-Year Fellowship , UC Santa Cruz Graduate Division <i>Recognized as part of the top 10% of my PhD graduating class and awarded \$35,000 grant</i>	2010 – 2011
Graduate Research Fellowship , National Science Foundation <i>Recognized as part of the top 5% of all science and engineering PhD students nationwide and awarded \$121,500 grant</i>	2007 – 2010
Whitford Prize , UC Santa Cruz Astronomy and Astrophysics Department <i>Recognized as outstanding overall student in the first two years of the PhD program</i>	2008
Marshall Award , Penn State Astronomy and Astrophysics Department <i>Recognized as the top undergraduate major in my graduating class</i>	2004
Evan Johnson Award , Penn State Mathematics Department <i>Recognized as one of the top students in the mathematics major</i>	2003 & 2004
Kermit C. Anderson Scholarship , Penn State Mathematics Department <i>Recognized as one of the top students in the mathematics major</i>	2003
Evan Pugh Scholar Award , Penn State <i>Recognized as top 0.5% percent of graduating class</i>	2003
Elected to ΦBK , Penn State	2003

Principal Investigator Grants

NASA TESS Guest Investigator Program Cycle 2 (\$50,000) <i>Using the Metallicity Effect for Small Planets to Explore Planet Formation</i>	2020
Space@Hopkins Seed Grant (\$21,668) <i>New Insights into Planet Formation with NASA's Transiting Exoplanet Survey Satellite (TESS)</i>	2018 – 2019
Maryland Space Grant (\$14,000) <i>Undergraduate Research Assistantships in Galactic and Extragalactic Astronomy</i>	2018

Invited Colloquia

Carnegie Institution for Science , Department of Terrestrial Magnetism <i>Planet Formation and Evolution in the Big Data Era</i>	May 2019
Columbia University , Department of Astronomy <i>An Extraordinary Ancient Binary Star System</i>	February 2019
Johns Hopkins University , Faculty Forum <i>Planets Around Other Stars and the Search for Other Earths</i>	February 2019
Notre Dame University , Department of Physics Astrophysics Seminar <i>The Maximum Masses of Planets and the Minimum Metallicities of Long-lived Stars</i>	January 2019
Johns Hopkins University , Institute for Data Intensive Engineering and Science <i>The Importance of Broad and Deep Domain Knowledge in Data Intensive Engineering and Science</i>	November 2018
Yale University , Department of Astronomy <i>The Maximum Mass of a Planet</i>	April 2018

Space Telescope Science Institute , Joint JHU/STScI Colloquium <i>The Maximum Mass of a Planet</i>	February 2018
Johns Hopkins University , Henry A. Rowland Department of Physics and Astronomy <i>What is—and is not—a Planet</i>	February 2017
Carnegie Institution for Science , Observatories <i>The Origin of Hot Jupiters</i>	November 2016
The Ohio State University , Department of Astronomy <i>The Origin and Fate of Hot Jupiters</i>	November 2015
California Institute of Technology , Division of Geological and Planetary Sciences <i>The Origin of Planets Found Close to Their Host Star</i>	November 2015
Johns Hopkins University , Henry A. Rowland Department of Physics and Astronomy <i>Data-Intensive Astrophysics in the 21st Century: The Oldest Stars and the Origin of Hot Jupiters</i>	April 2015
Leiden University , Leiden Observatory <i>Data-Intensive Astrophysics in the 21st Century: The Oldest Stars and the Origin of Hot Jupiters</i>	March 2015
UC Berkeley , Astronomy Department <i>Data-Intensive Astrophysics in the 21st Century: The Oldest Stars and the Origin of Hot Jupiters</i>	March 2015
University of Toronto , Dunlap Institute for Astronomy and Astrophysics <i>Data-Intensive Astrophysics in the 21st Century: The Oldest Stars and the Origin of Hot Jupiters</i>	February 2015
Princeton University , Department of Astrophysical Sciences <i>Data-Intensive Astrophysics in the 21st Century: The Oldest Stars and the Origin of Hot Jupiters</i>	February 2015
Johns Hopkins University , Henry A. Rowland Department of Physics and Astronomy <i>Data-Intensive Planet Formation</i>	March 2014
University of Virginia , Department of Astronomy <i>Data-Intensive Planet Formation</i>	March 2014
MIT , Physics Faculty Lunch <i>A Planet Puzzle</i>	September 2013

Seminars

Aarhus University , Stellar Astrophysics Centre Seminar <i>The Typical Terrestrial-mass Planet Discovered by Transit Surveys and Its Implications for Planet Formation and Evolution</i>	August 2019
University of Copenhagen , DARK Cosmology Centre Seminar <i>An Extraordinary Ancient Binary Star System</i>	August 2019
Princeton/IAS , Planet/Exoplanet Discussion Group <i>The Giant Planet–Host Star Metallicity Correlation for Hot Stars</i>	January 2019
National Optical Astronomy Observatory , Friday Scientific Lunch Talk <i>The Maximum Mass of a Planet</i>	May 2018
Yale University , Stellar Tea Talk <i>The Fate of Hot Jupiters</i>	November 2013
Harvard-Smithsonian Center for Astrophysics , Solar, Stellar, and Planetary Sciences Division <i>The Fate of Hot Jupiters (and the Earth too)</i>	May 2013
Boston University , Department of Astronomy <i>The Fate of Hot Jupiters (and the Earth too)</i>	April 2013
UC Santa Cruz , Friday Lunch Astrophysics Seminar Hour <i>Kepler Exoplanet Candidate Host Stars Are Preferentially Metal Rich</i>	September 2011
Princeton University , Department of Astrophysical Sciences <i>Halo Substructure and Milky Way Formation</i>	December 2010
Harvard-Smithsonian Center for Astrophysics , Institute for Theory and Computation <i>Halo Substructure and Milky Way Formation</i>	September 2010
Space Telescope Science Institute <i>Halo Substructure and Milky Way Formation</i>	September 2010
Penn State , Department of Astronomy and Astrophysics <i>Halo Substructure and Milky Way Formation</i>	September 2010
Stanford University , Kavli Institute for Particle Astrophysics and Cosmology <i>Milky Way Structure and Formation as Revealed By Cold Halo Substructure</i>	April 2010
UC Santa Cruz , Summer Friday Lunch Astrophysics Seminar Hour <i>Super-Earth Formation as Revealed by Kepler</i>	July 2009
UC Santa Cruz , Summer Friday Lunch Astrophysics Seminar Hour <i>The Signatures of the Ice Line and Modest Type I Migration in the Observed Exoplanet Mass–Semimajor Axis Distribution</i>	June 2008
UC Santa Cruz , Friday Lunch Astrophysics Seminar Hour	October 2007

The Stellar Accretion History of the Milky Way Through Halo Substructure

Invited Conference Talks

NASA Goddard–JHU Interaction Day <i>Planet Formation in the Next Decade</i>	October 2018
NASA Goddard–JHU Interaction Day <i>Exoplanet Research at JHU</i>	October 2017
Chesapeake Bay Area Exoplanet Meeting <i>Exoplanet Research at JHU</i>	October 2017
IAUS 317: The General Assembly of Galaxy Halos: Structure, Origin and Evolution <i>The Most Ancient Stars in the Milky Way's Halo</i>	August 2015
Planetary Population Synthesis: The Predictive Power of Planet Formation Theory <i>Kepler, Exoplanet Population Synthesis, and Tidal Evolution</i>	December 2010

Contributed Conference Talks

Chesapeake Bay Area Exoplanet Meeting <i>The Typical Terrestrial-mass Planet Discovered by Transit Surveys and Its Implications for Planet Formation and Evolution</i>	September 2019
Into the Starlight: The End of the Cosmic Dark Ages <i>An Ultra Metal-poor Star Near the Hydrogen-burning Limit</i>	March 2019
Stellar Archaeology as a Time Machine to the First Stars <i>An Ultra Metal-poor Star Near the Hydrogen-burning Limit</i>	December 2018
Exoplanets II <i>Evidence of an Upper Bound on the Masses of Planets and its Implications for Giant Planet Formation</i>	July 2018
Exoplanets Orbiting Hot Stars <i>The Giant Planet–Host Star Metallicity Correlation for Hot Stars</i>	June 2018
Stellar Abundances in Dwarf Galaxies <i>The Most Metal-poor Stars in the Large Magellanic Cloud</i>	June 2018
Chesapeake Bay Area Exoplanet Meeting <i>The Maximum Mass of a Planet</i>	May 2018
Chemical Evolution of the Universe <i>The Most Metal-poor Stars in the Large Magellanic Cloud</i>	September 2017
Kepler & K2 Science Conference IV <i>Joint Spectroscopic and Asteroseismic Analysis of Very Metal-poor Stars in the Kepler Field</i>	June 2017
4th Magellan Science Symposium <i>Magellan, Metal-poor Stars, and the $z > 15$ Universe</i>	December 2016
White Research Conference on Galactic Archaeology & Stellar Physics <i>Joint Spectroscopic and Asteroseismic Analysis of Very Metal-poor Stars in the Kepler Field</i>	November 2016
Exoplanets in the Era of Extremely Large Telescopes <i>Exoplanets in Open Clusters in the Era of Extremely Large Telescopes</i>	September 2016
ExSoCal2016: An Exoplanet Orbital Interaction <i>A Long-period Multiple-transiting Giant Planet System with Evidence of High Stellar Obliquity</i>	September 2016
Astrophysics with the SPHEREx All-sky Spectral Survey <i>Metal-poor Stars and Milky Way Formation with SPHEREx</i>	February 2016
Carnegie Science Origins Meeting <i>The Number of Solar System Analogs in the Galaxy</i>	October 2015
OHP 2015: Twenty Years of Giant Exoplanets <i>Architectural and Chemical Insights into the Origin of Hot Jupiters</i>	October 2015
ExSoCal2015: An Exoplanet Orbital Interaction <i>Bayes' Theorem Reveals that Hot Jupiters are not Lonely</i>	September 2015
XXIX IAU Focus Meeting 1: Dynamical Problems in Extrasolar Planet Science <i>Architectural Insights into the Origin of Hot Jupiters</i>	August 2015
First Stars, Galaxies, and Black Holes: Now and Then <i>The Most Ancient Stars in the Milky Way?</i>	June 2015
8th Annual MKI Postdoc Symposium <i>The Best and Brightest Metal-poor Stars</i>	April 2015
WISE at 5: Legacy and Prospects <i>The Best and Brightest Metal-Poor Stars</i>	February 2015

The Milky Way and its Stars: Stellar Astrophysics, Galactic Archaeology, and Stellar Populations <i>The Best and Brightest Metal-Poor Stars</i>	February 2015
225th American Astronomical Science Meeting <i>The Best and Brightest Metal-Poor Stars</i>	January 2015
Wide-field InfraRed Surveys: Science and Techniques <i>An Infrared Search for the First Stars</i>	November 2014
Characterizing Planetary Systems Across the HR Diagram <i>Observational Insight into the Effect of Stellar Evolution on Exoplanet Systems</i>	July 2014
7th Annual MKI Postdoc Symposium <i>Planet Formation in Close-In Systems of Multiple Planets</i>	May 2014
223rd American Astronomical Science Meeting <i>The Fate of Hot Jupiters</i>	January 2014
The Second Kepler Science Conference <i>Planet Formation in Kepler Multiplanet Systems</i>	November 2013
6th Annual MKI Postdoc Symposium <i>The Fate of Hot Jupiters (and the Earth too)</i>	April 2013
Exoplanets in Multi-body Systems in the Kepler Era <i>Metallicity Trends in Kepler Planets</i>	February 2013
221st American Astronomical Science Meeting <i>Hosts of Multiplanet Systems are Preferentially Metal-Rich</i>	January 2013
The First Kepler Science Conference <i>Kepler Exoplanet Candidate Host Stars are Preferentially Metal Rich</i>	December 2011
217th American Astronomical Science Meeting <i>Halo Substructure and Milky Way Formation</i>	January 2011
Cosmology in Northern California '10 <i>Halo Substructure and Milky Way Formation</i>	October 2010
SEGUE-2 Science Meeting <i>The Chemistry, Kinematics, and Origin of Elements of Cold Halo Substructure (ECHOS)</i>	February 2010
The Milky Way and the Local Group - Now and in the Gaia Era <i>The Stellar Accretion History of the Milky Way Through Cold Halo Substructure</i>	September 2009
Cosmology in Northern California '09 <i>Insight Into the Formation of the Milky Way Through Cold Inner Halo Substructure</i>	May 2009
Santa Cruz Galaxy Formation Workshop 2008 <i>The Stellar Accretion History of the Milky Way Through Halo Substructure</i>	August 2008
Sloan Digital Sky Survey Science: From Asteroids To Cosmology <i>The Stellar Accretion History of the Milky Way Through Halo Substructure</i>	August 2008

Teaching

AS.171.301 Electromagnetic Theory II , 23 students, 4 credit hours	Fall 2019
AS.171.416 Numerical Methods for Physicists , 12 students, 4 credit hours	Spring 2019
AS.171.610 Numerical Methods for Physicists , 1 student, 4 credit hours	Spring 2019
AS.171.301 Electromagnetic Theory II , 24 students, 4 credit hours	Fall 2018
AS.171.416 Numerical Methods for Physicists , 1 student, 4 credit hours	Spring 2018
AS.171.502 Undergraduate Independent Research , 1 student, 3 credit hours	Spring 2018
AS.171.610 Numerical Methods-Physics , 11 students, 4 credit hours	Spring 2018
AS.171.301 Electromagnetic Theory II , 28 students, 4 credit hours	Fall 2017
AS.171.597 Independent Research , 1 student, 3 credit hours	Summer 2017
AS.171.644 Exoplanets and Planet Formation , 12 students, 3 credit hours	Spring 2017

Undergraduate Mentorship

Primary research mentees are **bolded**.

Evan Petrosky (JHU undergraduate advisee)	Fall 2018 – Present
Turner Woody (JHU independent research mentor)	Summer 2018 – Present
Karl Osterbauer (JHU independent research mentor)	Spring 2018 – Present
Andrew King (JHU undergraduate advisee)	Fall 2017 – Present
Noah Halpern (JHU independent research mentor)	Spring 2019
Theo Cooper (JHU independent research mentor)	Summer 2017
Caroline Chin (MIT UROP mentor)	Summer 2013

Graduate Mentorship

Primary research mentees are **bolded**.

Xinyu “Cicero” Lu (JHU academic thesis advisor)	September 2019 – Present
Jonathan Aguilar (JHU academic thesis advisor)	January 2019 – Present
Erini Lambrides (JHU thesis committee)	May 2018 – Present
Jacob Hamer (JHU research mentor)	September 2017 – Present
Xinyu “Cicero” Lu (JHU research mentor)	September 2017 – August 2019
Caroline Huang (JHU thesis committee)	May 2017 – September 2019
Bin Ren (JHU academic thesis advisor)	January 2017 – May 2019
Jonathan Aguilar (JHU thesis committee)	May 2017 – January 2019
Caroline Huang (JHU thesis defense committee)	September 2019
Kirill Tchernyshyov (JHU thesis defense committee)	July 2019
Michael Busch (JHU GBO committee)	November 2018
Hsiang-Chih Hwang (JHU GBO committee)	October 2018
Iskandar Atakhodjaev (JHU thesis defense committee)	August 2018
Chi Yan (JHU GBO committee)	February 2018
Lei “Raymond” Feng (JHU thesis defense committee)	January 2018
Devin Crichton (JHU thesis defense committee)	July 2017
Schuyler Wolff (JHU thesis defense committee)	July 2017
Can “Candice” You (JHU thesis defense committee)	June 2017
Bin Ren (JHU GBO committee)	March 2017

Service Activities

Chair , JHU Telescope Time Allocation Committee	2019 – Present
Member , JHU Physics and Astronomy Department Davis Fellowship Committee	2018 – Present
Non-academic Career Advisor , JHU Physics and Astronomy Department	2018 – Present
Member , Chesapeake Bay Area Exoplanet Meeting Scientific Organizing Committee	2017 – Present
Contributor , JHU Physics and Astronomy Department Physics Fair	2017 – Present
Member , JHU Physics and Astronomy Department Computer Committee	2017 – Present
Member , JHU Physics and Astronomy Department Joint JHU/STScI Colloquium Committee	2017 – Present
Member , JHU Physics and Astronomy Department Recruitment Committee	2017 – Present
Referee , Astrophysical Journal, A&A, MNRAS, NASA, NSF, and Science	2011 – Present
Member , Space Telescope Science Institute Exoplanet Search Committee	2018 – 2019
Member , National Optical Astronomy Observatory Time Allocation Committee	2016 – 2018
Speaker , JHU Center for Astrophysics Research Experience (CARE) Program Lecture Series	2017
Contributor , JHU Physics and Astronomy Department Homecoming Reception	2017
Speaker , JHU Society of Physics Students Lecture Series	2017
Contributor , Pasadena Astronomy Week Astronomy Festival	2016
Contributor , Carnegie Open House	2016
Speaker , Carnegie Observatories Lecture Series	2016
Co-Organizer , MIT MKI IAP Activities	2014
Co-Organizer , MIT MKI Postdoc Symposium	2013
Speaker , MIT MKI IAP Lecture Series	2013
Member , UC Santa Cruz Astronomy and Astrophysics Department Admissions Committee	2011
Co-organizer , UC Santa Cruz Astronomy and Astrophysics Department FLASH	2010 – 2011
Science Speaker , Lick Observatory Summer Visitor’s Program	2008 – 2011
Organizer , UC Santa Cruz Astronomy and Astrophysics Department Summer FLASH	2008 – 2010
Graduate Representative , UC Santa Cruz Academic Senate Committee on Planning and Budget	2008 – 2010
Chair , UC Santa Cruz Graduate Student Health Insurance Committee,	2008 – 2009
Outreach Coordinator , Kavli Institute for Particle Astrophysics and Cosmology	2004 – 2005
