Leadership in Industrial Hygiene with AIHA CEO Larry Sloan
Date: Tuesday, March 3
Time: 1:00pm-3:00pm
Location: Bloomberg School of Public Health, room W2015

Discover the field of industrial hygiene! The CEO of the American Industrial Hygiene Association will present on leadership, what AIHA can do for students, and what the organization is currently prioritizing in the field of industrial hygiene.
INTERNSHIP GRANTS

Let us help you fund your next internship.

Life Design Lab Unpaid Internship Grant
Funds travel for interviews, conference expenses, cost of living for unpaid internships, and more.

Steinberg Family Grant
$4000 to support any internship.

Robins Internship Grant
$1,525 or $3,500 to support internship in Asia related to business or economic development.

Goodyear Public Health Service in Baltimore Award
$3,000 for already-secured public health internship in Baltimore.

Second Decade Society Summer Internship Grant
$3,000 for KSAS students in unpaid or nonprofit internships.

DURA Summer Training and Research
$4,000 for 10-week summer research at JHU.

Vrendenburg Travel Fund
Funds international research, internship, or service project for engineering students.

Weisman Internship Fund
Funds internships for international studies majors.

For more details visit
studentaffairs.jhu.edu/life-design/students/funding/

Take APHA's Billion Steps Challenge!
The American Public Health Association has challenged members to get our public health community to log 1 billion steps.

Register and join the JHU team through this link: https://aphabillionsteps.walkertracker.com/teams/hopkinssph/
JOHNS HOPKINS UNIVERSITY

Public Health Scholar Bowl

Join us to be part of an amazing trivia & case competition team, deepen your public health knowledge, and have fun!

FILL OUT OUR INTEREST FORM!
HTTPS://TINYURL.COM/PHSCHOLARS
Looking for: Science and Technology writers for The News-Letter

Looking to improve your writing for med and grad school applications? Are you interested in learning more about research at Hopkins? Want to stay up to date on developments in tech and the physical, biological, and social sciences? Join The News-Letter SciTech section as a writer!
Writers for the Science and Technology section cover scientific breakthroughs and achievements on campus and around the world, interview members of the Hopkins community (including students and professors), and write articles published in the weekly edition of The News-Letter.

No prior experience is required, and there are no preferred majors. Email science@jhunewsletter.com for more information.

SPEAK2US Hotline

The SPEAK2US hotline, launched in 2016, is geared toward the university and health system communities to report complaints or concerns related to harassment, discrimination, or other unacceptable behavior that takes place at Johns Hopkins. Reports can be made 24 hours a day, seven days a week via an online form or by phone at 844-SPEAK2US (844-773-2528). Students, please be aware of this resource.

Unpaid Internships and Service

Public Health Campaigns Intern with Maryland PIRG

Maryland PIRG (Public Interest Research Group) is a non-profit working to safeguard consumer health and safety. We’re seeking a public health campaigns intern to help us work on two priority campaigns: stopping the overuse of antibiotics in factory farms and addressing the drastic rise in E-cigarette use among young people in the United States.

Health experts including the American Academy of Pediatrics and the World Health Organization warn that the widespread overuse of antibiotics to produce meat is pushing us closer to a world in which these medicines no longer work and common infections once again kill. More than 1 in 4 high schoolers reported using e-cigarettes last year. These products contain highly addictive nicotine that can impair brain development among adolescents and increase their risk of addiction to other dangerous substances.

In this internship you’ll work directly with U.S. PIRG’s Public Health Campaigns Director to implement communication and organizing strategies that will achieve concrete results in both of the issue areas described above.

Responsibilities

- Draft press materials including media releases, opinion editorials, and letters to the editor.
- Build and maintain relationships among key stakeholders including physicians.
- Develop fact sheets and outreach materials on both issues.
- Mobilize consumers to act through email alerts, in person events, and social media.
- Assist the campaigns director in direct lobbying efforts.
- Assist in administrative capacity to help program run smoothly.

Skills required:

- Strong written and verbal communications skills
- Experience in producing digital content, including social media posts and video content.
- Willingness to learn by doing and adapt to changing priorities.

Capacity and time commitment:
• Based in Baltimore, Maryland. Expected commitment of 10-15 hrs per week.

Application process:
• Interested candidates should send a resume and cover letter to Matt Wellington, at mwellington@pirg.org.

One Heart Source is currently accepting applications for its 2020 Service Learning Programs. They are offering 2 and 4 week Health Development programs in Cape Town, South Africa.

As an OHS Mentor you will:

· Gain a deeper understanding of community and the cultural factors that influence health.
· Participate in our health education interventions by mentoring students through their academic careers.
· Immerse yourself in history and culture to better understand diversity.
· Collaborate with groups of university students from around the world to discuss global health issues.
· Develop skills to pursue social justice through health education and intervention.
· Broaden health care skills in real-world environments

Apply here for our Volunteer Programs: 2020 Application
Application Deadline: March 1st, 2020
Learn more about our Health Program here.

Internship with Johns Hopkins Bloomberg School of Public Health, Department of Epidemiology

POSITION TITLE: Research Internship in Epidemiology Data Analysis

DURATION: Approximately 80 hours over Spring Semester (Jan 27-May 1), 5-7 hours weekly (maximum 10 hours per week)

COMPENSATION: Academic Credit (2 credits | 80 hours)

QUALIFICATIONS: Ideal candidate will be a current student in a public health program, that has already has at least introductory biostatistics coursework, and familiarity with statistical software (Stata, SAS, R)

GENERAL PURPOSE: The Research Intern with the Johns Hopkins School of Public Health’s Department of Epidemiology will aid in research and analytical needs related to the Epidemiology Department’s Inclusion, Diversity, Equity & Science (Epi IDEAS) Workgroup. This will primarily involve continuing a mentored data-driven research project assessing the demographic profiles of graduate students that are accepted or not accepted into the Epidemiology Department’s degree programs. This will include reviewing graduate admissions applicant demographic data for a three-year range, and preparing and aiding in an analysis of the
role of race, ethnicity, previous education, family history, and socioeconomic factors on scoring and outcomes, and then interpreting those results. This project has the potential to contribute data to a peer-reviewed publication on which the student could be an author. The selected candidate would work with the Epidemiology Academic Office (Laura Camarata and Fran Burman), and faculty member and social epidemiologist Dr. Lorraine Dean. The candidate will have the opportunity to exercise skills in statistical analysis and the writing and development of a data-driven peer-reviewed publication.

ACADEMIC DELIVERABLES: Monthly reflections, primary dataset analysis, log of analytic methods, and poster presentation

DESCRIPTION OF PRINCIPLE DUTIES:
1. Clean the datasets
2. Refine a data dictionary on the variables for analysis
3. Code the variables for analysis
4. Complete preliminary data analysis and design
5. Track decisions made about variables and analysis in a written log (e.g., Word document/Stata do-file)
6. Meet regularly with the research mentors and attend relevant data meetings

INTERESTED CANDIDATES should submit the following materials to be considered:
1. Statement of interest (1000 words or less), detailing relevant qualifications
2. CV or resume

SEND MATERIALS TO: Dr. Lori Dean ldean9@jhu.edu, with the subject line “Research Internship in Epidemiology Data Analysis”

Recruiting Students for Student-Run Startup

OtoGlobal Health LLC is a student run startup which started 4 years ago. We have developed a low-cost hearing screening device optimized for conducting infant hearing screening in low-resource settings. It consists of hardware components like circuitry and 3D-printed pieces, as well as software on an Android app that controls the device. We are looking to recruit new members to join the team starting this fall, and we would love to hear from you if you are interested!

We have a clinical study at the hospital starting this fall, so right now is a really exciting time to join the team since the results from that study will push us towards the next stage of product development.

We have also won multiple business plan and design competitions and are well positioned with a patent to move us closer to a marketable device!

If this sounds interesting to you, please reach out to the team! We are looking to recruit people with interests in the following:

- Business development (Any interest in business plans, business competitions, etc. is very valuable. If you don’t have any experience but you would be interested in learning about and applying yourself to the business side of engineering, that’s awesome too.)
Congressional Internships for John P. Sarbanes, Maryland’s Third Congressional District

John Sarbanes’ office is seeking hardworking and dedicated college students or recent graduates to work as interns in their Towson and Washington, D.C. offices, performing constituent outreach, communications activities, and legislative work. An internship in a Congressional office can be a rewarding opportunity, allowing students to learn directly about the legislative process.

To apply, please send a cover letter, a resume, and a list of references to employment@mail.house.gov.

Maryland Department of Aging Internship

The Maryland Department of Aging offers both undergraduate and graduate students the opportunity to put their education to work. Interns will gain valuable experience in a cabinet agency that offers:

- Knowledge about older adults and individuals with disabilities, and applicable community services and resources available to these populations;
- Insight into the development and execution of public policies;
  - Experience in program planning and analysis;
  - Database management skills;
- Outreach and customer service experience;
- Ability to collaborate with colleagues and community partners in a professional setting; and
- Weekly constructive feedback.

Interns may work in a variety of programs in the areas of Long-Term Services (LTS) and Client and Community Services (CCS). These programs and initiatives are supported by the federal Administration on Community Living (ACL), the Centers for Medicare and Medicaid Services (CMS), and other state and federal partners. A focus of the internship will be assistance with improving the Maryland Access Point referral network database through provider outreach and updates. Click here to learn more and/or apply.

ASPPH is Now Accepting Applications for Public Health Summer Internship Opportunity March 20
ASPPH is now accepting applications for the ASPPH Internship Program for Summer 2020. This internship program is based at ASPPH headquarters in Washington, DC and will provide a unique experience where the selected students can apply their skills and knowledge learned in the classroom to projects of importance to ASPPH and ASPPH-members. Internships will be 10-12 weeks in length over the summer of 2020. Candidates for the internship positions will be contacted in April to interview for specific projects related to public health education and outreach, data analysis, and information technology.

The deadline to apply is Friday, March 20, 2020. This is a paid internship program. Applicants must be a U.S. citizens or hold visas permitting permanent residence (“Green Card”) in the U.S. Candidates must be an undergraduate or graduate student at the time of application and must be able to relocate to Washington, DC to begin the internship in late-May or early-June 2020. Relocation expenses will not be covered. Questions can be directed to info@aspph.org

Begin the application process by completing this required information.

Research Assistant for Epidemiology Research Group in Organ Transplantation

The Epidemiology Research Group in Organ Transplantation, a lab in the Johns Hopkins Department of Surgery, is seeking motivated undergraduate students for a part-time research assistant position starting in May/June of 2020. Students will be working on the WHOLE Donor Study, a long-term follow up study of live kidney donors. Responsibilities include interviewing patients, abstracting medical records, consenting patients in clinic, and assisting on other studies as needed. This position will give students the opportunity to get involved in clinically-related public health research, interact with patients (both over the phone and in person, as needed), develop communication skills, and learn about the research being done in organ transplantation at Johns Hopkins.

During the semester, our minimum commitment is at least 8 hours/week. We prefer students who are willing to work this summer, during which time students typically come in closer to a full 40 hours/week. Students will be paid $12/hour or receive credit.

Please send a resume, brief statement of interest and an unofficial transcript to Samantha Getsin, the Research Program Coordinator, at sgetsin1@jhu.edu.

Research Assistant Job in Global Breast Cancer/Implementation Science

Dr. Anne Rositch is looking a full time Research Assistant to work on my breast cancer implementation science study in Tanzania. It’s perfect for a graduating undergraduate or master’s degree student with an interest in global health research.

https://jobs.jhu.edu/job/na-Research-Assistant-Othe-na/628821000/

Interested candidates can apply directly using the link, or can reach out to Dr. Rositch directly with any questions at arositch@jhu.edu.

Johns Hopkins Hospital Medical Affairs Internship

The Johns Hopkins Hospital Medical Affairs Internship is a yearlong, paid, full-time position aimed at highly motivated individuals who are pursuing a career in medicine and are looking for a gap-
year opportunity. The internship is designed to provide aspiring physician leaders with a comprehensive learning experience at a premier academic health system.

The intern will be exposed to hospital operations and leadership through administrative support to Medical Affairs subcommittees such as The House Staff Council, The Ethics Consultation Service, and The Influenza Prevention Taskforce. Furthermore, the intern will serve as a project coordinator on a specific project during their internship. Project opportunities will vary and reflect both the participant’s learning goals and the priorities of The Chief Medical Officer. Candidates will also have the opportunity to attend senior leadership meetings throughout Johns Hopkins Medicine and gain exposure to various health system functions. Prior to beginning, the selected intern will finalize goals, expectations, and evaluation criteria with the Sr. Vice President of Medical Affairs and the Internship Program Manager.

Full Description: https://tinyurl.com/JHMA2020Info

Applications will be accepted until 5pm on Friday, March 20, 2020 at the following link: https://tinyurl.com/JHMA2020

---

**Research Assistant Position with the JHSPH Center for Adolescent Health**

Under the direct supervision of a Research Program Manager, the Research Assistant will primarily assist in the day-to-day logistical and operational tasks for various research studies in the Department. The Research Assistant will interact with the investigators, collaborators, and patients in a research environment. This person will be writing, running, and analyzing standard and non-standard reports. This person will also assist in carrying out research in accordance with good clinical practices in such activities as obtaining informed consent, data and specimen collection, and patient follow-up over time.

See the [job posting](#) for more information.

---

**Research Program Assistant position (East Baltimore Campus, Bayview Campus)**

The Outcomes After Critical Illness & Surgery (OACIS) group at Johns Hopkins Pulmonary & Critical Care is hiring recent graduates for our entry level research assistant position open immediately. New hires will receive training to screen patients for study recruitment, consent, follow up calls for data collection, and enter data for our qualitative and quantitative studies. Other opportunities include shadowing in the Intensive Care Units and EMR training.

Minimum requirements: Detail-oriented with good interpersonal and communication skills, professionalism, ability to handle multiple ongoing projects and meet deadlines. Bachelor’s degree, previous clinical/research/medical experience including proficiency with Microsoft Word and RedCap preferred.

Details: $12.31/hour, potential of 40hrs/wk. This is a casual position with the opportunity to move to full time.

For more information and to apply, email a cover letter and resume to Sr. Research Coordinator Dex Mantheiy (dex@jhu.edu) with the subject line “Research Program Assistant Inquiry”.

International Alliance for Responsible Drinking Internship

Seeking interns at The International Alliance for Responsible Drinking (IARD) located in Washington D.C.

Position: Research Intern with The International Alliance for Responsible Drinking (IARD) to provide assistance and support in the area of Science and Policy

Reports to: Senior Data Scientist

Hours per week: 20 hours per week, on average

Compensation: $17.00 per hour

Duties will include:

- Analysis of alcohol research and writing literature reviews of key issues
- Working collaboratively with IARD staff to produce research-based tools and publications
  - Processing and entering data and information into structured files
  - Conducting descriptive and multivariate data analysis using primary and secondary data sources
  - Monitoring new research, trends, and developments in the alcohol field and writing summaries.
  - Carrying out content management activities for the IARD website.

Send resumes to abigirimana@iard.org.

Epidemiology Research Group in Organ Transplantation Research Assistant Position

The Epidemiology Research Group in Organ Transplantation, a lab in the Johns Hopkins Department of Surgery, is seeking motivated undergraduate students for a part-time research assistant position. Students will be working on the ENGAGE study, a study aiming to expand live donor kidney transplantation through advocacy training and social media for patients on the kidney transplant waitlist. This position will give students the opportunity to get involved in clinically-related public health research, interact with patients (both over the phone and in person, as needed), develop communication skills, and learn about the research being done in organ transplantation at Johns Hopkins.

Responsibilities include recruiting and interviewing patients, abstracting medical records, and instructing patients during our Live Donor Champion and Donor App programs.

Students must have good patient interaction, computer skills; any design background could be useful as we work to improve the projects.

Students must work 6-9 hours per week, and can come in for 2-8 hour shifts on Monday-Saturday between 8am-8pm. Can receive credit or $12/hour. Please send a cover letter, resume, a brief statement of interest, and an unofficial transcript to the Research Program Coordinators, Arthur Love (alove14@jhmi.edu) and Leyla Herbst (lherbst3@jhu.edu).

Research Assistant for the Optimize Study
General Summary: The primary focus of our research group is understanding the non-pharmacologic treatments for patients with chronic low back pain. Provide support to the Project Director and Study Coordinators for the Optimize Study.

Duties and Responsibilities: Conduct baseline and follow-up telephone interviews. Enter data into REDcap database.

Hours: Flexible hours, daytime, evening, weekend

Starting Salary: $16-$18/hour

Contact Person: LaPricia Lewis-Boyer llewis3@jhmi.edu

Summer 2020 Intern Program – Remedy Partners

Remedy Partners is an innovative healthcare services and technology company dedicated to transforming healthcare through the use of cutting-edge technology, clinical expertise and a well-honed vision of healthcare alternatives. The company enables the dramatic improvement of the quality and efficiency of healthcare delivery by developing and managing episodic payment programs in partnership with leading healthcare organizations.

Remedy is looking for candidates who have the following:

- Interest in a career in the healthcare field
- An ability to independently find solutions to a problem; organizational skills to breakdown a complex issue into a manageable action plan
- Strong analytical and trouble-shooting skills
- Ability to work cross-functionally and communicate with both technical and non-technical audiences
- Strong listening skills to gather requirements and understand the technical and non-technical barriers to project completion
- An interest in learning about healthcare data and technology and how it’s applied in a professional setting
  - Expected graduation date in 2021

Program Perks
- Paid internship
- Potential opportunity for full-time position
  - Volunteer opportunities
- Weekly Lunch & Learns with executive leadership

To learn more and to apply, click here.

Research Assistant Position

Looking for highly-motivated individuals to join a team dedicated to LGBTQ health. We are implementing a NIH-funded longitudinal study on stress, stress-related comorbidity, biopsychosocial stress processes, and social networks among gender and sexual minority populations in Baltimore. This position requires excellent oral and written communication skills
with attention to detail. Duties will include assisting the team with community engagement, study
design and implementation, data collection and data analysis using various data analytic techniques
according to project requirements. Will also participate in reviewing literature, writing scientific
manuscripts, disseminating study findings to the communities, and other duties as relevant to the
writing and publication of reports.

The successful candidate needs to be a team worker with a good knowledge and understanding of
community engagement and a strong commitment to health equity. People of color and gender and
sexual minorities are encouraged to apply.

About 5-10 hours per week and position is paid/work-study. If interested, please e-mail your
interest and CV to cyang29@jhu.edu.

Research Assistant in Health Policy

L&M Policy Research, LLC is seeking candidates for full-time, entry-level research positions in
Washington, DC. This is typically a two to four year position. L&M is a highly-collaborative and
collegial boutique health services research firm that offers a deep knowledge of public and private
health care issues grounded in extensive experience in qualitative and quantitative research
methods and health services management and operations. Our dedicated staff provides the highest
quality research to assist government and private organizations in improving health care across the
United States, with particular focus on Medicare, Medicaid, and private insurance marketplace
reforms.

We offer our employees a collegial and team-oriented work environment, along with competitive
salaries, a comprehensive benefits package, and five weeks paid time off.

Responsibilities

• Contribute to qualitative and/or quantitative data collection and analysis; support senior research
  staff in developing and executing research protocols; conduct primary data collection with health
care consumers, organizations, providers, and other stakeholders
  • Contribute to reports, memos, briefs, and presentations
  • Conduct literature reviews and environmental scans
• Support senior research staff with client management tasks, including scheduling, notetaking, and
  financial reporting
  • Some travel may be required

Minimum Qualifications

• Availability to start in Winter 2019 or Spring 2020
• Bachelor’s degree
• Demonstrated interest in health policy, public health, public policy, the social sciences, or a related
  field
• Excellent organizational skills and attention to detail, with ability to manage concurrent tasks and
  contribute to multiple projects simultaneously
  • Strong technical writing skills (e.g., reports, memos, literature reviews)
  • Strong analytical skills.
• Motivated, self-starter; capacity to work both autonomously and as a team
• Strong interpersonal skills; strong written and oral communication skills
- Proficiency with Word, Excel, PowerPoint
- Ability and willingness to travel

Preferred Qualifications
- Academic or job-related experience conducting research in a related field
- Familiarity with data analysis software packages (e.g., STATA, SAS)
- Working proficiency in Spanish is a plus

Please submit your application through handshake or send a resume, writing sample, cover letter (with earliest availability to start) to: careers@LMpolicyresearch.com

Note: Individuals with temporary visas or who need sponsorship for work authorization now or in the future are not eligible for hire.

---

**Full-Time Research Assistant Position Available at JHUSOM**

Johns Hopkins Schizophrenia Center has a full-time Research Assistant position. The position requires a two year commitment, and a bachelor’s degree in a health science related field (graduates in the December of 2019 are eligible). Responsibilities include recruiting and screening healthy controls, patients with first episode psychosis patients, and those with related brain disorders (e.g., Alzheimer’s disease, mood disorders) into the study. Involves regularly interacting with patients’ families and healthcare providers as well as escorting participants through various study procedures such as neurocognitive testing, blood draws, MRIs, among others. The position also involves data organization/management and will provide leadership opportunities. Educational experiences include attendance at Teaching Rounds and there is the potential for inclusion in research papers. To inquire further about this position, please send the CV to JHSZC_recruit@jhu.edu

---

**Research Assistant**

The Johns Hopkins Armstrong Institute for Patient Safety and Quality (AI) is in search of responsible, motivated, and hard-working individuals to assist with data collection and analysis on two related projects funded by NASA and DARPA. These projects investigate social interaction and team resilience at NASA research facilities and the Johns Hopkins Hospital. The position is under the supervision of Dr. Michael Rosen and his research team

**Qualifications**

The right person will have strong written and spoken communication skills; be detail-oriented; and take responsibility for meeting deadlines and making progress without direct supervision. The applicant’s conduct must align with AI’s core behaviors, which are to be humble and curious; respect, appreciate, and help others; and be accountable to continuously improve themselves, the organization, and the community. Data collection begins early in the morning and requires RA to be present at the Johns Hopkins Hospital by 7am on data collection days. **Minimum time commitment of 10 hours per week.**

Minimum suggested GPA is 3.0. Lower GPAs will be considered with letter of recommendation or other appropriate references.
For More Information or to Apply:
Contact Salar Khaleghzadegan (skhaleg1@jhmi.edu) or Dr. Michael Rosen (mrosen44@jhmi.edu).
Please include “Research Assistant Position Inquiry” as the subject line. Send your resume or CV to apply.

Fellowships and Grants

Baltimore Corp Fellowship Opportunity

Are you interested in developing leadership skills and working for social causes in Baltimore City? The Baltimore Corps seeks to recruit young professionals to build pathways to leadership positions within the Baltimore City community, particularly throughout its social sector. During the year-long appointment beginning in September, fellows are placed with Visionary Cause Leaders in the nonprofit, public, and private sectors to effect population-level change across focus areas including education, public health, and workforce development. Baltimore Corps supports the professional development of each Fellow through retreats, personalized coaching, community dinners, and feedback designed to support each Fellow’s professional and personal growth. If you would like to read more about this opportunity, please visit the National Fellowships Program’s website (https://studentaffairs.jhu.edu/fellowships/list-of-fellowships/fellowship-details/?entry=e37c2). Applications will be due in April (deadline to be confirmed).

On Wednesday, March 11, from 5-6 pm in Malone 107, please join Sheron Russell, Deputy Director of Recruitment and Community Engagement for the Baltimore Corps, and staff from the JHU Center for Social Concern (CSC) and the JHU National Fellowships Program (NFP) for an information session. If you are interested in applying for this fellowship, please attend.

If you have questions, please contact Dr. Jeannette Miller (jemiller@jhu.edu) of the NFP or Eli Lopatin (elopati1@jhu.edu) of the CSC.

For seniors working to combat poverty and hunger: Emerson National Hunger Fellows Program

The Emerson National Hunger Fellows Program, sponsored by the Congressional Hunger Center, seeks to create effective leaders who will understand and develop innovative solutions to the problems and root causes of hunger and poverty through political means. For the first five months of the yearlong program, fellows are placed in community-based organizations throughout the country. The remainder of the term is spent in nonprofits or government agencies in Washington, D.C., where fellows develop policy at a national level to fight problems of hunger and poverty. The fellowship provides a total financial package in the range of $38,000 to $43,000. Candidates must have a visa to work in the U.S. (U.S. citizenship is not required), have a bachelor's degree or the equivalent by the beginning of the fellowship, be able to demonstrate a commitment to racial equality and social justice, and have experience with anti-hunger or anti-poverty work in low-income communities.

Please contact Dr. Barry at kbarry18@jhu.edu in the JHU National Fellowships Program immediately if you are interested in applying.
For more information about the Emerson Fellowships, please see the National Fellowships Program's webpage.

Udall Scholarship: For sophomores and juniors engaged with environmental or Native American policy issues

The Morris K. Udall Scholarship Program was created to honor Congressman Morris K. Udall and his legacy of public service by awarding scholarships to those who intend to pursue careers in addressing environmental issues on a local, national, or global scale OR issues impacting Indian country in the areas of health care or tribal policy. The scholarship covers eligible expenses for tuition, fees, books, and room and board, up to a maximum of $7,000. Scholars also attend a fully funded four-day orientation in Tucson, Arizona, where they meet in early August with fellow Udall Scholars, elected officials, and environmental and tribal leaders. Juniors are eligible for one year of support; sophomores may be renominated during their junior year and compete for a second year of support.

Candidates for all Udall Scholarships must be U.S. citizens or permanent residents, have outstanding academic credentials, and be able to demonstrate a strong commitment, through academic and extracurricular activities, to the environment or to Native health care or tribal policy. Candidates for Udall Scholarships in Tribal Policy or Native Health Care must also be enrolled in a state or federally recognized tribe or band; or have at least one parent or grandparent who is/was an enrolled member of a state or federally recognized tribe or band; or be a member of the First Nations of Canada.

Contact Dr. Kathleen Barry at kbarry18@jhu.edu in the JHU National Fellowships Program if you are interested in applying.

For more information about the Udall Undergraduate Scholarship, see the National Fellowships Program's webpage.

Public Health Resource Guide

http://krieger.jhu.edu/publichealth/resources/

Please see the PHS website (Contact tab) or click here to use the online Advisor Scheduling System.

* Please note – system does not work with Chrome or Safari browsers or mobile devices.
Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to cbarry8@jhu.edu by 5pm every Monday.

For **announcements** or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any **position opening**, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.
