Information Sessions and Career Fairs

Conferences and Talks

Global Health and Leadership Conference

The Harvard Global Health Institute and Harvard College VISION: Global Health Society are hosting the fourth annual Global Health and Leadership Conference (GHLC) on April 17th-19th, 2020 at Harvard College in Cambridge, Massachusetts. The conference is dedicated to the professional development of attending students. College students have the opportunity to present global health or public service projects that they have conducted. This can be a great experience for students who have never presented at a conference since students are guided on writing a report about their project and publish it in our annual booklet. You can see written reports from last year's students here: Booklet 2019.

We attached some pdfs along with our website for more information (www.harvardvision.org/GHLCApply).

To apply, students must send the following to info@harvardvision.org:
  • a CV (or resume)
  • an abstract (max 1 page) about their presentation topic
The cost is $75 for the full weekend (Friday-Sunday). We understand due to classes some students might only be able to make Saturday-Sunday, which will be offered at a reduced price of $60.
Check out our new PHS Course:

Building Healthy Communities Through Engaged Partnerships

AS.280.246

The goal of this course is to introduce students to the importance and value of partnerships between medical and health institutions and community organizations to improve neighborhood health outcomes. The course will also prepare PHS students to undertake their required Applied Experience with Medicine for the Greater Good.

HURJ Accepting Research Articles

Hopkins Undergraduate Research Journal is currently accepting research articles to be featured in our Spring 2020 publication. Written reports of research projects in any field (i.e. humanities, social sciences, STEM) are welcomed. If you or someone you know wants to be featured in our next issue, please submit your information to the form on this link: https://forms.gle/JYNQXKfQaSkZeUXK7. Please feel free to contact thehurj@gmail.com with any questions.

The deadline to submit through the given link is 11:59PM on January 26th, 2020 (Sunday).
JOHNS HOPKINS UNIVERSITY

Public Health Scholar Bowl

Join us to be part of an amazing trivia & case competition team, deepen your public health knowledge, and have fun!

JOIN FACULTY, STAFF AND STUDENTS FOR MEETINGS OF THE

Discrimination Journal Club

The objective of this journal club is to facilitate an open space for discussions regarding relationships between racial discrimination and health outcomes. Journal article topics include experiences of racism across the lifespan for different racial and ethnic groups, and different levels of racism (e.g., interpersonal, institutional, structural). The Discrimination Journal Club meets twice/month in the School of Nursing. Faculty, staff and students from all departments are welcome.

INTERESTED IN LEARNING MORE?
Please email: discrimination-request@lists.johnshopkins.edu to join our list-serv to receive meeting notices and PDFs of journal articles.
Monday Morning Mochas & Mudd
When: 9:30-11:30 AM
Where: Mudd Atrium
What: Join me for coffee & life design conversations
Bonus: First person to come by gets a mocha on me!

Trade-A-Belay Tuesdays @ the Rec Center Climbing Wall
When: 6:30-8:00 PM
Where: Climbing Wall, bottom level of the Rec Center
What: Talk life design, trade for belays
Bonus: Try something new!

Wednesday Awareness @ Student Disability Services
When: 12:00-2:00
Where: Shaffer 150 (SDS Suite)
What: opportunity to ask questions/share about disability specific questions related to career planning
Bonus: Access to a private space for personal conversations

Thursdays @ 3505 N. Charles
When: 11:00-5:00 (flexible times)
Where: Public Health Studies Advising Building
What: Office hours dedicated to PHS majors & students curious about public health careers
Bonus: Meet with your advisor while you're here!

Fridays @ Pre-Prof Advising
When: 10:00-12:00
Where: Shriver
What: Learn about how the Life Design Lab serves future medical students through mock interviewing & gap year planning
Bonus: No appointment necessary, come pre/post meeting!

www.jhu.joinhandshake.com -- search "Office Hours" in Events
Life Design Lab

Looking to connect with the Life Design Lab? Meet Lauren, Public Health Studies’ Life Design Educator! Formerly the Career Center, Lauren is here as a guide to career development resources as well as to help explore opportunities, engage with alumni and employers, and learn career storytelling strategies to help you discover your next opportunity! Things to do:
- Check out Lauren’s Spark Page for ways to explore and connect with the Life Design Lab.
- Check out Handshake Events for upcoming programs on campus.
- Come visit Lauren during her PHS office hours on Thursdays or during any of her Life Design Office Hours! Check her Instagram for updates, @beyondbrandable

Looking for: Science and Technology writers for The News-Letter

Looking to improve your writing for med and grad school applications? Are you interested in learning more about research at Hopkins? Want to stay up to date on developments in tech and the physical, biological, and social sciences? Join The News-Letter SciTech section as a writer!

Writers for the Science and Technology section cover scientific breakthroughs and achievements on campus and around the world, interview members of the Hopkins community (including students and professors), and write articles published in the weekly edition of The News-Letter.

No prior experience is required, and there are no preferred majors. Email science@jhunewsletter.com for more information.

WeGo Project Looking for Volunteers

Hi Public Health Majors! My name is Brad Parsons and I wanted to share an exciting opportunity to work with myself and a few others on a 501c3 nonprofit that utilizes telepresence robots to connect pediatric inpatients at Johns Hopkins Hospital with local Baltimore attractions. Check out our website to learn more (http://www.wegoproject.org/). We are looking for people to volunteer with us in the hospital as well as join the team and help with marketing, grant writing, and leadership. This is a great opportunity to get independent hospital experience and interaction! Feel free to contact me at bparso10@jhu.edu or email us at wegofoundation@gmail.com if you have any questions. Thanks!

To apply for a volunteer position, click here.

SPEAK2US Hotline

The SPEAK2US hotline, launched in 2016, is geared toward the university and health system communities to report complaints or concerns related to harassment, discrimination, or other unacceptable behavior that takes place at Johns Hopkins. Reports can be made 24 hours a day, seven days a week via an online form or by phone at 844-SPEAK2US (844-773-2528). Students, please be aware of this resource.

Unpaid Internships and Service
Internship with Johns Hopkins Bloomberg School of Public Health, Department of Epidemiology

POSITION TITLE: Research Internship in Epidemiology Data Analysis

DURATION: Approximately 80 hours over Spring Semester (Jan 27-May 1), 5-7 hours weekly (maximum 10 hours per week)

COMPENSATION: Academic Credit (2 credits | 80 hours)

QUALIFICATIONS: Ideal candidate will be a current student in a public health program, that has already has at least introductory biostatistics coursework, and familiarity with statistical software (Stata, SAS, R)

GENERAL PURPOSE: The Research Intern with the Johns Hopkins School of Public Health’s Department of Epidemiology will aid in research and analytical needs related to the Epidemiology Department’s Inclusion, Diversity, Equity & Science (Epi IDEAS) Workgroup. This will primarily involve continuing a mentored data-driven research project assessing the demographic profiles of graduate students that are accepted or not accepted into the Epidemiology Department’s degree programs. This will include reviewing graduate admissions applicant demographic data for a three-year range, and preparing and aiding in an analysis of the role of race, ethnicity, previous education, family history, and socioeconomic factors on scoring and outcomes, and then interpreting those results. This project has the potential to contribute data to a peer-reviewed publication on which the student could be an author. The selected candidate would work with the Epidemiology Academic Office (Laura Camarata and Fran Burman), and faculty member and social epidemiologist Dr. Lorraine Dean. The candidate will have the opportunity to exercise skills in statistical analysis and the writing and development of a data-driven peer-reviewed publication.

ACADEMIC DELIVERABLES: Monthly reflections, primary dataset analysis, log of analytic methods, and poster presentation

DESCRIPTION OF PRINCIPLE DUTIES:
1. Clean the datasets
2. Refine a data dictionary on the variables for analysis
3. Code the variables for analysis
4. Complete preliminary data analysis and design
5. Track decisions made about variables and analysis in a written log (e.g., Word document/Stata do-file)
6. Meet regularly with the research mentors and attend relevant data meetings

INTERESTED CANDIDATES should submit the following materials to be considered:
1. Statement of interest (1000 words or less), detailing relevant qualifications
2. CV or resume

SEND MATERIALS TO: Dr. Lori Dean ldean9@jhu.edu, with the subject line “Research Internship in Epidemiology Data Analysis”

Recruiting Students for Student-Run Startup

OtoGlobal Health LLC is a student run startup which started 4 years ago. We have developed a low-cost hearing screening device optimized for conducting infant hearing screening in low-resource settings. It consists of hardware components like circuitry and 3D-printed pieces, as well as software on an Android app that controls the device. We are looking to recruit new members to join the team starting this fall, and we would love to hear from you if you are interested!
We have a clinical study at the hospital starting this fall, so right now is a really exciting time to join the team since the results from that study will push us towards the next stage of product development.

We have also won multiple business plan and design competitions and are well positioned with a patent to move us closer to a marketable device!

If this sounds interesting to you, please reach out to the team! We are looking to recruit people with interests in the following:

- Business development (Any interest in business plans, business competitions, etc. is very valuable. If you don’t have any experience but you would be interested in learning about and applying yourself to the business side of engineering, that’s awesome too.)

To apply, please send a resume and a couple sentences explaining why you’re interested to gmischl1@jhu.edu. If you have any relevant experience, make sure it’s in your resume. If you have any questions, feel free to contact that email as well.

Child and Adolescent Health Measurement Initiative Internship

Do you want experience in public health research in Maternal & Child Health? The Child & Adolescent Health Measurement Initiative (CAHMI) at Johns Hopkins School of Public Health is looking for a motivated, self-directed intern. The mission of the Child and Adolescent Health Measurement Initiative is to advance patient-centered innovations and improvements in children’s health and health care quality. The Undergraduate Intern will primarily work with our National Data Resource Center project and may assist with other CAHMI project work as needed.

National Data Resource Center for Child and Adolescent Health (DRC, www.childhealthdata.org): The purpose of the National Maternal and Child Health Data Resource (DRC) is to make available National Survey of Children’s Health (NSCH) findings at the national, regional, and state level through our online, user-friendly Interactive Data Query, downloadable data set features, and other website resources. Additionally, the DRC supports Title V Maternal and Child Health Service Block Grant programs and partners in accessing and effectively utilizing data from each level.

Responsibilities and Duties:

1. Assist in preparing and double-checking data regarding child, maternal, and family health.
2. Provide support for various tasks related to the launch of upcoming NSCH data, including creation of supporting documents and entering data into Survey Manager.
3. Help to create “data snapshots,” or interactive data reports using NSCH data
4. Help with the assembly of grant reports, technical assistance manuals, PowerPoint presentations, and video trainings.
5. Assist with outreach and dissemination of DRC materials and tools, including social media, newsletters, blog posts, and more.
6. Assist with literature reviews and identifying resources for a variety of projects, as needed.
7. Perform other related duties as required.

Applicant Qualifications/Requirements:
Applicant must be a current undergraduate student at an accredited college or university enrolled in a major related to the health or social sciences field. Interest in research and measurement, especially in the topic of children’s health, is preferred. MS Office skills required; some exposure to MCH measurement and website creation or upkeep preferred. Strong writing and communication skills required. Applicant must have strong attention to detail and a basic understanding of research principles.

**Work Schedule:**
6-12 hours per week, flexible within business hours and to be determined with applicant.

**Directions on how to apply:**
Send resume, brief cover letter, and schedule availability to info@cahmi.org, with the subject line “Undergraduate Internship”.

---

**Congressional Internships for John P. Sarbanes, Maryland’s Third Congressional District**

John Sarbanes’ office is seeking hardworking and dedicated college students or recent graduates to work as interns in their Towson and Washington, D.C. offices, performing constituent outreach, communications activities, and legislative work. An internship in a Congressional office can be a rewarding opportunity, allowing students to learn directly about the legislative process.

To apply, please send a cover letter, a resume, and a list of references to employment@mail.house.gov.

---

**Maryland Department of Aging Internship**

The Maryland Department of Aging offers both undergraduate and graduate students the opportunity to put their education to work. Interns will gain valuable experience in a cabinet agency that offers:

- Knowledge about older adults and individuals with disabilities, and applicable community services and resources available to these populations;
- Insight into the development and execution of public policies;
  - Experience in program planning and analysis;
  - Database management skills;
  - Outreach and customer service experience;
- Ability to collaborate with colleagues and community partners in a professional setting; and
- Weekly constructive feedback.

Interns may work in a variety of programs in the areas of Long-Term Services (LTS) and Client and Community Services (CCS). These programs and initiatives are supported by the federal Administration on Community Living (ACL), the Centers for Medicare and Medicaid Services (CMS), and other state and federal partners. A focus of the internship will be assistance with improving the Maryland Access Point referral network database through provider outreach and updates. Click [here](#) to learn more and/or apply.
Paid Jobs and Internships

Research Assistant Position with the JHSPH Center for Adolescent Health

Under the direct supervision of a Research Program Manager, the Research Assistant will primarily assist in the day-to-day logistical and operational tasks for various research studies in the Department. The Research Assistant will interact with the investigators, collaborators, and patients in a research environment. This person will be writing, running, and analyzing standard and non-standard reports. This person will also assist in carrying out research in accordance with good clinical practices in such activities as obtaining informed consent, data and specimen collection, and patient follow-up over time.

See the job posting for more information.

Research Program Assistant position (East Baltimore Campus, Bayview Campus)

The Outcomes After Critical Illness & Surgery (OACIS) group at Johns Hopkins Pulmonary & Critical Care is hiring recent graduates for our entry level research assistant position open immediately. New hires will receive training to screen patients for study recruitment, consent, follow up calls for data collection, and enter data for our qualitative and quantitative studies. Other opportunities include shadowing in the Intensive Care Units and EMR training.

Minimum requirements: Detail-oriented with good interpersonal and communication skills, professionalism, ability to handle multiple ongoing projects and meet deadlines. Bachelor’s degree, previous clinical/research/medical experience including proficiency with Microsoft Word and RedCap preferred.

Details: $12.31/hour, potential of 40hrs/wk. This is a casual position with the opportunity to move to full time.

For more information and to apply, email a cover letter and resume to Sr. Research Coordinator Dex Mantheiy (dex@jhu.edu) with the subject line “Research Program Assistant Inquiry”.

Research Assistant Opportunity: Delaware County (PA) Health Study

Background:

Delaware County is located in the southeast corner of Pennsylvania and is the fifth most populous county in the state. We are conducting a study to assess current and projected needs and gaps, evaluate current systems, finances, and services, and analyze relevant health indicators, with the goal to develop recommendations the county can use to strengthen and enhance health and public health service delivery to its residents.

We are looking to hire a Research Assistant to help with quantitative and qualitative data synthesis and interpretation, and report writing and compilation.

Job Qualifications:

Required skills/experience:

- Demonstrated experience in quantitative data synthesis and interpretation.
- Strong writing ability and experience writing data-driven reports and assessments
- Excellent attention to detail and problem-solving skills; strong organizational skills
- Interest in and experience preferred with community health assessment and evaluation
- Must be comfortable working independently
- Experience working with local/state health agencies and community-based organizations, preferred but not required
- Familiarity with public health infrastructure assessment, preferred but not required

**Required software skills:** Expert in Microsoft Word, PowerPoint, and Excel

**Dates and Time Commitment:**
One student – part-time 8-10 hours a week from February through June 2020.

**Pay:** $15/hour

**To Apply:**
Please send a cover letter and resume/CV to Paulani Mui (pmui1@jhu.edu) by February 7, 2020.

Philadelphia Fellowship in Urban Health Policy – Philadelphia Department of Health

The Philadelphia Department of Public Health announces that it is now accepting applications for its fourth class of Urban Health Policy Fellows. This two-year paid fellowship in urban health policy is designed specifically for those with baccalaureate degrees in public health. During the program, Urban Health Policy Fellows will work directly with senior leaders of one of the nation’s most innovative health departments on high priority projects, while receiving on-the-job training in public health policy development. **The fellowship will begin in early July 2020 and continue through June 2022.**

Urban Health Policy Fellows will work on priority health issues that the City is facing. Examples include opioid addiction and overdose, smoking, obesity, HIV, lead poisoning, childhood asthma, and innovative use of electronic health record data. Fellows will work on teams addressing issues such as these, and will be assigned specific projects that help the agency understand the problem, engage with stakeholders, develop policy solutions, recruit support for interventions, and/or implement policies.

You are eligible to apply if you have graduated in the last two years (or before July 1, 2020) from a college or university in the United States with a baccalaureate degree and a major in public health, global health, or community health. **Please note, this opportunity excludes those with advanced degrees in public health.** To apply, electronically submit:

- A cover letter describing why you are interested in the fellowship;
- A resume that summarizes your educational experience, your work experience, and your skills with data analysis;
- A 3-5 page sample of your writing (for example, a paper that you wrote for a class assignment or an article that you wrote for a school publication);
The Philadelphia Department of Public Health (PDPH) announces that it is now accepting applications for its Philly Forward summer internship program. This eight-week paid internship is designed to provide pre-professional training to those interested in pursuing careers in public health. Each Philly Forward intern will work directly with PDPH leaders on a specific project or projects involving data collection, data analysis, program implementation, grant-writing, preparation of reports, and/or community engagement. Each intern will also learn about the Department's multiple functions through staff presentations and field trips. The internship will begin on June 15 and conclude on August 7, 2020.

You are eligible to apply if you are enrolled at a college or university at the time of the internship and are working towards a baccalaureate degree. To apply, electronically submit:
- A cover letter describing why you are interested in the internship;
- A resume that summarizes your educational experience, your work experience, and your skills;
- A short writing sample (1-3 pages in length; for example, a paper that you wrote for a class assignment or an article that you wrote for a school publication);
- A recent undergraduate transcript (unofficial is fine); and,
- The names and contact information for two persons who can serve as references, one of whom is a faculty member.

The deadline for the application is Friday, January 31, 2020; applications should be sent to PDPHFI@phila.gov.
Summer 2020
Academy for Research, Clinical, and Health Equity Scholarship (ARCHES)

ARCHES is a six-week program for undergraduate students who are rising juniors and rising seniors interested in pursuing medical studies. This program will engage selected participants in clinical experience, guided research, and immersive service at Georgetown University.

Application Opens: December 1, 2019

**ARCHES Offers:**

- Shadowing
- Research
- Clinical Rotations
- Community Service

**Program Dates & Benefits**

**Program Dates:**
June 24, 2020 - August 8, 2020

**Stipend:**
$4,000. ($2,000 paid after the first 3 weeks, and final $2,000 paid at the end of the 6 weeks)

**Travel:**
Up to $250 per student on a case-by-case basis by the Georgetown Office of Diversity & Inclusion

**Housing:**
Housing provided on Georgetown campus June - August, suite-style occupancy rooms

**Meals/Food:**
Students are responsible for their own meals/food cost (except for program event meals provided by ARCHES).

somdiversityandinclusion@georgetown.edu
som.georgetown.edu/guarches
2020 INSIGHT Summer Research Program

HIPRC’s INSIGHT Summer Research Program is a National Institutes of Health (NIH) funded program, offering an outstanding opportunity to work on a research project in the field of injury.

Undergraduate and graduate students are matched to projects and project tasks, partnered with health sciences faculty from across the University of Washington. Students meet and learn from peers and health professionals from across the country.

Bringing together a diverse group of young people interested in health care and research allows HIPRC to create a unique and rich resource for students who seek to learn more about what they can accomplish in the field of injury and injury prevention. Past research areas include elucidating the risk factors and causes of injuries, injury prevention strategies, acute and chronic care of injured patients, and outcomes from trauma.

Program Details:
- Program dates: June 15 - August 7, 2020
- Applications due by January 15, 2020
- Rigorous independent research
- Clinical shadowing experiences at UWMC and HMC
- Professional development seminars
- Injury research seminars
- Tours of various sites at Harborview, including the King County Medical Examiner’s Office
- Participation in a competitive research symposium
- Social and team building activities
- Stipend of $3,200
- Additional travel awards available to those who qualify
- Students traditionally underrepresented in the STEM fields, as well as first generation students are encouraged to apply
- For more information and application portal, please visit: hiprc.org

If you have questions, please send us an email at: injuryED@uw.edu

International Alliance for Responsible Drinking Internship

Seeking interns at The International Alliance for Responsible Drinking (IARD) located in Washington D.C.
Position: Research Intern with The International Alliance for Responsible Drinking (IARD) to provide assistance and support in the area of Science and Policy
Reports to: Senior Data Scientist
Hours per week: 20 hours per week, on average
Compensation: $17.00 per hour

Duties will include:

- Analysis of alcohol research and writing literature reviews of key issues
- Working collaboratively with IARD staff to produce research-based tools and publications
  - Processing and entering data and information into structured files
  - Conducting descriptive and multivariate data analysis using primary and secondary data sources
  - Monitoring new research, trends, and developments in the alcohol field and writing summaries.
- Carrying out content management activities for the IARD website.

Send resumes to abigirimana@iard.org.

Nemours Summer Undergraduate Research Program 2020

The Nemours Summer Undergraduate Research Program (NSURP) at the Nemours Alfred I. duPont Hospital for Children in Wilmington, DE, is accepting applications for 10 funded Summer Research Scholar positions for our Summer 2020 program. NSURP offers opportunities consisting of laboratory-based, translational, and clinical biomedical research projects.

**Online applications**: accepted December 1, 2019 through January 15, 2020. All letters of reference must be received by 11:59 PM on January 31, 2020 for consideration by the selection committee; applications lacking letters of reference after January 31st will be considered incomplete.

**Eligibility**: Applicants must be full-time undergraduate students at the time of application, a US citizen or legal permanent resident, and have a minimum GPA of 3.2. Applicants should also have interest in research, medicine, healthcare, science, public health, or related fields.

**Program information**: Program dates are June 1 through August 7, 2020. During the program, Nemours clinical and research faculty will guide students through the process of formulating and testing hypotheses, interpreting data, and communicating results, while working on active research projects. Available projects vary each year. Training is provided on human subjects protection, animal welfare, responsible conduct of research, and research ethics. Program activities include a student-focused seminar series, undergraduate-oriented journal club, and opportunities for shadowing and engagement in other educational programs. All students present their research project and findings to the community via poster sessions and oral presentations. Family and friends are invited to attend these events.

Click here for more information and for the online application.
The CIIP is a competitive, paid summer internship program that selects 50 JHU undergraduate students to be paired with nonprofit organizations, community organizations, and government agencies throughout Baltimore City, and offers an intensive, cohort-based learning environment. Internships focus on community-identified projects and are selected for each student based on their skills and interests, providing a unique and individualized experience. In addition to interning in the community, participants attend an extensive orientation program and weekly reflection sessions with presentations to familiarize interns with Baltimore's past and present.

Interns will work 35 hours a week for eight weeks and earn a $4,000 salary. The dates for this year's program are June 1 to July 31, 2020. CIIP is available to current JHU freshmen through juniors. The application for the 2020 Community Impact Internships Program is available on the Become an Intern page of the Center for Social Concern/Homewood Student Affairs website. Click here to learn more and apply.

The deadline for application submissions is Dec. 29.

The goal of this program is twofold: to give JHU undergraduates the opportunity to be directly involved in a community in Baltimore City, and to support the important work being done by nonprofits and government agencies. The CIIP is housed within the Center for Social Concern at Johns Hopkins.

For more information about the Community Impact Internships Program, contact Eli Lopatin, Assistant Director of Civic Leadership, at 410-516-4777 or elilopatin@jhu.edu or come talk to us outside the FFC this Friday from 10-2

---

**Positions Available with Baltimore CONNECT**

**Position:** Program Assistant (1 position available) & Social Media Intern (1 position available)

**Summary:** Baltimore CONNECT aims to create and strengthen a collaborative network of over 20 community, faith-based, and neighborhood organizations that advocate for the needs of people in Baltimore and connect them to comprehensive and coordinated health and human services. These organizations provide a variety of services in the sectors of housing, food insecurity, job/professional training, and social work. Baltimore CONNECT was started in 2013 through 3-year finding from the Patient-Centered Outcomes Research Institute.

**Responsibilities:**

Program assistant will work alongside the current program assistant and the executive team on a variety of projects related to their mental health, dental, and transportation subcommittees. The executive team is made up of faculty and staff from the School of Public Health, School of Medicine, and representatives from community partner organizations. Potential jobs include organizing and planning weekly executive team meetings, monthly CBO networking meetings, and maintaining communication between the executive team and community organizations in the network. The time commitment is anywhere from 5 - 10 hours per week.
Social Media Intern will be working to revamp all social media pages and the Baltimore CONNECT website (bmoreconnect.org), as well as post all upcoming community events onto the Facebook page. The time commitment is approximately 5 hours per week.

Eligibility: Students need to be work-study eligible and able to commit to the position for the rest of the 2019-2020 school year. All work can be done remotely.

For more information or to apply: Please contact the current program assistant Tamara Thomas (tthom102@jhu.edu) and include Baltimore CONNECT and the position you are interested in applying for in the subject line. Send a copy of your resume as your application.

Project Horseshoe Farm Gap Year Opportunity

PHF is a non-profit organization with sites in Greensboro and Marion, Alabama, and a coming site in Pomona, California. PHF offers service and support programs to improve the health and quality of life of adults and children in our partner communities.

Community Health Fellowship:

Horseshoe Farm offers an intensive paid gap year (13 month) Community Health Leaders Fellowship. It is geared to top recent college graduates from around the nation interested in community health and education, non-profit and organizational management, and community service leadership. The competitive Fellowship is a unique opportunity for high levels of responsibility and to help shape community health locally. Its ultimate aim is to prepare citizen service leaders needed for tomorrow’s communities. Horseshoe Farm also offers internships to undergraduate students (Fall, Winter, Spring, and Summer).

Farming, Health, and Nutrition Fellowship:

Through a collaboration with Bois d’Arc Farm, Horseshoe Farm is pleased to offer a paid gap year (13 months) Farming, Health, and Nutrition Fellowship. The Fellowship is a unique opportunity to gain hands on experience on a working organic farm and to translate this work directly to Horseshoe Farm’s community health programs in Greensboro, Alabama. Fellows will spend approximately half of their time working and learning with BDA Farm (planting and harvesting, helping with farming operations) and the remainder of their time will be spent working with Community Health Fellows to improve food access and nutrition for isolated and vulnerable adults in the Greensboro community.

Winter Application Deadline: Sunday, February 23rd 11:59 pm (CDT)

Check out our website to get an overview of our programs, and you can also find us on Handshake. Interested graduating seniors can apply here.

Epidemiology Research Group in Organ Transplantation Research Assistant Position

The Epidemiology Research Group in Organ Transplantation, a lab in the Johns Hopkins Department of Surgery, is seeking motivated undergraduate students for a part-time research assistant position. Students will be working on the ENGAGE study, a study aiming to expand live donor kidney transplantation through advocacy training and social media for patients on
the kidney transplant waitlist. This position will give students the opportunity to get involved in clinically-related public health research, interact with patients (both over the phone and in person, as needed), develop communication skills, and learn about the research being done in organ transplantation at Johns Hopkins.

Responsibilities include recruiting and interviewing patients, abstracting medical records, and instructing patients during our Live Donor Champion and Donor App programs.

Students must have good patient interaction, computer skills; any design background could be useful as we work to improve the projects.

Students must work 6-9 hours per week, and can come in for 2-8 hour shifts on Monday-Saturday between 8am-8pm. Can receive credit or $12/hour. Please send a cover letter, resume, a brief statement of interest, and an unofficial transcript to the Research Program Coordinators, Arthur Love (alove14@jhmi.edu) and Leyla Herbst (lherbst3@jhu.edu).

Research Assistant for the Optimize Study

General Summary: The primary focus of our research group is understanding the non-pharmacologic treatments for patients with chronic low back pain. Provide support to the Project Director and Study Coordinators for the Optimize Study.

Duties and Responsibilities: Conduct baseline and follow-up telephone interviews. Enter data into REDcap database.

Hours: Flexible hours, daytime, evening, weekend

Starting Salary: $16-$18/hour

Contact Person: LaPricia Lewis-Boyer llewis3@jhmi.edu

Summer 2020 Intern Program – Remedy Partners

Remedy Partners is an innovative healthcare services and technology company dedicated to transforming healthcare through the use of cutting-edge technology, clinical expertise and a well-honed vision of healthcare alternatives. The company enables the dramatic improvement of the quality and efficiency of healthcare delivery by developing and managing episodic payment programs in partnership with leading healthcare organizations.

Remedy is looking for candidates who have the following:

- Interest in a career in the healthcare field
- An ability to independently find solutions to a problem; organizational skills to breakdown a complex issue into a manageable action plan
- Strong analytical and trouble-shooting skills
- Ability to work cross-functionally and communicate with both technical and non-technical audiences
• Strong listening skills to gather requirements and understand the technical and non-technical barriers to project completion
  • An interest in learning about healthcare data and technology and how it’s applied in a professional setting
  • Expected graduation date in 2021

Program Perks
• Paid internship
• Potential opportunity for full-time position
• Volunteer opportunities
• Weekly Lunch & Learns with executive leadership

To learn more and to apply, click here.

Research Assistant Position

Looking for highly-motivated individuals to join a team dedicated to LGBTQ health. We are implementing a NIH-funded longitudinal study on stress, stress-related comorbidity, biopsychosocial stress processes, and social networks among gender and sexual minority populations in Baltimore. This position requires excellent oral and written communication skills with attention to detail. Duties will include assisting the team with community engagement, study design and implementation, data collection and data analysis using various data analytic techniques according to project requirements. Will also participate in reviewing literature, writing scientific manuscripts, disseminating study findings to the communities, and other duties as relevant to the writing and publication of reports.

The successful candidate needs to be a team worker with a good knowledge and understanding of community engagement and a strong commitment to health equity. People of color and gender and sexual minorities are encouraged to apply.

About 5-10 hours per week and position is paid/work-study. If interested, please e-mail your interest and CV to cyang29@jhu.edu.

Research Assistant in Health Policy

L&M Policy Research, LLC is seeking candidates for full-time, entry-level research positions in Washington, DC. This is typically a two to four year position. L&M is a highly-collaborative and collegial boutique health services research firm that offers a deep knowledge of public and private health care issues grounded in extensive experience in qualitative and quantitative research methods and health services management and operations. Our dedicated staff provides the highest quality research to assist government and private organizations in improving health care across the United States, with particular focus on Medicare, Medicaid, and private insurance marketplace reforms.

We offer our employees a collegial and team-oriented work environment, along with competitive salaries, a comprehensive benefits package, and five weeks paid time off.
Responsibilities
• Contribute to qualitative and/or quantitative data collection and analysis; support senior research staff in developing and executing research protocols; conduct primary data collection with health care consumers, organizations, providers, and other stakeholders
  • Contribute to reports, memos, briefs, and presentations
  • Conduct literature reviews and environmental scans
• Support senior research staff with client management tasks, including scheduling, notetaking, and financial reporting
  • Some travel may be required

Minimum Qualifications
• Availability to start in Winter 2019 or Spring 2020
  • Bachelor’s degree
• Demonstrated interest in health policy, public health, public policy, the social sciences, or a related field
• Excellent organizational skills and attention to detail, with ability to manage concurrent tasks and contribute to multiple projects simultaneously
  • Strong technical writing skills (e.g., reports, memos, literature reviews)
  • Strong analytical skills.
• Motivated, self-starter; capacity to work both autonomously and as a team
• Strong interpersonal skills; strong written and oral communication skills
  • Proficiency with Word, Excel, PowerPoint
  • Ability and willingness to travel

Preferred Qualifications
• Academic or job-related experience conducting research in a related field
• Familiarity with data analysis software packages (e.g. STATA, SAS)
  • Working proficiency in Spanish is a plus

Please submit your application through handshake or send a resume, writing sample, cover letter (with earliest availability to start) to: careers@LMpolicyresearch.com

Note: Individuals with temporary visas or who need sponsorship for work authorization now or in the future are not eligible for hire.

Full-Time Research Assistant Position Available at JHUSOM

Johns Hopkins Schizophrenia Center has a full-time Research Assistant position. The position requires a two year commitment, and a bachelor's degree in a health science related field (graduates in the December of 2019 are eligible). Responsibilities include recruiting and screening healthy controls, patients with first episode psychosis patients, and those with related brain disorders (e.g., Alzheimer’s disease, mood disorders) into the study. Involves regularly interacting with patients’ families and healthcare providers as well as escorting participants through various study procedures such as neurocognitive testing, blood draws, MRIs, among others. The position also involves data organization/management and will provide leadership opportunities. Educational experiences include attendance at Teaching Rounds and there is the potential for inclusion in research papers. To inquire further about this position, please send the CV to JHSZC_recruit@jhu.edu
Research Assistant

The Johns Hopkins Armstrong Institute for Patient Safety and Quality (AI) is in search of responsible, motivated, and hard-working individuals to assist with data collection and analysis on two related projects funded by NASA and DARPA. These projects investigate social interaction and team resilience at NASA research facilities and the Johns Hopkins Hospital. The position is under the supervision of Dr. Michael Rosen and his research team.

Qualifications
The right person will have strong written and spoken communication skills; be detail-oriented; and take responsibility for meeting deadlines and making progress without direct supervision. The applicant’s conduct must align with AI’s core behaviors, which are to be humble and curious; respect, appreciate, and help others; and be accountable to continuously improve themselves, the organization, and the community. Data collection begins early in the morning and requires RA to be present at the Johns Hopkins Hospital by 7am on data collection days. Minimum time commitment of 10 hours per week.

Minimum suggested GPA is 3.0. Lower GPAs will be considered with letter of recommendation or other appropriate references.

For More Information or to Apply:
Contact Salar Khaleghzadegan (skhaleg1@jhmi.edu) or Dr. Michael Rosen (mrosen44@jhmi.edu). Please include “Research Assistant Position Inquiry” as the subject line. Send your resume or CV to apply.

Research Assistant Position Available

The Daily24 Study involves using a mobile app called “Daily24” where study participants record their timing of eating and sleeping. The team is looking at the association of “when you eat and sleep” with your weight. The student research assistant will be responsible for recruiting new participants while keeping them engaged, helping manage reporting through RedCAP, attending study team meetings, and other various tasks. This is a part time position with roughly 20 hours per week. If interested, contact Wendy Bennett (PI) at wendy.bennett@jhmi.edu and Kate Holzhauer (Study Coordinator) at kholzha1@jhu.edu with your CV and an explanation of your interest.

Fellowships and Grants

HOUR Programs – Accepting Applications and Registration

Accepting applications through 2/1/20 from registered Hopkins undergraduates interested in participating in summer programs –

- **Summer PURA** – Submit your proposal for a research project with a Hopkins mentor. Selected students receive $4000 for 10 weeks of full time work on their project over the upcoming summer. This program is open to projects in students majors as well as passion projects. Learn more [HERE](#)!
• **BDP Summer Undergraduate Research Program** – Apply now to work with one of the elite faculty at Johns Hopkins, our Bloomberg Distinguished Professors. The faculty provide the project and mentorship, you provide the enthusiasm. Experience not required in most cases. Selected students receive $4000 for 10 weeks of full time work over the upcoming summer. Learn more [HERE](#)!

• **CIRCUIT** – Apply now to join this amazing program that offers incredible opportunities in a variety of areas as well as skill building, team work, and professional development all at the Johns Hopkins Applied Physics Laboratory (APL) in Laurel, MD. Selected students receive $9000 for the 12 week program over the summer and more. Learn more [HERE](#)!

AND... **registration is now open for DREAMS**!
DREAMS will take place on Friday, April 24 from 1 – 4pm, in the Goldfarb Gym at the O’Connor Recreation Center. Students who have received a university award for research (PURA, ASPIRE/DURA, other), had a great study abroad experience, worked an amazing internship, participated in an REU program, completed a senior capstone or honors project, developed a new business, designed a new product, and more are invited to participate. Learn more and register [HERE](#)!

**For seniors working to combat poverty and hunger: Emerson National Hunger Fellows Program**

The Emerson National Hunger Fellows Program, sponsored by the Congressional Hunger Center, seeks to create effective leaders who will understand and develop innovative solutions to the problems and root causes of hunger and poverty through political means. For the first five months of the yearlong program, fellows are placed in community-based organizations throughout the country. The remainder of the term is spent in nonprofits or government agencies in Washington, D.C., where fellows develop policy at a national level to fight problems of hunger and poverty. The fellowship provides a total financial package in the range of $38,000 to $43,000.

Candidates must have a visa to work in the U.S. (U.S. citizenship is not required), have a bachelor's degree or the equivalent by the beginning of the fellowship, be able to demonstrate a commitment to racial equality and social justice, and have experience with anti-hunger or anti-poverty work in low-income communities.

Please contact Dr. Barry at [kbarry18@jhu.edu](mailto:kbarry18@jhu.edu) in the JHU National Fellowships Program immediately if you are interested in applying.

For more information about the Emerson Fellowships, please see the [National Fellowships Program's webpage](#).

**Udall Scholarship: For sophomores and juniors engaged with environmental or Native American policy issues**

The Morris K. Udall Scholarship Program was created to honor Congressman Morris K. Udall and his legacy of public service by awarding scholarships to those who intend to pursue careers in addressing environmental issues on a local, national, or global scale OR issues impacting Indian country in the areas of health care or tribal policy. The scholarship covers eligible expenses for
tuition, fees, books, and room and board, up to a maximum of $7,000. Scholars also attend a fully funded four-day orientation in Tucson, Arizona, where they meet in early August with fellow Udall Scholars, elected officials, and environmental and tribal leaders. Juniors are eligible for one year of support; sophomores may be renominated during their junior year and compete for a second year of support.

Candidates for all Udall Scholarships must be U.S. citizens or permanent residents, have outstanding academic credentials, and be able to demonstrate a strong commitment, through academic and extracurricular activities, to the environment or to Native health care or tribal policy. Candidates for Udall Scholarships in Tribal Policy or Native Health Care must also be enrolled in a state or federally recognized tribe or band; or have at least one parent or grandparent who is/was an enrolled member of a state or federally recognized tribe or band; or be a member of the First Nations of Canada.

Contact Dr. Kathleen Barry at kbarry18@jhu.edu in the JHU National Fellowships Program if you are interested in applying.

For more information about the Udall Undergraduate Scholarship, see the National Fellowships Program's webpage.
