Women in Global Health: Exploring Non-Academic careers

Date: July 13th, 2020
Time: 12-1:30 pm

Location: Register by Zoom (https://jh.zoom.us/meeting/register/tJ0pf-mhqDsoH9VuDibWjxrd5OFGrxCqyX4)

Link for more information: http://hopkinsglobalhealth.org/resources/job-opportunities/women-in-global-health-exploring-non-academic-careers

The Hopkins Center for Global Health is excited to announce the launch of a new virtual seminar series, “Women in Global Health: Exploring Non-Academic careers.” This series is designed to support doctoral students to explore non-academic careers in global health, all current, admitted, and prospective students are welcome regardless of their degree program. Each session will have a 30 minute presentation by the speaker followed by Q&A and a working group session where participants will grow their network and actively develop recommendations to support women leaders. Our inaugural speaker will be Dr. Leslie Mancuso, President and CEO of Jhpiego.

New Online MHS Program with JHSPH Dept. of Population, Family, and Reproductive Health

The Master of Health Science Online is specifically designed for part-time working professionals who wish to further their career or enhance their activities in demography (population science), program evaluation, and research methods with a focus on maternal and child health. Graduates of the program will be prepared to conduct their own research or evaluation projects with a firm foundation in maternal and child health. Must have 1-2 years of public health experience. Click here for more information.

The Mid-Atlantic Regional Public Health Partnership is hosting weekly ‘Public Health Hangouts’ on Zoom. Public health professionals participate and bring their passion to themes like social distancing, support to our frontline workers, volunteering opportunities, mental health for everyone, telehealth and a host of topics.

Date: Recurring every Monday
Time: Noon - 1:00 p.m.
Topic: Mental Health: Issues, Resources, Action

Meeting ID: 506 330 031
Please email sshell@phmc.org for any suggestions or questions.

Life Design Lab is here for you!
Check out virtual programs offered by the Life Design Lab [here](https://studentaffairs.jhu.edu/life-design/staff/lauren-barrett/).

Students looking to connect with Lauren should go to her page: [https://studentaffairs.jhu.edu/life-design/staff/lauren-barrett/](https://studentaffairs.jhu.edu/life-design/staff/lauren-barrett/) — office hours and Zoom link listed here! Not on Handshake!

You can email Lauren with any questions at [lbarre11@jhu.edu](mailto:lbarre11@jhu.edu), or follow her on Instagram and Twitter (@beyondbrandable) for updates throughout the semester. Stay tuned!

---

**Library and Librarian Access During the Campus Closure**

**Please see below some info on the library resources available to you!**

*Good news:* In response to the situation, some publishers have made more of their ebook collections available to libraries. Therefore, you will be able to get even more ebooks.

- **How to find them?** Use Google or Google Scholar. The ebooks that are suddenly now available will NOT be in the JHU catalog, so just look for them any way you want to -- put in some search words or a book title, and go from there.

- **What about journals?** We haven't heard much about more journal content becoming available. But please remember that the easiest way to find what YOU have access to is this:

  -- [library home page](https://library.jhu.edu) --> Articles and Databases
-- Click the tab for GOOGLE SCHOLAR: when you do your search, this will show you the links for FINDIT@JHU, even if you are not logged into anything

-- NOTE: Usually, you would click on the FINDIT link to take you to a page that will show you ALL of the ways to get full text. But for now, you should FIRST click the article title, because the article may be one of the ones that's suddenly available but *not* in our catalog.

- **Big news:** As of June 29, you can request and pick up library books. **On that day:** the REQUEST buttons will reappear in the library catalog; things you request will be delivered to any of the available libraries, checked out, and made available for you to pick up. [Details are on this page](#) (scroll down to "Book Request Service").
  - If you have any questions about any of this, please send a note to [circmail@jhu.edu](mailto:circmail@jhu.edu).

Contact the Library
- Text 410-692-8874
- [ask@jhu.libanswers.com](mailto:ask@jhu.libanswers.com)
- Live Chat -- [library home page](#), purple box on bottom right
- Or just send an email to the PHS librarian, [Sue Vazakas](mailto:suevazakas@jhu.edu).

#### Cards for Courage

Cards for Courage is a newly formed non-profit volunteer organization founded by three college students at Johns Hopkins University. Originally, the mission of the nonprofit was to provide emotional support to hospital patients through sending hand-drawn cards with uplifting messages. In light of the COVID-19 outbreak, we decided to shift our focus to a nation-wide project: making appreciation cards for healthcare workers and support staff serving on the frontline in hospitals across the U.S. Our nurses, physicians, pharmacists, janitors, maintenance workers, etc are putting their own health at risk to keep our communities safe.

If you are at home and have some free time on your hands, please consider joining our initiative! No previous art experience is necessary. Simply fill out [this](#) quick form to help us put smiles on some faces during these trying times. Questions or comments? Email [cardsforcourage20@gmail.com](mailto:cardsforcourage20@gmail.com) or message us on [Facebook](https://facebook.com).

INTERNSHIP GRANTS

Let us help you fund your next internship.

Life Design Lab Unpaid Internship Grant
  Funds travel for interviews, conference expenses, cost of living for unpaid internships, and more.

Steinberg Family Grant
  $4000 to support any internship.

Robins Internship Grant
  $1,525 or $3,500 to support internship in Asia related to business or economic development.

Goodyear Public Health Service in Baltimore Award
  $3,000 for already-secured public health internship in Baltimore.

Second Decade Society Summer Internship Grant
  $3,000 for KSAS students in unpaid or nonprofit internships.

DURA Summer Training and Research
  $4,000 for 10-week summer research at JHU.

Vrendenburg Travel Fund
  Funds international research, internship, or service project for engineering students.

Weisman Internship Fund
  Funds internships for international studies majors.

For more details visit
studentaffairs.jhu.edu/life-design/students/funding/

Take APHA's Billion Steps Challenge!
The American Public Health Association has challenged members to get our public health community to log 1 billion steps.

Looking for: Science and Technology writers for The News-Letter

Looking to improve your writing for med and grad school applications? Are you interested in learning more about research at Hopkins? Want to stay up to date on developments in tech and the physical, biological, and social sciences? Join The News-Letter SciTech section as a writer!
Writers for the Science and Technology section cover scientific breakthroughs and achievements on campus and around the world, interview members of the Hopkins community (including students and professors), and write articles published in the weekly edition of The News-Letter.

No prior experience is required, and there are no preferred majors. Email science@jhunewsletter.com for more information.

SPEAK2US Hotline

The SPEAK2US hotline, launched in 2016, is geared toward the university and health system communities to report complaints or concerns related to harassment, discrimination, or other unacceptable behavior that takes place at Johns Hopkins. Reports can be made 24 hours a day, seven days a week via an online form or by phone at 844-SPEAK2US (844-773-2528). Students, please be aware of this resource.

Unpaid Internships and Service

Summer Research Assistant Position with Health Security Start-U

Background:

Do you have superior research skills that you can volunteer in an effort to get the world back on its feet? Civilience is a health security platform that helps people engage safely in the business of life – work, study, travel, entertainment – by identifying infectiousness (pandemic or seasonal), through symptoms and vitals data obtained from integrated software app and hardware accessories. We are a startup in stealth mode, because we are the only proactive tool that safely screens individuals well before their activity – allowing for better planning, increased productivity, reduced liability, and above all, a world with our full participation. We are growing quickly and are seeking to compile a list of the policies, guidelines, and regulations that are determining whether and under what circumstances people are allowed to go back to work during the COVID-19 pandemic. This position is ideal for an undergraduate student with strong research skills and an interest in infectious diseases, health information technology, and/or health policy.

In this role, you will be able to:

• Identify the relevant institutions/agencies/organizations that issue such regulations and guidelines, including but not limited to multilateral (WHO, UN, etc.), national (CDC, NHS, etc.), regional state (e.g., 50 states), local (e.g., NYC), industrial/labor boards (e.g., OSHA, HSE), etc.
• Set up the research structure with the company so that the changes in guidelines and regulations can be updated as issued by the authorities.
• Distill the guidelines and regulations into a form that can be entered into a computer database (e.g. “x” temperature in state “y” means “stay home”)

Specifics:

• Start date: Now!
• Duration: July & August

While this is an unpaid position, we are happy to work with you and the University to ensure that you can earn academic credit for your work (if applicable). Additionally, we are happy to serve as references and provide you with recommendation letters in the future.

To Apply:
Please send a resume highlighting your previous research/work experience and/or academic coursework in relevant areas (i.e. health policy, epidemiology, qualitative research), and a link to your LinkedIn profile to hr@civilience.network.

Volunteer with the Mayor's Office of Immigrant Affairs

The Baltimore City Mayor's Office of Immigrant Affairs (MIMA) is currently searching for reliable volunteers—especially those with additional language skills—to support a variety of remote and in-person programs and initiatives, with an urgent need for support for COVID-19 response efforts. Potential responsibilities include assisting immigrant community members to fill out forms, distributing yard signs with COVID-19 messaging in a neighborhood, staffing a COVID-19 call center, staffing a COVID-19 mobile test site, or translating documents.

To be considered, individuals must meet the following criteria:

- Have access to phone, computer, and Internet
- Be able to contribute 1-4 hours per week if participating in an opportunity
- Ideally be bilingual (if not, volunteers will be provided telephonic interpretation to communicate with immigrant residents). But not required for all opportunities
- Some opportunities may have additional requirements

To apply and for more information, please fill out the Google form at bit.ly/MIMAvolunteer. Applications will be accepted on a rolling basis, but those interested in assisting with COVID-19 response are encouraged to apply as soon as possible. For questions, please contact Charlie Nguyen at mimavolunteer@gmail.com.

Volunteer Opportunity - Fight COVID-19 with Science

Public Health Majors needed to volunteer to help Professor Bishai and his team do quality checks of COVID-19 epidemic curves from 3000 US Counties. Spend 2 hours per week quality checking AI-based detection of COVID-19 apices in all US counties. Training takes 30 minutes. If interested contact Dr. Bishai dbishai@jhu.edu and Colette Chang cchan125@jhu.edu

Recruiting Students for Student-Run Startup

OtoGlobal Health LLC is a student run startup which started 4 years ago. We have developed a low-cost hearing screening device optimized for conducting infant hearing screening in low-resource settings. It consists of hardware components like circuitry and 3D-printed pieces, as well as software on an Android app that controls the device. We are looking to recruit new members to join the team starting this fall, and we would love to hear from you if you are interested!

We have a clinical study at the hospital starting this fall, so right now is a really exciting time to join the team since the results from that study will push us towards the next stage of product development.

We have also won multiple business plan and design competitions and are well positioned with a patent to move us closer to a marketable device!
If this sounds interesting to you, please reach out to the team! We are looking to recruit people with interests in the following:

- Business development (Any interest in business plans, business competitions, etc. is very valuable. If you don’t have any experience but you would be interested in learning about and applying yourself to the business side of engineering, that’s awesome too.)

To apply, please send a resume and a couple sentences explaining why you’re interested to gmischl1@jhu.edu. If you have any relevant experience, make sure it’s in your resume. If you have any questions, feel free to contact that email as well.

---

**Paid Jobs and Internships**

**Opportunities for students and grads with the COVID Response Corps**

Make a difference to the health of your state! Come join the team working hard to control the spread of coronavirus and re-open America! The CDC Foundation is recruiting for critical positions related to the COVID-19. Open positions in all 50 states and U.S. territories can be found or will be posted on our [COVID-19 Corps careers page](#). Jobs vary by state and locality, but include roles for epidemiologists, infection preventionists, informaticians, data analysts, laboratorians, community support specialists, community health program managers, project managers, and more. Candidates should continue to check the website for new openings and roles as we continue to add jobs daily.

---

**The Johns Hopkins Bloomberg School Center for Communication Programs is Hiring**

The Johns Hopkins Bloomberg School Center for Communication Programs has a number of positions open from business development, to research roles, to social and behavior change communication programming! If you want to be part of a great team whose mission lies in “the power of communication to save lives by empowering people to adopt healthy behaviors for themselves, their families and their communities”, please apply to join us!

---

**Position with Global Tobacco Control at JHSPH**

The Institute for Global Tobacco Control at the School of Public Health is looking for motivated undergrads to assist with a multi-city longitudinal cohort study. Our objective is to learn how folks who vape use e-cigarettes and e-liquid over time. This would be a paid opportunity, and the hired undergrad(s) would assist in the coding of images and survey data. We are looking for assistance for this summer (approximately 20 hours per week), but there may be opportunities for the undergrad to work with our team during the school year as well. The work can be done remotely after the students are trained via Zoom. Candidates must be 21+ years of age. Anyone interested should send a CV/Resume to Jeffrey Hardesty at jhardesty@jhu.edu.
Please see the PHS website (Contact tab) or click here to use the online Advisor Scheduling System.

* Please note – system does not work with Chrome or Safari browsers or mobile devices

**PHS Weekly Submission Process**

Public Health-centric student groups and health-related organizations around Hopkins and the Baltimore community are welcome to submit announcements to the PHS Weekly. Please submit to cbarry8@jhu.edu by **5pm every Monday**.

For announcements or events, please submit the title, date, time, location and a brief description. The description should be brief and preferably include a link that will direct readers to another site for complete details.

For any position opening, please submit the position title, organization name, responsibilities and eligibility requirements, deadline for applying and contact information. Once again we ask you to keep the posting brief and provide an outside link for readers to gather further details.

**PHS Office Directory**

Maria Bulzacchelli, Director, mbulzac1@jhu.edu
Katherine Henry, Academic Advisor, kheberl2@jhu.edu
