INFORMATION SESSION FOR:
The Social Policy Minor and its Policy Fellowship Semester. 
Thursday, October 11, 5:30 – 6:30 PM. 
Mergenthaler 526

- The Social Policy Minor admits 15 students per year into its program. Students study policies and practices that promote the economic and social well-being of individuals, families and communities in areas such as poverty and inequality, housing, education, and health.
- The heart of the Minor is its Policy Fellowship Semester, usually taken in the spring of junior year. Students take 5 specially designed courses in aspects of social policy and do an internship in Baltimore or Washington DC for 15 to 20 hours.
- Prerequisite: 360.247, Introduction to Social Policy and Inequality: Baltimore and Beyond.
- Graduates of the program have taken staff positions in Congress and in Washington DC policy and research organizations, as well as in Baltimore nonprofit service organizations.
  - Graduates have gone on to graduate studies in law, medicine, and public health.
  - Students with all majors are welcome to apply.

For more information, contact Prof. Andrew Cherlin, cherlin@jhu.edu.

Applied Experience Conference - October 16th

Johns Hopkins Public Health Student Forum is hosting its annual Applied Experience Conference on Tuesday, October 16th, 5:30 - 7:30 pm in Mudd Hall. Join us to hear student presenters discuss how their work is making an impact and learn more about the future of public health!

Questions? Visit jhuphsf.org or email us: jhuphsf@jhu.edu

2019 Traffic Safety Scholars Program

Ever thought about a career in traffic safety? It’s a multi-disciplinary field providing tremendous opportunities for advocates, business/finance/management professionals, communicators, engineers, injury prevention specialists, public health practitioners, researchers, and others who want to make a difference in people’s lives.

The TSS Program provides awards of up to $1,000 to help full- and part-time undergraduate and graduate students in a variety of fields to help defray the cost of attending the nation's largest
gathering of traffic safety professionals, which will be held March 31-April 2 in Louisville, Kentucky.

Evaluation Criteria:
You must be a student enrolled on a full- or part-time basis at an accredited college or university during the 2018-19 academic year. Previous TSS applicants and recipients may apply. Your application must include: a JPEG of your current student I.D., your faculty advisor’s name, title and contact information, and a 500 to 1,000-word original essay addressing the question asked on the application.

Applications are now being accepted and are due by November 18, 2018. For complete details, visit the Lifesavers Conference Website TSS Page.
Center for Human Nutrition  
Department of International Health

Hopkins Nutrition Centennial Symposium  
Wednesday, October 10, 2018, 1:30-4:15pm  
Sheldon Hall, Room W1214

1:30 pm: Welcome and Introduction  
Keith P. West, Jr., DrPH, RD  
George G. Graham Professor & Director, Program in Human Nutrition, Department of International Health

Appreciating Our History, Looking to Our Future: Perspectives from Our Dean  
Ellen J. MacKenzie, PhD  
Professor and Dean, Johns Hopkins Bloomberg School of Public Health

1:40 pm: The First Century: Nutrition Leaders and Legacies at Johns Hopkins  
Karen K. Thomas, PhD  
Staff Historian, Communications Associate, Development and Alumni Relations

2:00 pm: The DASH Diet: Achievements and Aspirations  
Lawrence Appel, MD, MPH  
Professor & Director, Welch Center for Prevention, Epidemiology and Clinical Research, School of Medicine and Bloomberg School of Public Health

2:20 pm: Phytochemicals: Empowering Vegetables to Protect Health  
Jed W. Fahey, ScD, MS  
Assistant Professor & Director, Cullman Chemoprotection Center, Department of Clinical Pharmacology, Schools of Medicine & Public Health

2:50 pm: Numbers Count: Positioning Countries to Solve their Nutritional Problems  
Rebecca Heidkamp, PhD  
Assistant Scientist, Institute for International Programs & Program in Human Nutrition, Department of International Health, Bloomberg School of Public Health

3:10 pm: Tackling Micronutrient Deficiencies through Partnerships  
Klaus Kraemer, PhD  
Managing Director, Sights and Life Foundation/DSM Nutritional Products, Ltd., Adjunct Associate Professor, Program in Human Nutrition, Department of International Health, Bloomberg School of Public Health

3:30 pm: Fishing & Farming Our Waters for Food, at What Cost to Planetary Health  
Jillian Fry, PhD, MPH  
Assistant Scientist, Center for a Livable Future, Bloomberg School of Public Health

3:50 pm: Reflections on Hopkins Nutrition 2030: A Paradigm for Public Health Biology  
John Groopman, PhD  
Professor, Environmental Health & Engineering, Bloomberg School of Public Health

Global Public Health Brigades Intersession Trip

Public Health Brigades is an international movement of university students working to improve health conditions in the developing world. Join the JHU Public Health Brigade and the medical brigades on their intercession trip to Honduras. Counts towards public health applied experience.
Public Health Connection Program - Deadline Extended!

Are you an undergraduate student interested in receiving mentorship to advance your public health career? JHU Public Health Student Forum is now accepting applications for our Public Health Connection program. Public Health Connection is a new program designed to help Johns Hopkins undergraduates connect to graduate students from the Bloomberg School of Public Health and navigate their career options in public health.

Students will be paired with a mentor who aligns with their professional and academic interests. JHU PHSF will facilitate socials and other events to students to network with their mentors.

If you are interested in receiving mentorship, please fill out the following form by October 10th:
https://goo.gl/forms/7qGaDV0VZmhbshlZ2

Questions? Email jhuphsf@jhu.edu.

Position Open for the Johns Hopkins News-Letter

The Johns Hopkins News-Letter, the independent, student-run newspaper of the University, is looking for writers for the Science & Technology section. If you’re interested in science journalism, are passionate about on-campus research conducted by faculty or students, or simply want to make science accessible to the Hopkins community, please reach out! No previous experience is required.

Contact the SciTech Editors directly at science@jhunewsletter.com.

SPEAK2US Hotline

The SPEAK2US hotline, launched in 2016, is geared toward the university and health system communities to report complaints or concerns related to harassment, discrimination, or other unacceptable behavior that takes place at Johns Hopkins. Reports can be made 24 hours a day, seven days a week via an online form or by phone at 844-SPEAK2US (844-773-2528). Students, please be aware of this resource.

Counseling Center Wellness Programs

The Counseling Center offers a variety of programs and workshops focused on developing skills or exploring topics that help students to Be Well, Do Well, and Live Well. All workshops are offered free of charge to Homewood and Peabody undergraduate and graduate students.

Click here to learn more and sign up.
Unpaid Internships and Service

Assessing Electric Scooter Rental Safety Issues in Baltimore

The JHSPH is seeking students to assist in an observational study in Baltimore to assess safety issues with the new electric scooter rentals. They are looking for 10 motivated undergrads to help with data collection on a volunteer basis over a 1-2 week period, beginning in the next month.

If you are interested, contact Jeffrey Hardesty at jhardesty@jhu.edu

Paid Jobs and Internships

Shepherd's Clinic Front Office Assistant

Shepherd's Clinic, located at 2800 Kirk Avenue (~1.5 miles from campus), is a unique volunteer-driven nonprofit, dedicated to providing comprehensive health care for Baltimore's uninsured. Located in a neighborhood viewed by the Baltimore City Health Department as one of the unhealthiest in the city, their mission is to provide quality health care for those who cannot afford commercial insurance, yet do not qualify for government assistance. The clinic's primary goal is to arrange comprehensive care for the uninsured population within 9 Baltimore zip codes — geographically half the city. Two additional goals are (1) to attract and retain dedicated volunteers to address the many needs of our patient population; and (2) to generate funds sufficient to meet operational needs and replenish reserves.

*NOTE: APPLICANTS MUST HAVE A FEDERAL WORK STUDY AWARD*

Duties and Responsibilities:
Under supervision of the Office Manager, the Front Office Assistant is responsible for daily patient flow including signing patients in, setting up follow-up appointments, determining eligibility for patients to receive care at Shepherd's Clinic and handling the transfer of medical records processes.

To apply and to view a full position description, visit the Student Employment Services job board and search for position #8690.

Questions? Contact Eli Lopatin, CSC Assistant Director, at elilopatin@jhu.edu.

U.S. Public Interest Research Group (PIRG) is Hiring

PIRG is a national, citizen-funded advocacy and action organization that is seeking to hire Johns Hopkins graduating seniors for full-time positions Fellowship positions in their Boston and DC
offices. Fellows organize on a variety of topics, including public health, consumer issues, transportation, and environmental issues. You can see a full list of the issues addressed [here](#).

If you are interested, apply online [here](#).

Contact Ethan Lutz [elutz@pirg.org](mailto:elutz@pirg.org) with any questions.

615 N. Wolfe Street
Baltimore, MD 21205

Pizza will be provided

Please RSVP by October 28th via

Interviews

Tuesday Morning & Afternoon
October 30, 2018

To be considered for an interview, submit your cover letter and resume by October 26th to
johnshopkinsrecruiting@cardno.com

For additional information please email
johnshopkinsrecruiting@cardno.com

Cardno ChemRisk, a scientific consulting company, provides state-of-the-art toxicology, industrial hygiene, epidemiology, and risk assessment services to organizations that confront public health, occupational health, and environmental challenges. Professionals on the Cardno ChemRisk team have a long-standing reputation for thorough scientific analysis and for sharing results in the peer-reviewed scientific literature. Many of the hundreds of papers published by Cardno ChemRisk scientists are frequently referenced in both litigation and regulatory decision-making. Our mission is to provide creative and scientifically rigorous approaches to answering questions about the human health hazards posed by chemical, biological, pharmaceutical, and radiological agents.

> Positions are available in the San Francisco CA, Aliso Viejo CA, Boulder CO, Chicago IL, Cincinnati OH, Brooklyn NY, Pittsburgh PA and Washington DC offices.

> For more information on Cardno ChemRisk’s practice areas and team, please visit www.cardnochemrisk.com.

– Please note that selected candidates will be required to pass a drug, background, and reference screening prior to receiving an offer.

– Sponsorship is not currently available for these positions

Cardno ChemRisk is an Equal Opportunity Employer
Are you interested in health policy, nutrition and obesity, or the food environment? Philadelphia passed a historic sugar sweetened beverage (SSB) tax of 1.5 cents per fluid ounce of sugary and diet drinks, becoming the second U.S city to pass a beverage tax. Positions are available for 4-5 students to assist in a research project that will evaluate the effect of the SSB tax on prices and purchasing behaviors in a variety of food retailers. Baltimore will be the control city for the study.

An ideal candidate is detail-oriented with experience collecting data in Baltimore corner stores or interacting with participants in a research study. Candidates must be able to commit 10-15 hours per week beginning at the end of September and should be outgoing, reliable, and responsible students. The ability to speak Spanish, Mandarin, or Korean is a plus but is not required; similarly, access to a vehicle is preferred but not required, and you will be reimbursed for mileage to drive to the stores. Compensation is $18/hour.

If you are interested, contact Dr. Sarah Bleich at sbleich@hsph.harvard.edu with your resume and availability through mid-December.

Drexel University is seeking a full-time Project Assistant to support logistics, coordination, research, and internal and external communications for a large urban health research project (the Salud Urbana en America Latina “SALURBAL” project) involving several institutions across the United States and several countries in Latin America. The Project Assistant will be supervised by the Project Manager and work closely with other staff and with faculty/investigators to plan, track, and execute required tasks. This position is based at the Urban Health Collaborative at the Dornsife School of Public Health and will be supported by external research funding.

See more details here. Contact Claire Slesinks for questions.

### Research Assistant Position Available at JHSPH

**Position Title:** Research Assistant  
**Organization Name:** Johns Hopkins Bloomberg School of Public Health – Department of Health, Behavior, and Society  
**Responsibilities:** The research assistant will prepare participant mailings, call participants to schedule phone assessments (document all contacts and outcomes), administer study procedures (a medication review and surveys over the phone), and assist with data entry, filing, and light office work. S/He will implement study record keeping, both electronically and on paper, as specified in study protocol and complete additional research support activities as necessary.  
**Eligibility Requirements:** The research assistant must have excellent phone etiquette, be very organized, have great time management skills, have the ability work well independently with minimal supervision, and meet important study deadlines on time. The applicant should have some
Hiring Student Research Assistant

The Student Research Assistant will provide research support to the Institute for Global Tobacco Control (IGTC), with a specific focus on coding cigarette packs from China, and assisting with dissemination material including papers, reports, and website and social media content.

Specific duties & responsibilities:

• Perform data entry and code tobacco packs from China for packaging features and marketing appeals
• Utilize an online data entry program and assemble forms within the program
• Organize and catalog tobacco packs from China for specific research papers
• Conduct literature reviews and support gathering information for fact sheets, posters, papers, and other dissemination materials
• Work with program staff and communications team to produce website and social media content from the findings

Minimum qualifications (mandatory):
Fluency in Mandarin and English; knowledge of Chinese culture
Demonstrated attention to detail

Preferred qualifications:
Paid work experience in the US
Availability to work more than 10 hours a week
Previous research experience

Interested candidates should send an email to Michael Iacobelli at miacobelli@jhu.edu.

JOIN A JOHNS HOPKINS RESEARCH STUDY! YOUNG DRIVERS NEEDED.

Driving Hazards Research Study. The highest risk for a car crash is during the first year of independent driving. We are interested in how people learn to drive and understanding the differences between beginner and experienced drivers in autonomic responses and brain function when detecting driving hazards. We hope to use this information to assist driving education and reduce the number of teenage crashes. This research is a collaboration between the Johns Hopkins Bloomberg School of Public Health and Johns Hopkins School of Medicine, sponsored by the Johns Hopkins Science of Learning Institute.

You may be a good fit for the research study if you have a MD learner’s permit OR MD driver’s license and if you are in the age range 16-20 years old.

IF INTERESTED: Contact: Dr. Theresa Chirles 302-469-0445 Tchirle1@jhmi.edu
Participants completing the study (2.5-3.5 hrs) will be compensated $50.
Undergraduate Research Assistant Position at CAHMI

The Child & Adolescent Health Measurement Initiative (CAHMI) at Johns Hopkins School of Public Health is looking for a motivated, self-directed intern. The mission of the CAHMI is to ensure that children, youth and families are at the center of defining, assessing and driving improvements in children's health and health care quality. The Fall Undergraduate Intern will primarily work across two projects and may assist with other CAHMI project work as needed.

Applicant must be a current undergraduate student at an accredited college or university enrolled in a major related to the health or social sciences field. Interest in research and measurement, especially in the topic of children’s health, is preferred. MS Office skills required; some exposure to MCH measurement and website creation or upkeep preferred. Strong writing and communication skills required. Applicant must have strong attention to detail and a basic understanding of research principles.

For more details on the research projects, and directions on how to apply, click here.

Gap Year Opportunity

Dr. Frank Lin, an Associate Professor in the School of Medicine and the Bloomberg School of Public Health and the director of the Cochlear Center for Hearing and Public Health, is looking for a research program assistant for a community-based clinical trial of an affordable and accessible hearing loss intervention for older adults that is delivered by trained community health workers. This person will be responsible for data collection from older adults who are living independently in senior living residential building throughout Baltimore City. This individual will directly interface and coordinate with community partners to recruit study participants, gather questionnaire and other outcome data, and oversee participant involvement in the study. This job requires extreme attention to detail and for the individual to be self-motivated and to work and solve problems. This position would ideally require a 1-2 year commitment for the duration of the clinical trial. Manuscript authorship and other research opportunities are available pending the candidate’s interest. Access to personal transportation is required. This opportunity is an ideal 1-2 year gap year position before medical or graduate school.

For more information, please directly contact Frank Lin, MD, PhD
Email: flin1@jhmi.edu

Science and Strategy Intern Position with Radiant Earth

Radiant Earth seeks a Science and Strategy Intern with experience in scientific research and information management and a passion for global development to conduct literature reviews and online research. Working with the Chief Science Officer, s/he will compile, analyze and synthesize data related to the use of geospatial reference and remote sensing in global development sector. At the crossroad of global development and data science, this internship will provide the student with a unique experience blending multiple sectors that will help scale the use of Earth observation data by practitioners focused on addressing operational challenges in the Global South. Interns will be considered for authorship on publications to which they make a substantive written contribution.
The Science and Strategy Intern will report directly to the company’s Chief Science Officer in Washington DC. See more details on compensation and how to apply here.

Fellowships and Grants

Medical Fellows: Pre-Med/Global Health Gap-Year Program

Global Public Service Academies (GPSA) is an educational organization that works in collaboration with local health authorities in Guatemala, Belize and West Virginia. Their Medical Fellows program is a long-term volunteering program for recent college graduates interested in healthcare. As part of the program, fellows receive basic accommodations in a homestay as well as language and healthcare training. Fellows will live and work with a family in a rural village in Belize or Guatemala, but will travel frequently to other sites (including the U.S). The program gives graduates the opportunity to work alongside physicians, nurses and community health workers while experiencing the challenges and opportunities present in global settings.

Fellows will be trained to deliver medical care that is directly related to the health issues found in the targeted communities they are serving. Each Fellow will also be granted a Professional Development Fund to be used for language lessons or additional medical training.

A full program description can be found here. For more information and to apply, email internships@gpsa.org.

PURA invites proposals from undergraduate applicants looking for academic year research funding

The Hopkins Office for Undergraduate Research, known as HOUR, invites submissions for the PURA program. Each awardee will receive $3,000 to help with expenses related to their academic year project as well as professional development opportunities. PURA is open to any registered Hopkins undergraduate regardless of their area of interest (basic sciences, arts and humanities, engineering, social sciences, public health, etc). The deadline to apply is Monday, Oct. 15.

To apply or learn more, visit the PURA page of the university's Research website.

# PHS Weekly Submission Process

Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to cbarry8@jhu.edu by **5pm every Monday**.

For announcements or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any position opening, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.
