TEACHING AND ADVISING

Undergraduate

The Politics of Food: *Surveys the variety of policy issues associated with food and agriculture. Topics include food and nutrition programs, the politics of agricultural subsidies, and debates over the health effects of obesity.*

Introduction to American Politics: *Examines ideas, interests, and institutions of American politics with particular attention paid to the struggle between white supremacy and efforts to forge a multi-racial democracy.*

Thesis Colloquium: *Explores elements of research methods and scholarly writing commonly found in Political Science including quantitative and qualitative methods, hypothesis testing, case studies, and ethnography.*

Introduction to Social Policy and Inequality: Baltimore and Beyond: *Introduces students to basic concepts in Economics, Political Science, and Sociology relevant to the study of social problems and the programs designed to remedy them. Co-taught with faculty from Economics and Sociology*

The American Presidency: *Traces the historical development of the presidency, the operation of the presidency in contemporary American politics, and the components of presidential leadership.*

Graduate

American Political Development: *Examines the evolving character of the American state and the politics of race in the study of political institutions.*

The Development of American Political Institutions: *Examines the development of the American party system, the evolution of congressional institutions, and the changing relationship between the presidency and the public.*

Pragmatism and Politics: *An inquiry into pragmatist philosophy and its application to the empirical study of politics using readings drawn from classical and recent texts in philosophy, sociology, economics, and political science.*
